spostma@mcps.k12.mt.us

- Media processing
- Curriculum trunks
- K-8 Video Library requests

Missoula County Public School Libraries provide a broad range of resources to enhance the educational, professional and personal interests of students, staff and community members. Elementary, Middle School and High School libraries are staffed with Teacher Librarians and support staff to link the MCPS community to audio-visual, print and electronic resources. The District Library, located in the basement of the Administration Building at 215 S. 6th St. W., houses additional resources, including the Indian Education for All and Gifted Education collections as well as a K-8 Video Library. Novel sets, classroom curriculum kits, STARLAB, digital cameras (e.g. Flip) , media projectors, microphones, video players, and other audio-visual devices are also available for short-term checkout. A poster printer and two laminators are available for educator use by appointment.

Professional resources are located in the Curriculum and CSPD Offices. Please contact the Curriculum and CSPD offices to checkout these materials.
