Use of New Web Tools

As part of 21st century learning, teachers and students will be using new web tools such as blogs, wikis, podcasts and videocasts. These technologies improve students' communication and collaboration skills, provide a real audience and extend learning beyond the classroom walls while building digital citizenship skills.

1. I will act safely by keeping personal information out of my web projects. I will not give out my family name, email address, home address, school name, city, country or other information that could help someone locate or contact me in person. I understand that I am not prevented from providing this information only as necessary to gain authorization for use of the web tool. I will not post identifying photos or videos.
2. I will treat blog and wiki spaces as I would a classroom space, and I will use appropriate and respectful language. I will only post on school-appropriate subjects. If I include pictures on my blog, podcast, videocast or wiki, they will be appropriate.
3. If I post a link in a blog, podcast, videocast or wiki, I will have read that information carefully to be certain that it is appropriate for the school community.
4. I understand that if I fail to follow these guidelines, I may lose the opportunity to take part in the project.
