Use of District Names, Logos, Symbols, and Mottos

District/School Identity
As an organization develops and grows, it becomes increasingly important that measures are taken to protect the organization’s name, brand, and reputation.

It is important to the district’s identity and image to maintain consistent use of the logo. A logo is more than an illustration. Our logos define and identify the District and our schools within the community. The District seeks to protect these images and their use for events, activities, and materials that benefit the District and further its mission.

The Missoula County Public Schools District would like to help others use our district and school names, logos and mottos in a professional manner. Please follow these guidelines when using the district or school logos for any of our 18 schools.
