	Question from APHP via Ginny Haines From: Karen Deden <kdeden@mcps.k12.mt.us> Sent: Thursday, March 5, 2020 8:18 AM To: Virginia J. Haines <vjhaines@mcps.k12.mt.us> Cc: Aytes, Francesca <francesca.aytes@providence.org>; Eckholm, Kristin E <kristin.eckholm@providence.org> Subject: re: APHP and the Coronavirus  Ginny,</kristin.eckholm@providence.org></francesca.aytes@providence.org></vjhaines@mcps.k12.mt.us></kdeden@mcps.k12.mt.us>		the message.  Her current answer to APHP: : There are currently no plans for MCPS to be shut down. To date there are no confirmed cases in the state. The district has a team that is working on how we will respond if/when the time comes.
4/6/2020	I am wondering about the protocol if MCPS shuts down, what you would like Rachel and I to do at APHP?		
3/5/2020 10:57:29	Concern about lack of hot water in sinks in schools		This was an email sent to Rob
3/5/2020 10:58:24	It would be helpful if students are directed to wash hands before they eat lunch		This was an email sent to parents
3/5/2020 10:59:00	Language we use for parents - we should have used CDC language (stay home when you are sick)		Question submitted to Rob via email
	Came in over email from a Paxson parent: As a parent of a Paxson student, I wanted to let you know that as you and a team develop a Coronavirus response plan, this is what I would like to see included (and was not mentioned in the email):		I responded and told her that we had already taken steps in this direction and it was part of our response plan.
	1) Schools to take additional cleaning and disinfecting measures for highly-utilized surfaces (The Missoula YMCA is already doing this - so should MCPS)		
	2) Students to have mandatory hand washing times, such as upon school arrival and before school breakfast, lunch, and snack. (Parents and teachers can tell students to wash hands but it needs to be enforced)		
	Ideally, these measures would be put in place BEFORE students begin to be diagnosed with Coronavirus in the coming weeks.		
	Thanks for you time,		
3/6/2020 9:17:46	How will we serve our most intensive students such as students within an Extended Resource Program if we were to need to move to a different modality of a classroom?		Possibly home visits? But in doing so, this still causes risk for exposure?
	This email came to Rob from Parent: Hi Rob,		Rob responded and explained we will not be closing schools - not advised to do so at this time by Public Health. Advice could change, b we likely won't make a decision about this issue before spring break.
	I really appreciate the message you sent out concerning the COVID-19 outbreak. I am curious if you have considered shutting down the schools after spring break for a week or two due to the fact that many people will be traveling and potentially bringing it back into the schools. I would like to know that the schools are being proactive instead of reactive concerning this virus.		we likely won thinke a decision about this issue before spring steak.
	It is important to acknowledge that folks could consider extending their travels if they realize that school will be closed after spring break. Thus, it will be important to alert them just before the school is back in session. I realize that this is a concern for folks who do not have child care; however, this will be an issue no matter what, as the virus will come eventually.		
	Again, I think it is important to be proactive instead of reactive, and with Spring Break on the horizon, it seems like a perfect time to clean the school and keep kids home. At my office, we are being asked to stay home with any symptoms, but we are also proactively working from home. My husbands office closed completely and has all employees working from home. Colleagues and spouses are being asked to stay home after Spring Break travel for up to two weeks.		

At Rattlesnake school our staff bathrooms do not have hot water most of the time. It takes FOREVER to get hot water down the pipe to the sink. We wash with cold water. 3/6/2020 13:55:09	no ideas
3/6/2020 13:56:32 Is hand sanitizer enough ? Classes come off the playground and go in to eat lunch.	Wash hands if needed, or is the hand sanitizer the solution.
Should schools get closed down:	I know Dave Rott has all the answers to these questions.
1) How will hourly employees be treated in regard to wages	
2) Will MCPS continue its contribution to our health insurance premium if we are off work	
3) Will we be forced to use our sick leave	
4) If we don't HAVE sick leave available, are we in an unpaid status	
5) Will we be eligible for unemployment if a shut down goes for an extended period of time.	
6) For those that have a compromised immune system (like me) do we need to have a doctor verify that compromise and allow us to be off should there be a case diagnosed in	
either MCPS or directly in our building	
7) If our school or district wide closings occur, will ALL employees be off work or will it be done based on who works 'inside' a building (close contact with others); in other words	
3/8/2020 14:33:33 will it only be staff that work directly with kids that get sent home and 12-monthers such as custodial, grounds, etc. be expected to come to work. 2	
Recvd this email on March 8	appreciate your planning for digital options that would allow students to
Some of the statements in your latest email and on the website are concerning to me as a parent. We should not take comfort nor have confidence in the statement that there	continue their education from home if they are ill or isolated from
are no confirmed cases of COVID-19 in the state of Montana. It is very likely that COVID-19 is already present undetected in Missoula. If not, we can be certain that it will be	school. Please also consider the following as long as schools remain oper
circulating in the community very soon. The statement on the website regarding "considerations for closing schools due to high numbers of ill staff and students or for deep	
cleaning" is deeply concerning. COVID-19 is a far more serious public health threat than other, well-known illnesses that might prompt school closure once a lot of people are	-Revise guidance for medically fragile students, and expand to include

Subject: RE: COVID-19	
Hi, due to the high #s of students using gymnasiums, I think it would be worth considering installing hand sanitizer (wall mount) stations in gyms. There is no way we can get all	
the kids through a handwashing during PE. Since every student is touching the same equipment it seems like it might help. At Paxson, there are nearly 1000 sets of hands	
touching equipment in the gym in 1 week. That's each kid twice. It's really hard to keep up on cleaning as there isn't enough product.	
Just an idea,

When will we be getting sanitizing wipes for the tables and desks at the high schools. To date, I am using ones I have purchased out of my own funds and this is getting spendy.	I really appreciate the email updates and have been sharing this info
	with my students. However, I do find it concerning that the newspaper
	stated several days ago that schools will be supplied with sanitizing
	wipes and they have not yet been. Also, is it possible to put hand
3/12/2020 10:18:15	sanitizer pump dispensers in each classroom?

	I am reaching out to you in hopes I can get this message to Rob Watson. I don't seem to see a way to connect with him via email.	N/A
	My concerns are around the Covid-19 situation. It has become abundantly clear that the areas across the world who have managed to slow down the spread to a manageable level so that their communities can deal with it are fairing the best in terms of not only the spread but also lethal cases (see Singapore and S. Korea). This meant they took precautions before they even had cases or saw an uptick of cases (which are always lagging a few days even weeks behind).	
	As of now, Montana doesn't have a case but we know that most certainly will change. Has any thought been given to take proactive measures to suspend classes after spring break? It's a unique opportunity given that we already had a built in week off. Adding another week to clean, assess and test online learning would potentially slow this thing down in our community as it's been determined that although children seem to be somewhat immune, they can still spread this virus, making it almost impossible to detect.	
	I urge you to consider this and consult with scientists and experts for guidance. It might seem like an overreaction and no doubt would it bring criticism but I believe that is a small price to pay for potentially saving lives. I know you are doing your best but we might have an opportunity here to lead on this and help keep this unfortunate situation from becoming catastrophic in our small community.	
	Thanks, Name Redacted for privacy reasons HFL	
3/12/2020 11:57:21		
	How many test kits are in MT? How many have been used? Could it be possible that there not confirmed cases at this time because Missoula does not have readily available test kits?	We need free and rapid screening performed in a way that doesn't increase exposure. I think we should assume that the virus will come to our town (if it isn't already) and consider remote schooling options to slow the spread of the virus and protect our vulnerable populations. Or at least offer it as a choice so that, at least, we decrease numbers in school to slow the spread. I know we have many students in the district who rely on school for meals, stability and health services and appreciate that so maybe having the option for remote education. Also, for our students who have underlying health conditions or lung disease, or just other concerned parents, I imagine attendance will plummet after spring break so having a plan before then would be great. An update the Friday before kids return doesn't seem like enough adequate time to
3/12/2020 12:50:13		plan?
3/12/2020 13:07:11 3/12/2020 13:07:51	What about brand new students who do not have acceptable use forms?	Override the permissions?
	Hey Hatton,  Just want to make sure that after school concerts and district music festivals are on your radar as well. I have a concert on the 25th and festival is April 3rd and 4th(all event dates should be in the fine arts calendar). Not sure if these automatically go ahead if school is going on, but I want you guys to know these things are going on, so you can make decisions on them in enough time to get the word out.	l do not know consider cancelling large events

3/14/2020 13:26:42	There are now 4 confirmed cases of COVID-19 in Montana.	Hellgate High School	
	1.Clarification on daily cleaning protocols for the school. During spring break, could there be a meeting for custodians? After reading -		
	https://docs.google.com/forms/d/1tqOY6Cm-X-XKtajlVz0MpvsuxbOmNUvvZuxfUguY4L4/viewform?edit_requested=true shared by MTSBA, we may need to re-write our run		
	sheets.		
	2. Concern - # of families and staff members who traveled outside of the country and to the Seattle area for spring break.		
	2. Concern # of families and staff members who traveled outside of the country and to the scattle area for spring break.		
3/14/2020 15:51:18	2.0	Rattlesnake Elementary School	
	Be proactive close schools before we have our children infecting each other, family, relatives, workers, and teachers. It's too late to slow this down when it's already in our		
	school. Now is the time to get ahead of this. Our health system needs all the time we can give it. Our students can catch up and will be ok in the long term. Please side on		
3/14/2020 16:14:30	overreaction than under! Can't go back. thanks.	Washington Middle School	
	I am a double board certified physician whom is deeply concerned about continuing in person classes. This note is my own personal views and not of the organization that		
	employs me nor the medical school that I am faculty on.		
	It is my professional opinion that continuing classes will lead to further deaths during this pandemic based on data from other countries and the 1918 influenza outbreak. The		
	large grouping increasing the rapid spread of COVID-19 includes schools; I wish this wasn't true as I have chose to practice in Missoula in part due to the excellent school system		
	you all have created. However, children at the center of known outbreaks that are infected with the novel coronavirus have high viral titers and only mild symptoms. This means		
	children are carrying this virus to vulnerable patients I see every workday in the intensive care unit and the Montana Cancer Center while perhaps asymptomatic.		
	I am sorry such a difficult decision lays at your feet. I feel for the teachers whose workload will be more difficult and also for the children reliant on school food. Due to this, my		
	wife and I plan on donating to food services for low income children. We plan on educating our two young sons at home to continue their education. Please consider your		
	students that are immunocompromised, the elderly with high mortality rates and my patients of all ages who are in danger of losing their lives to COVID-19.		
	Thank you for consideration of this request and concern.		
3/15/2020 10:48:03		Lewis and Clark Elementary School	
	Please consider closing schools starting after spring break. Don't wait until all the students come back from traveling, infect others, and then close schools. That would be		
3/15/2020 12:36:09	inefficient and counterproductive. Also, please ensure there is online learning so they don't have to go into summer.	Rattlesnake Elementary School	
3/15/2020 13:05:16	what adult activities are cancelled or not? Like gym rentals, field sports, etc	Hellgate High School	
	Hello, I am writing to you on Sunday, March 15, because I see the MCPS webpage addressing COVID-19 has not been updated since Friday, March 19, when there were no		
	confirmed cases of Covid-19 in Missoula.		
	Now that we have two confirmed cases in the city, I am writing to strongly urge MCPS schools to suspend in-person classroom instruction, in an effort to address community		
	safety. By providing students the opportunity to follow the CDC's guidance of social distancing we can reduce the rate of spread of this pandemic, thereby helping to ensure our		
	healthcare systems have the best opportunity to respond to community members who become sick.		
	meanticare systems have the best opportunity to respond to community members who become sick.		
	Immediate action is needed to flatten the curve of COVID-19 spread. Please use your leadership position in the community to look out for the greater good of our community		
	members.		
		T.

Please update the page about the covid-19 plans for school.	
3/15/2020 17:26:19	Willard Alternative High School Program
I'm a 7th grade student from Meadow Hill and I was wondering how students without laptops would get them because I don't have a laptop and if schools are shutting down and	
3/15/2020 18:07:10 We have to do online classes then I wouldn't be able to do them	Meadow Hill Middle School
3/15/2020 21:45:44 I am wondering what will happen with special education during the closure, as well as whether or not Arenas will still be held as prior scheduled. Thank you.	Jeannette Rankin Elementary School
Will we need to make up the days into the summer? What kind of supplemental education will be offered by teachers and will students be expected to complete it or is it merely	Franklia Flancouten, Cabaal
3/15/2020 21:45:57 a suggestion? (Asking as both a teacher and MCPS parent!)	Franklin Elementary School Franklin Elementary School
3/15/2020 21:46:08 Will the school closures and new policies affect the upcoming arena interviews for the 2020-2021 school year?  3/15/2020 21:46:20 Will arena interviews be rescheduled?	Jeannette Rankin Elementary School
3/15/2020 21:46:30 When will the arenas be rescheduled for?	Rattlesnake Elementary School
3/15/2020 21:47:54 At what point will missed days be added to the end of the school year?	Chief Charlo Elementary School
3/15/2020 21:58:04 What about staff members getting paid?	Franklin Elementary School
If there are still cases in the community come the end of the two weeks and school resumes will there be a option that can be utilized by parents if they are high risk and choose	Lewis and Clark Elementary School,
3/15/2020 22:02:30 for the health of their family to not send their kids back due to the virus?	Washington Middle School
How is the closure going to affect the end of the school year? Will it be extended beyond June 10th? How will it affect Seniors and their ability to graduate (not necessarily the	
3/15/2020 22:04:07 ceremony but actually being extended a diploma)?	Big Sky High School, Hellgate High School
3/15/2020 22:06:44 Is there somewhere where we can donate money during this time of hardship?	Lewis and Clark Elementary School
Drivers Ed starting in April and graduation ceremony are our concerns. We have paid for Cody to start driver's ed in April and he walks 6/6. Will Driver's Ed be rescheduled? Has	
3/15/2020 22:06:53 there been any plans for his graduation? We are needing to send invites soon. Thank you	Big Sky High School
I don't have a laptop if we have to do online class	
3/15/2020 22:14:58	Willard Alternative High School Program
I appreciate your efforts to keep our community safe! My concern may not seem important, but I am not alone when I say our kids aren't quite comprehending the importance of	f
social distancing due to Covid-19. My 2 boys (high school, middle school) have been home now for 3 days with little outside activity and social engagements. I realized we have	
few specific guidelines or recommendations in terms of social contact for them while at home. They want to see their friends and/or neighbor kids. Should they be allowed to see	
close friends? One friend? Two friends? I know we are supposed to gauge this by symptoms and the 6 foot rule but my standards are more stringent than other families in our	
circle and I can't guarantee what other families are doing to stay safe and keep our community safe. Keeping kids apart and not sharing germs is one thing in theory, but it is a	
whole new ballgame in practice. My boys are used to daily sports and extracurricular activities. They are already going stir crazy and we haven't even officially hit Spring Break	
yet. They want to see their friends and don't seem to understand the need for social distancing no matter how much I try to illustrate its importance because it is coming from	
their Mother. Also, many of their friend's parents seem to think this is all blown out of proportion and a political "hoax" and their attitude rubs off on the kids who would rather	
believe Covid-19 to be a hoax than not have any social engagement. Is there a way to reach out to our student population (mainly teens, middle school) to emphasize the need	
for social distancing and to emphasize the REASONS why they need to wash hands and make extra efforts to avoid spreading and contracting germs? I feel like I am fighting an	
uphill battle and I certainly don't want the lesson to take affect after someone they know (or they themselves) is infected with Coronavirus. THANK YOU! Many Montana parents	
will appreciate COVID-19 information and updates targeting our student population as well!! Again, thank you for your efforts to keep our community safe.	Washington Middle School, Hellgate High
3/15/2020 22:41:56	School
Please reconsider not cancelling the ACT. Hellgate will have been vacant for 10 days, a period to long for the virus to survive. In addition, the few students per classroom would	School
3/15/2020 23:01:29 be well distanced from each other per regular testing procedures.	Hellgate High School
During the week of 3/23 - 3/27 will there be classes online for our kids? Also, will we be able to pick up learning packets? Finally, will the kids have to make up lost time during the	
summer.	Chief Charlo Elementary School, Meadow
3/16/2020 0:38:10	Hill Middle School, Sentinel High School
Please support a school closure AT LEAST until 2 weeks after the end of spring break. Many families have likely traveled over the planned week of spring break so starting school	, ,
only a week after that increases the potential for carriers who are not showing symptoms to reintegrate with their classmates when they are still infected. I feel it is unsafe to	
invite the children back in the middle of what should be a two week quarantine period. Please help keep our kids safe with a longer formal school closure period that employers	
3/16/2020 0:43:02 are less likely to penalize employees for while we do what we feel is necessary for our family's safety	Chief Charlo Elementary School
How will we get food and computers to families and students who don't have transportation?	Jefferson Early Learning Center, Meadow
3/16/2020 8:15:29	Hill Middle School
I'm a community member living in the Lowell Elementary neighborhood and I would love to help out in any way that I can! Is there a need for volunteers during this time? I've	
already been background checked to volunteer with MCPS so I'm ready to jump in whenever you need! Thanks for your collaboration and communication in keeping the	
3/16/2020 8:56:59 community safe and informed!	Lowell Elementary School
3/16/2020 10:24:09 Is MCPS planning to do any distance learning or are we just taking these days off?	Chief Charlo Elementary School
Hello - I work for USAHello and you have listed our flu/coronavirus post on your page https://www.mcpsmt.org/Page/15098 - I just wanted you to know we have a more recent	
post just about coronavirus written by our board member who is a public health official and epidemiologist. It is hand translated into Spanish and Arabic and auto-translated into	
other immigrant languages with links to many WHO and CDC multi-lingual materials. It might be more useful to your population than the one posted in January. If you would like	Lefferen Ferhal coming Contes
3/16/2020 10:34:23 to change your link it is https://usahello.org/coronavirus-information/	Jefferson Early Learning Center
3/16/2020 12:10:14 For school closures, I recommend following CDC guidelines instead of political guess work. You can always phase shift the year and continue classes into July.	Big Sky High School
3/16/2020 12:36:35 As a Para Educator at Jefferson, I would like to know if I will still get compensated for 3/23-3/27.  3/16/2020 12:38:09 Should teachers report to school on March 23rd or not?	Jefferson Early Learning Center  Jeannette Rankin Elementary School
3/16/2020 12:38:09 Should teachers report to school on March 23rd or not?  3/16/2020 13:10:08 Arena interviews are scheduled for March 23-24. Will these still take place as planned?	Paxson Elementary School
We need to close the schools for the week of March 30th. Lots of people are traveling for spring break and they'll return with only one week before going back to school which	i azzon Elementary Jenoor
3/16/2020 14:23:33 we know is not enough time to show symptoms. Please cancel school for the TWO weeks that follow spring break.	Lewis and Clark Elementary School
3/16/2020 14:25:35 We know is not enough time to snow symptoms. Please cancel school for the TWO weeks that follow spring break.  3/16/2020 16:58:55 What does this mean for Parent Teacher Conferences?	Seeley Swan High School
This is a teacher question: will we be able to use Zoom or Google Hangouts? I teach 6th grade and my students are under 13. Will there be an exception made during this time	Secret of the first serious
to provide students some face to face time with teachers and classmates? I'm confident in my abilities to push out content in Google Classroom and provide a stable high quality	
learning environment for my students. Yet, I think it would be incredibly grounding and normalizing for them to be able to see each other and interact.	
learning environment for my students. Yet, I think it would be incredibly grounding and normalizing for them to be able to see each other and interact.  3/17/2020 6:52:55	C.S. Porter Middle School

	Will the students be receiving instructional materials to keep up with coursework? I didn't see (and maybe I'm just missing this) anything in regard to making up the closure		
3/17/2020 10:07:21	time? If both of these are a 'no' response, what would be the districts recommendations for study material(s)? Thank you for your time.	Washington Middle School	
	I will be on medical leave from 3/24 to 5/6. I will have a long term sub. Will the District charge my sick leave bank when the school is closed?	Meadow Hill Middle School

3/17/2020 17:21:47	How do I request computers on loan. I have 2 children who are in need, even just one they can share would be good.  Should kids pick up their school books as well or if the schools are going to be closed longer are the teachers going post any readings the children need online?  If gatherings of people larger than 10 are prohibited until May 10, how are students supposed to return to school before that? In their classrooms there can be around 30 students at once, and I'm sure they are not sitting 6 feet apart. I'd appreciate some clarification.  My daughter is scheduled to graduate this year will there be a delay in graduation or will the students still be walking on the scheduled date?  Are school classes canceled until May 8th? Or will schools be back in for classes on the 30th? That last email was EXTRMEMLY confusing on this point.  Will the students be provided a scheduled instructional learning time with a teacher to guide them through the academic subject areas? For example, web cam, discussion platform with question and answer period.  On the 23rd are you recommending us to come & empty lockers or just necessary items?  Graduation 6\6 still on? What about driver's ed that my sin is signed up for in April? Ty  so i have a freshman at big sky and a 7th grader at target range school. what do we do if we dont have access the internet at home for my children to stay with schooling?  We have delivery of our chocolate from the sale arriving March 26 and have a plan for distribution and pickup. We can't delay because of the risk of the chocolate melting or being ruined in another way. I will come and supervise chocolate sorting and distribution but want district administrators know that this will be an exception to the working from home rule. Additionally, Mike Johns is out on medical leave. Randy Z is filling in for him in facilitating the distribution and pickup.  What is our policy regarding recent air travel within the US by employees who plan on reporting to work on Monday? 	Please reconsider not cancelling the ACT. Hellgate will have been vacant for 10 days, a period to long for the virus to survive. In addition, the few students per classroom would		
3/18/2020 14:34:16	be well distanced from each other per regular testing procedures.	Hellgate High School	
	Good afternoon, my Daughter(Name Redacted for privacy reasons FHL) is a student at Porter and recently switched to a new schedule and half days per her 504 plan. We had not		
3/18/2020 15:27:14	vet started it when this all happened. Who should I be reaching out to in order to continue her education at home based around this 504?	C.S. Porter Middle School	
	I have twins in Kindergarten that receive one-on-one tutoring aid. I am concerned they will fall farther behind their classmates than they already are if we dont have this help at		
	home. Our teaching team was already on the cusp of holding them back; so without the structured environment school provides for 8 hours a day and the missing individual aid, I		
	worry about them continuing to need intensive aid through next year, which could possibly hold them back more. As a result, I have invested in online curriculum for them, but I		
	would like to know if there is a way our children can still receive the one on one tutoring via zoom or skype if this is not possible will I have to make those kind of arrangements		
	on my own?? I would need help locating resources. I also worry that finding a private tutor will cost more out of pocket and we are a low income family as I am a graduate		
3/18/2020 16:14:43	student myself and am the only income for our 5 person household. How does the school plan on addressing the lack of concentrated effort to address students with "special	Paxson Elementary School	
, ,	Just curious if we will be able to have the fund for track refunded. This was the first sport of the year and we paid the full \$120, Are there any plans on how this will be handled?	,	
3/18/2020 16:21:42		Sentinel High School	
, ,	I added earlier today that my Daughter just started a 504 and was inquiring on how that will Apply or work with the online learning or who I need to discuss it with. It slipped my	3	
	mind that she also does not have a computer and mine isn't quite capable of doing more than browsing the web without major slowness and issues. I saw that there are pick ups		
3/18/2020 19:32:16	for computers next week. but wasn't sure if we need to request one or how that works.	C.S. Porter Middle School	
	For clarification, because information seems to be conflicting or not definitive:		
	Will schools be open or not on 3/23 to pick up instruments, books, etc.?		
	Will there be alternate days to pick up items?		
	Will there or will there not be online instruction the week of 3/23-3/27?	Meadow Hill Middle School, Sentinel	
3/18/2020 22:59:50	We have heard from one teacher who is prepared with lesson plans on google classroom already	High School

3/23/2020 15:25:58	What is meant by the week of 3/27? Is that this week or next week?	Hellgate High School	
	I still have not had an answer to my question about loaner laptops. My household does not have the means to provide a laptop, and my daughter just has her phone. It is very		
	difficult for her to do anything on a phone as far as school work. I was told that the pick up day today would not be handing out laptops. So we are in desperate need of one.		
3/23/2020 15:28:28		Big Sky High School	
	I would really love for you as a district and specifically as a principal to be reaching out directly to the students as well as to the parents. All the information that we have received	5 , 5	
	from sentinel high school or about schools in general have come to the parents. Having a teenager that is not intrested in listening to what her parents have to say even if we are		
	just reporting what the district is communicating to us has not been easy. I know for my situation, my student getting information directly from her principal and/or from her		
	teachers or the district will be received in a much different way than it is being received coming from us. When I forward her the emails that you send she disregards them. If the		
3/23/2020 15:32:06	emails come from her principal she will be more inclined to pay attention to them and follow the guidelines.	Sentinel High School	
3, 23, 2020 13:32:00	I have not seen that the ACT has been cancelled for Hellgate High School students, set to occur this week. I would imagine that we do not want our kids sitting in confined spaces	Serialier riight seriest	
2/22/2222	for hours amidst a pandemic. Could you please provide clear guidance about what's happening for the ACT test and what alternative arrangements, if any, have been made.		
3/23/2020 15:37:10		Hellgate High School	
	We were not in town on the day you scheduled for students to be able to retrieve items from the school. Will there be another opportunity to do this? My son's clarinet is at		
3/23/2020 15:42:32	school and the band teacher scares us.	Washington Middle School	
	I want to know whats required, not suggested, to get the kids through this time and into their next grade levels. I will not be teaching 6 hrs a day, I have my own job to do		
	everyday from home. I thought the e-learning would be student- or platform-led, as opposed to parent-led, and am disappointed to discover that I, as a parent with a full time		
	job, am expected to lead these lessons. I cannot simultaneously engage with them at their various skill levels simultaneously and therefore will need to additional time with each		
	kid, thereby extending the day. Please advise how this home learning time will be assessed in the fall.		
	. , , , , , , , , , , , , , , , , , , ,		
	To Whom It May Concern: Just call the school year. None of us needs the added stress of home-learning on top of the stress of the current situation and new Work From Home		
	jobs. Just call it. Or at least explain why you haven't or wont, because this feels like a stop gap to keep being funded until someone steps up and does what needs to be done.		
	This is completely unnecesary, just call the 2019/2020 year over and lets get on with the business of being parents. Most of us, myself included, aren't cut out to be teachers.		
	Thank you for your consideration.	Hawthorne Elementary School, C.S.

	I have a few questions:		Linda will email Jan. We are already on the 6th grade tdaps.
	·		on grade taaps.
	1.) Our 6th graders need to have the T/Dap booster to enter into 7th grade before Fall. This needs to be thought about.		
	2.) Pre-Enrolled Online & new students for fall. This is usually a busy time for secretaries, but we are working at home and we are not equipped to mail, copy and all our supplies.		
	This on this also.		
	3.) Finally, the big one: a some point we will need to think about moving student to the next school. For example: elementary 5th graders to middle school "recordkeeping" and		
	banking

3/23/2020 7:31:34		Washington Middle School	
	Hoping you are all well in this extraordinary time. I have a question. I have several relatives working in Seattle area schools. My brother's district is providing extended learning		
	opportunities (what we are moving toward now), but he stated "no school districts in WA meet the criteria to legally provide "online learning"- ie new content.		
	Is this the situation in Montana and or has OPI waived this restriction? With all of the very good communication to staff, it is not entirely clear if there will be an expectation of		
	providing new and ongoing content as time goes on. I believe the assumption is that we are moving that way.		
	Thank you for any clarification you can provide.

	As I talk with colleagues across schools within MCPS, it is clear how many different things everyone has going on and going forward- from what platform(s) everyone is using, to how information is communicated, to where to access information. It's WAY TO MUCH for our families. They are overwhelmed and over inundated with the amount of		
	·		
	information coming their way. We have to remember we have single households spanning K-12, with potentially students in the same household attending multiple elementary, middle, or high schools (ie. I have several families with a middle schooler at Porter and Washington). With every school essentially going "rouge" in how they are presenting		
	online learning, this is fairing to be quite overwhelming for our staff, students, and families. Why is the district not streamlining this process and providing more directive on the		
	tools we should/can ALL be using? And creating a centralized platform to access information? I'm concerned we are focusing too much on individual schools and not what's in the		
	best interest for our entire community. If we are trying to KISS- (especially for our families) why are we "silo-ing" off, letting each teacher, classroom, and school choose how they		
	will provide distant learning? Then by any few years time

Why can our Montana University system make a decision to go on line for the remainder of the school year but MCPS can not do the same. This is a global crisis that is not going		
to go away or be safe in the next 1-2-3 months. This 2 weeks at a time is more difficult for both students and teachers, than just making a final decision. University students and		
their teachers were able to get into a routine and proceed successfully to finish the school year. This unknown system makes everyone anxious and unable to get into a routine.

I see the emails about putting mental health first but then tell teachers to stop assigning work!!! If they skip an assignment it will still be there waiting and another one as well. I have sent an email to Judson at Hellgate and got NO RESPONSE and also to Kacie L at Washington. She did respond but said pass/fail isn't on the table right now.  EVERYONE in my house hates this. STOP with new content while the world is dying. This IS NOT business as usual or a series of snow days. It's ok to STOP.  This is so stressful and you have the power to relieve SOME of that stress. Please exercise it.  I would like to know if you have considered shifting your Health and PE curriculum to one that encourages kids to PREVENT depression due to lack of exercise and excess of screen time. You have taught about depression but maybe contextualizing the higher risk for healthy kids to become depressed in the midst of the lockdown could be of help. My child (in 7th grade) is in what I call "double isolation": Isolated from school and self isolated from family. She is experiencing increasing bouts of sadness, but because of her age, is still under the illusion that parents on this? Thank you for any feedback. achieving. She is in 8th grade and only gets a quick check in that is maximum 15 minutes.	
My biggest concern is for the children who are more at risk. I also operate a Mental Health Center with Youth Homes (Name Redacted for privacy reasons FHL) and am very	
concerned about the lack of contact between the teachers and our clients at Youth Homes (and all the students) Many student that I see for therapy (provided via tele therapy)	
are not doing any school work. We see 95% Medicaid clients and have been been able to able to continue to provide their regular appointments through tele health as they all	
have a smart phone or tablet. Families and kids are having intense needs right now, that I am concerned the school system is disconnected from the students right now. We are	
busier than ever and having trouble with keeping up with the needs of the children because they are not in school and not attending Zoom meetings. I am concerned that	
children are not accessing remote learning and that without more teacher contact, more problems will increase.	
Please increase teacher- student contact so that teachers have contact with students each day and not just for a quick check in.	
4/16/2020 12:39:10 Please also list Youth Homes Mental Health Center on your page of Mental Health Services in Missoula, 721-2754.	Washington Middle School
Do you think we will could have a month of summer school to make up the days we've missed? Also do you think the students will return to school before the fall?	Marking the a Middle Calcad

4/18/2020 7:58:58 Will schools reopen in May?	Lewis and Clark Elementary School,
Hello, the COVID-19 page on your website has not been updated since 4/7/20. When will you be providing the next update? Is school still only currently closed through 4/24/20, 4/20/2020 12:03:06 or has it been prolonged? Thank you.	Washington Middle School
4/20/2020 15:04:22 How much notice will we be receiving before schools reopen? Will we find out on the 24th if school will start that next Monday? Or will we have more time?	Russell Elementary School
I am sincerely hoping that the schools will stay closed for the remainder of the school year. As an educator I truly see the benefit of face-to-face meetingsI have also had to go	Nussen Elementary seriodi
remote with my instruction. However, as a spouse of someone who is in the high risk category, I am nervous about the kids going back to school anytime soon and would prefer	
to give it time for social distancing to work and for herd immunity to begin, thus allowing for the kids to go back in the fall. Thank you for considering this.	
4/20/2020 17:47:23	Hellgate High School
I feel as a mother of a Kindergarten student and preschooler. That maybe opening the schools so soon is pretty scary. My Kindergarten student has breathing issues and my being	
4/20/2020 22:19:57 pregnant puts us at higher risk. How will the schools protect or children id the is a second wave of community outbreak?	Russell Elementary School
Our family has a 5th grader at Paxson and a Kindergartener with an IEP in (Name Redacted for privacy reasons FHL) class at Hawthorne. Their father is severely	
immunocompromised from the medication he takes for his arthritis, and I have asthma. To wit, our 5th grader is also diagnosed with celiac, which also puts her in the	
"autoimmune disorder" category.	
I am very worried that we will be at greater risk if the schools are opened back up. Are there going to be options for families like ours to keep our children from briging it home to	Hawtherna Flamentany School Dayson
4/20/2020 23:23:07 us? We've already suffered through at least 4 really bad illnesses (including the flu), which has resulted in my husband contracting pneumonia twice. I am very, very scared that	Hawthorne Elementary School, Paxson
4/20/2020 11:11:08 Has there been any discussion about starting school earlier in August for our struggling learners especially K-5?	Elementary School Rattlesnake Elementary School
My concern is that I apparently fall into the category of concern due to my age (over 60) and previous health concerns (cancer). I don't feel "safe" to return as the students will	Natueshake Elementary School
not be able to maintain a distance from each other as they work four to a lab with 24 per class.	
not be able to maintain a distance nome each other as they work four to a lab with 24 per class.	
I love my students and my job. I don't feel hiring a sub to cover for me, if I chose to use sick time, is an answer. The demands for subs during the school year has been impossible	
to maintain. As it is during the school year, staff has been covering for other staff while no subs have been available which I don't feel is right. On the other hand, I did ask one of	
my subs would she come in and work. Her reply was, "for \$11 something an hour and risk my healthno way".

	IF you open for middle school and high school, please do not reopen the elementary schools. Social distancing and facemasks will not work with our little ones. Thank you so		
4/22/2020 11:32:47	much for all you are doing to keep our kids and our community safe!	Chief Charlo Elementary School	
	If you are an employee and your medical provider recommends you don't return to work as you are in a high risk group if school resumes what is the leave policy		
4/22/2020 11:35:39		C.S. Porter Middle School	
	Regarding the most recent update: "We also believe that the Governor will announce that he will lift his school closure order after May 11th and leave the decision to remain		
	closed or to reopen to the local decision makers, specifically the locally elected Board of Trustees."		
	Have we heard if there will be any funding or attendance concerns for districts that decide to remain closed?		
. /22 /222			
4/22/2020 11:37:30		C.S. Porter Middle School	
	in regards to returning to school, I can't help but think of specific children in the "at risk" group. I have one child in my classroom who is extremely asthmatic (his parents will		
	send him to school as they have a limited resources and his attendance is strong) this is a child who also hides in lockers, throws scissors and runs from staff members - so the		
	verbal request made to "wear a mask" will be impossible if we are unable to keep him in classroom for safety there's no way to ensure he's going to keep a mask on for safety.		
	How will we meet needs for ALL children in this special pandemic when we're already stretched thin and struggling to meet their needs in a "normal" school day? I'm extremely		
4/22/2020 11:41:45	fearful	Paxson Elementary School	
· · · · · · · · · · · · · · · · · · ·	As the school board may be deciding if we should reopen schools in the future, I feel as a special education teacher they need to consider the following:	T dx3011 Elementary School	
	1. How will social distancing be maintained to protect myself, my family and my colleagues with students who have trouble with physical/social boundaries, need physical		
	prompting, etc.? How will social distancing between students be maintained in small resource classrooms where small-groups take place and there is no room to spread out, as		
	well as in a school with limited room to distance students as they go to lunch, into the building, etc.? Will there be concrete plans and actions for how this will work (staggered		
	classes, etc.) if school is to reopen?		
4/22/2020 11:41:54	2. How long would it take to get back into the routine of school after being out for so long, especially special education students, after they have just somewhat adjusted to	Hawthorne Elementary School	
	Hello. Submitting as an employee of MCPS (as janitors did not, I believe, receive a direct communication soliciting their input). As someone who has cleaned a grade school for		
	ten years, I seeunfortunatelyonly health risks in reopening school this year. We at Russell are currently in a unique position as we clean for the Emergency Y Day Care and I		
	feel this gives us insight not available elsewhere. Without going into detail (although we/I are available for discussion) the disinfecting is extraordinarily time-consuming if done		
	right (and right is the only way.) Even with best practices, one can identify potential areas of oversight each night. Yet each night we attempt to address those areas. As a		
	professional cleaner. I see no way to combat potential contamination and believe safety must come first.		
4/22/2020 11:47:13		Russell Elementary School	
4/22/2020 44:47:20	I just wanted to restate that some teachers (myself included) will still not have childcare, even if schools reopen this Spring. Just another thing to consider. Thank you for all	Laveia and Clark Flavorestant Cabard	
4/22/2020 11:47:29		Lewis and Clark Elementary School	
	If May 8th marks the beginning of Phase 2, keeping in mind that Phase 1 has to be successful, aren't we required to wait 2 weeks to see if Phase 2 is successful before reopening		
	schools? I thought reopening schools was a consideration for Phase 3.		
	I would also like to point out that when the flu was going around this past winter, I had multiple students (sometimes 5+) absent for days at a time due to contracting the flu. If		
	COVID 19 is just as easy to contract, won't the students be at a higher risk of contracting and/or spreading the virus (within the school, home, and wherever else they go after		
4/22/2020 11:54:27	school)? I want the students to be back in school more than anything, but I think being healthy and safe is more important than resuming learning in the classroom.	Russell Elementary School	
, ,	I ask the board to consider this: We have won the battle but not the war. Reopening our schools without careful, considerate, and deliberate planning for safety of students,	,	
	staffs, and the families we all go home to will result in widespread COVID infections. This risk comes with only five weeks of school remaining. Many parents will choose not to		
	put their child at risk and will not return to school. Many vulnerable staff will not have clearance from their doctors to be able to return to work, resulting in random subs (and		
	sub-par lesson delivery) or splitting the affected class into other classrooms resulting in crowded, close contact classes. Staff will not be providing effective lessons as the		
	immeasurable stress about the safety of ourselves and the risk we are putting are families at will impede our ability to perform. With only five weeks remaining, let us put our		
	community first and be the district that reopens in the fall with strong protocols, safety precautions, and healthy families. Five weeks is not that much lost instruction in the big		
	picture. But five weeks is an enormous risk in the health of our community. I ask you, as a teacher, please keep us safe. DO NOT REOPEN our schools.		
4/22/2020 12:33:00		Lowell Elementary School	
	As a travelling teacher who is also a parent I'm concerned about the possibility of becoming exposed to the virus and putting my family at risk. I am also concerned about my		
	children being in a setting that will allow for an increased risk of exposure. Will there be a plan for teachers who are parents that wish to keep their children home for the		
A/22/2020 12:20:24	remainder of the year? Will there be a plan for teachers (elderly, high risk or with family members that are high risk) who would rather not return to the classroom?	Chief Charle Flomentary School	
4/22/2020 12:39:24	I strongly believe the Missoula County Public School District should NOT open until the fall. Remote learning is working well for our daughter and keeps our high risk family	Chief Charlo Elementary School	
4/22/2020 12:40:26		Russell Elementary School	
	members safe. I am not comfortable sending my child back to school on May 7. We will continue to do remote learning at home, and hope that schools will remain closed.	Chief Charlo Elementary School	
	I'd like school to open IF you can do so safely (facemasks, etc.). Not sure what you do about kids and social distancing, but I trust you to make the right choices.	Paxson Elementary School	
	I've received a notification there has been an update, however I'm not seeing anything new on the website. Can you please advise	Lewis and Clark Elementary School	
	After May 7th, please consider allowing only our Seniors to return to school and limit classroom size to 10 or less. Please consider symptom checking at the door and masks used	,	
	on school grounds. These is a crucial time in our Seniors lives and I would love to see them finish out the school year with their class, teachers, and counselors. Thank you.		
4/22/2020 12:43:45		Sentinel High School	
	I am really concerned about my kids going back to school. I have kept my kids at home since spring break not taking them into stores and have seen kids being taking into stores		
	and businesses. I have took them for hikes or to the river but seriously worry about them being exposed to the kids that have been drug all over town with their parents. I would	Hawthorne Elementary School, Big Sky	
	like an option for my kids to continue to do the online learning till I see that they are safe to go to school again.	High School	
	I really hope schools do not plan to open this academic year. I will not be comfortable sending my children to school because adults complained enough to finally get the state		
	opened again. We have fewer cases than other states, but they will increase rapidly with the reopening of business. I am not willing to risk the health of my family because		
4/22/2222	people complained about not being able to get a hair cut or go to the casino! Please keep the health of our children and families in mind. Thank you	C.S. Porter Middle School, Hellgate High	
4/22/2020 12:44:25		School	
4/22/2020 42 44 25	I will not be sending my daughter back to school this year. We have high risk family members and frankly I find it irresponsible to consider opening the schools. Are you going to	Davison Florente III Cale and	
	offer continued online classes?	Paxson Elementary School	

	If schools decide to reopen after May 7th, will parents have the option to keep their child home if they are not comfortable sending them back yet? Will there be remote learning		
4/22/2020 12:44:55	options available? If parents made that decision, would it impact their child being able to go back to school in the fall in the next grade?	Franklin Elementary School	
	I am very concerned about the possibility of opening schools this Spring. I am a mother of four children (three in the school system) and one that has severe asthma,. We know		
	that covid-19 would be deadly for our youngest as other respiratory viruses and influenza repeatedly put him in ICU. Our family can not risk sending other children to school who		
	could potentially bring covid home. There is not enough time left in the school year to rush returning to school and putting vulnerable people at risk. Please do NOT reopen	Rattlesnake Elementary School,	
4/22/2020 12:45:39		Washington Middle School	
	Please keep the schools closed. Nothing that students will learn between 5/7 and 6/11 is worth the risk of putting thousands of students and staff in close proximity. I'd also		
	suggest that ensuring younger students wear masks (as per the Governor's recommendation) is not realistic and would make teaching and learning next to impossible. Thank you.		
4/22/2020 12:46:26		Sentinel High School	
	Outside of health concerns, which remain substantial and worrying, teachers have been asked to do a Herculean task by teaching at a distance. Reaching everyone and trying to		
	provide material is tough and hard work and they deserve applause and raises. Please do not open the schools back up this year. Many families will not send their kids back,		
	which means that teachers will have to figure out how to teach half-empty classrooms. Teachers are already doing the impossibleplease don't make this harder for them and	NA/a ah in atau a NAidalla Caba a al NA/illa ad	
4/22/2020 12:46:45	don't put families in the position of having to choose between family member's well-being and education.	Washington Middle School, Willard	
4/22/2020 12:46:45		Alternative High School Program	
	What do we do if local school boards decide to open schools but we, as parents, decide for the safety of our kids and families, that we DON'T want to send our kids back for the		
	remainder of the year? Will students who stay home get remote work vs kids who go back? Will they be penalized? I don't personally foresee myself sending my kids back as their	Jeannette Rankin Elementary School, C.S.	
4/22/2020 12:46:46		Porter Middle School	
4/22/2020 12.40.40	would be helpful Given the Governors recent statement to extend school closure only through May 7 I would like to share my concern about reopening MCPS schools this year. I firmly believe it is	Forter Middle School	
	in the best interest of student, staff, and community health to continue using the remote learning platform for the remainder of the 2019/2020 school year. I will not be allowing		
	my students to return to face to face schooling for the remainder of this year as it is a health concern for our family and I believe it puts the health of many community members		
	at undue risk. I also would not want my children to return to a school full of face masks and social distancing for the last 4 weeks of the year - we have finally adjusted to the		
	remote platform transition and we can successfully navigate this for the rest of the school year. I hope that the board will extend the closure for the rest of the year and spend		
4/22/2020 12:46:52	time making a plan for a safe reopening in the fall. Thank you for hearing my concern.	Lewis and Clark Elementary School	
	Please do not open the schools we need to protect our childeren. They are the future	Big Sky High School	
	My concern is for grandparents like us (age 65 and 74) who are raising young grandkids. We would strongly be in favor of waiting until fall to resume returning to classrooms. It		
	doesn't seem worth the risk to return for only 5-6 weeks.	Russell Elementary School	
	Please consider reopening the school in the spring since being closed is affecting my senior.online schooling is not effective and in person graduation is so important		
4/22/2020 12:47:12		Sentinel High School	
	I have kiddos that have a baby brother at home that was born premature, therefore the thought of sending them to school heightens my anxiety with this virus in our		
	community. Kids have a hard time with washing hands, social distancing, face masks when just going out to the store, doing this for a solid 7-8 hour school day is really pushing it.		
	I believe your subjecting not only our youth to the virus but their homes as well, if at all possible to maintain the online learning I think it would be best for the health of the		
	Missoula community. Also, if we were to resume schooling for the remainder of the year (5 weeks) is the additional learning that will be done in that time worth the rise in virus		
4/22/2020 12:47:34	numbers?	Hawthorne Elementary School	
	We don't have a high risk for Covid 19 in our household however, sending my kids to school where it is really impossible for kids to stay 6 ft apart and for younger kids to keep the	Lewis and Clark Elementary School,	
	best hygiene efforts makes me extremely nervous. We have no real way to ensure their defense against this virus. Will there be an option for families to decide to keep their kids	•	
4/22/2020 42:47:54	home if they are lucky enough to have childcare even if schools open for the last four- five weeks? This would also keep less kids at school to help lessen the threat of spread.	Washington Middle School, Sentinel High	
4/22/2020 12:47:54		School	
	How can we, as a school community, justify sending our students back with the guidelines that have been set by the governor of no more than 6 at a table, of the same family;	Big Sky High School	
	and where the restaurants can only go to half capacity? You are being very thoughtful in your approach. Thank you. It is important to reopen schools in May, to the extent possible, because they may have to close again in the fall or	big sky flight school	
	winter. Can schools remain open until the 4th of July to make up for what was lost and may be lost in the fall? Can they reopen for the year in early August? It seems prudent to		
4/22/2020 12:49:43	keep students learning in the warmer months when infection rates are low. I like the idea of half days to limit the number of children in the building at once. In that case, please accommodate families so that siblings attend with the same cohort	Paxson Elementary School	
., ==, ================================	How do we go back to school and follow the directive not to gather in groups of more than 10?		
	How do we go back to school and adequately social distance?		
	It seems impossible to do either of the above in a classroom full of 28+ students. This will put everyone at risk.		
	If you go back, are you planning to have students and teachers wear masks? It does not seem realistic or reasonable to ask students and teachers to do so for hours on end.	C.S. Porter Middle School, Sentinel High	
4/22/2020 12:51:54	in you go back, are you planning to have stadents and teachers wear masks. It does not seem realistic or reasonable to ask stadents and teachers to do so for hours on end.	School	
	I really don't think it is a great idea to open the schools. My daughter has underlying health issues and it could land her in a hospital. Cindy Farr with the County Health		
	Department indicated that there is a possibility that 6 ft might not be even space when people are active. I didn't appreciate the previous message to kids to even say that it's		
	acceptable for them to hang out in groups of 10 or less, 6 ft apart, with masks on. I don't think these kids know what 6 ft is and I don't think they fully understand there are		
	consequences to their actions by not following the rules. It only takes one person to get a group of people infected. What the e-mail should say is that if you do get sick and end		
	up in a hospital, you will die alone. There is no visitation. Even if you don't end up in a hospital, there is a chance of infecting a whole family. We are a family of six. It can take up	AA	
	to two weeks to show symptoms. If a child gets it and then the parent gets it and then the parent goes to work. The business is shut down. For the greater good and the safety of	Meadow Hill Middle School, Sentinel	
4/22/2020 12:52:38	and familiar that make the base and a second state of the second s	High School	
	If it is decided to reopen the school, can a parent opt to continue remote learning? I do not want to send my daughter back even though none of us are high risk. There are too		
	many students and faculty to be able to properly clean everything and keep the students separated. I feel like teachers would spend more time focusing on that than they would		
	be able to actually teach the kids, which would be exhausting for all people involved. I would like to have the option to keep my child home for the remainder of the year without		
	fear of her getting sick or having to repeat a year.		
	Thank you for reading this. I hope you have a wonderful day and stay safe.		
4/22/2020 12:55:56		Paxson Elementary School	
	How will instruction of students with compromised immune systems be taught? Will remote learning continue? My son has asthma.	C.S. Porter Middle School	
<u> </u>	i i i i i i i i i i i i i i i i i i i		

I am a parent to two children in the district. I am also a teacher at Washington.	
From the teacher perspective: If the district decides to re-open, I would anticipate that parents of many of our students who are at risk as well as those who have family	
members at home who are at risk will decide to keep their children at home. How do I find time to support those students who are not coming to school and the students who	
are coming to school while still functioning as a father at home during a time when my family needs me even more than normally? This is particularly challenging this year since	
am teaching at a new grade level, so every lesson is new this year regardless of whether it's in class or through remote learning. I can do a good job supporting my students in	
the classroom or through remote learning, but any sort of hybrid would be overwhelming.	
From the account of the Company of the Middle of the Middle of the Middle of the Company of the	
From the parent perspective: One of my children is a Kindergarten student. I simply can't imagine a way to maintain physical distance with a group of young students. This, in	
turn, is exposing me and my family to all of those students and their contacts. It's a scary thought to me.	Lewis and Clark Elementary School,
4/22/2020 12:58:27 No need to email me a response unless I can be of some assistance in any way. I've been impressed by the district's efforts and proud to be part of this organization through a	Washington Middle School
4/22/2020 12:58:37 I think school should just remain in remote learning. Why put our children in danger?	Russell Elementary School
I find children to be less inclined to practice safe behaviors. I just walked past three Hellgate High soccer players sitting shoulder to shoulder on the bank of Rattlesnake creek	
smoking pot.	
That is common high school student behavior. I know these boys parents and I know they are taking Coronavirus seriously.	
If schools re open, I will be very reluctant to send my kids back. That seems like a perfect storm.	
4/22/2020 12:59:52  Thank you.	Hellgate High School
I would like some options for kids to start attending in person starting May 8. I think in person instruction is vital and safeguards can be implemented such as half-days, 4/22/2020 13:01:26 alternating attendance days, and limited mixing of groups/classes.	Franklin Elementary School
4/22/2020 13:03:00 Graduation	Sentinel High School
1. I teach extended resource at Hawthorne. 2 of my paras have compromised immune systems and won't be able to return to school when it reopens. What will we do about	
staffing, as I have a high need class?	
2. I teach children who are not aware of and don't engage in personal safety measures such as washing their hands thoroughly,. In addition to this, they pick their noses, drool,	
etc. How will this be handled? My own child has asthma. How can I ensure I'm safe and that I don't catch something I then transmit to my own child, who has a compromised	
immune system?	
3. I teach children who are physically aggressive and who we have to be in extremely close proximity to and in close physical contact with. How will this be handled safely if	
school reopens? How will the district protect both the teacher and the students in these cases?	
4. Will the district be providing us with PPE, hand sanitizer, Chlorox wipes, etc?	
4. Will the district be providing as with 11 L, hand samuzer, emotox wipes, etc.	
4/22/2020 13:04:55 5. If school reopens, will teachers be given work days to get our classes back in order? A huge portion of my classroom is at my house and the houses of my paras.	Hawthorne Elementary School
If it decided that students will be returning to school for the 20ish days left in the year, will there be repercussions against families that do not wish to risk the chance of their	,
4/22/2020 13:05:52 student(s) getting the virus?	Big Sky High School
Will returning to school buildings during the remainder of the 2019/20 school year be optional, even for kids not in high risk categories? What resources will be available to	Hawathawaa Flamantam, Sahaal, C.S.
families that choose to protect our kids by keeping them home? My family has decided to finish out the year at home regardless of reopening UNLESS it's mandatory.	Hawthorne Elementary School, C.S.  Porter Middle School
4/22/2020 13:07:15  If the school's are reopened, and a second wave of infection hits Missoula, is the Board prepared for the fall out (both in terms of people, but also Lawsuits) from not just the	Washington Middle School, Sentinel High
4/22/2020 13:07:29 students, their parents but also the Faculty?	School
Covid is contagious even when symptoms are not present. Schools should not open on site while this pandemic is not treatable. I lost a child before. I can't lose anotherplease.	
4/22/2020 13:09:38	Russell Elementary School
Hi - just putting this idea out there in case it has not been considered yet: might the district consider a hybrid approach, where in order to lessen the number of students at	
school each day, students go to school on alternating days, then carry on with online school on their off days? Not sure if that would make much of a difference from a social	
distancing perspective, but it might. i.e.: Group A goes to school on Tues/Thurs, works from home on Mon/Wed; Group B goes to school on Mon/Wed, works from home on 4/22/2020 13:10:04  Tues/Thurs?	Washington Middle School
My teenage son has expressed multiple times that he views the social distancing requirements as over reactive and unnecessary. This is despite us providing him with facts, data	
and information. I fear that opening up schools puts a lot of faith in the youth of our city to respect social distancing guidelines that they don't want to take part in. The potential	
and likely violation of this faith by our youth puts our whole city at risk. Because of this concern I am a strong supporter of keeping our schools closed through June.	
4/22/2020 13:11:17	Hellgate High School
I am writing to advise that schools not resume this year. The CDC and WHO still recommend masks and six feet of distance between people you do not live with. Schools are	
completely unable to follow this. Can we provide masks for every staff member and student, limit persons six to a table, eliminate transitions between rooms, provide staff to	
take temps before anyone enters the building, isolate touched items for two weeks before the next use, pay staff members hazard pay and provide them with adequate sick	
leave and subs? If the answers to any of those questions are "no" then it would be a major risk and liability to resume. I would personally not allow my son to enter the school	
this year because of medical advice from the CDC which would require finding coverage for me (as a teacher). I know I am not the only one in that position. I ask that you do the	Paxson Elementary School

	I just want to share my concern regarding potential reopening of school. My preference as a parent would be for schools to reopen after Covid-19 tests are available for ALL		
	facility, students and their families in Missoula. Please ensure that families must supply the school with test results similar to our requirement to show vaccination records when		
	children start kindergarten, prior to returning to school.		
	Online learning videos and video conferencing is working well for remote learning. Kudos to Lewis and Clark Elementary staff for communicating well and Mrs. Meurer for great		
	lesson plans.		
4/22/2020 13:12:59		Lewis and Clark Elementary School	
	Please take the politics and economics out of the school decision. Bottom line is that when I send my child to school I expect them to come home in the same health I gave		
	him/her to you. I understand colds and the flu, but this is neither, and I don't want to have to figure out which one my kid might have or possibly get. We all know how kids		
	behave and their less than stellar hygiene! Let's try to get through remote learning for another month and hope for more extensive testing, according to all experts mass testing is		
	the key to reopening. We will be more prepared and may know more by the Fall school year! Thanks for your time, and thank you teachers!		
4/22/2020 13:15:12	and key to reopermig. We will be more prepared and may know more by the rail solloof year. Maine for your difference closely and that it you teachers.	Washington Middle School	
	COVID-19		
	Please do not open the schools. I don't want my children to have to attend their friends and/ or teachers funerals. My children will not be returning to school if it opens.		
4/22/2020 13:15:13		Russell Elementary School	
	1. If staff doesn't wish to return will they have to use sick leave? (Or if living with/ caring for someone in higher risk category) Will they have other options? Early retirement, etc.		
	2. How will teachers make plans for those who keep kids at home and need online learning and do in person learning. There aren't enough hours in the day.		
	,		
	3. Will students and/or staff have protective equipment, hand sanitizer, cleaning supplies?		
	s. win stadents and, or stair have protective equipment, hand samitizer, cleaning supplies:		
	4. Will technology be not used as it is a valleble for in class learning that we wise 142		
	4. Will technology be returned so it is available for in class learning that requires it?		
	5. Under what conditions and for how long would schools be closed or 1+ positive cases? What if not tested, but told to self-quarantine for 14 days?		
4/22/2020 13:15:30		Willard Alternative High School Program	
., ==, ==20 20.20.00	Thank you for realizing that siblings of at risk students would need to stay home as well. I'm terribly concerned that reopening the schools just for healthy children would make	2 22 23 23 23 23 23 23 23 23 23 23 23 23	
	the playing field even more uneven. I am also concerned with how social distancing at a level required to reduce spread could even be achieved on short notice. Additionally,		
	some teachers may be compromised or have family members they cannot risk. I also think the constant uncertainty for kids and families is stressful. If they go back and		
		Paxson Elementary School, Washington	
4/22/2020 13:16:14	commumitybslread explodes, they have to come home again. The back and forth is more stressful than a solid plan moving forward. I strongly support keeping the schools in	Middle School	
.,,,	distance learning mode until next fall and taking the time to create a plan for safety.  If schools do re-open, my brother and I will not attend because our parents aren't comfortable sending us back to school this year. Will we be marked absent or be negatively		
4/22/2020 13:16:15	affected because of our decision? How would the re-opening affect students who are not willing to attend school for the rest of the year?	Hellgate High School	
., ==, ================================	First of all, thank you for all you've done to support students and families during this crazy time. I also want to make clear that I recognize my privilege: we haven't experienced a	- 0	
	drastic loss of wages and are financially secure, I'm a regular volunteer in the schools so I'm already attuned to my kids' schoolwork, and my kids are pretty good students who		
	seem to love learning. I recognize there are challenges I'm unaware of. That being said, I have concerns about resuming school for this academic year.		
	1. I've heard teachers/staff might have to wear masks. This worries me for two reasons: one, that tells me we're not ready to end social distancing and two, it will be really scary		
	for my 7 year old.		
	2. Resuming school means ending online education, but not everyone has the option to send their kids back. For example, my husband has cancer and is immunosuppressed. We		
	would probably choose to keep our kids home to keep him safe. But would that mean our kids (and others in that situation) would miss out on standards?		
	3. Many teachers will not be able to return (if they, too, are in a sensitive group). Are there enough qualified subs to provide a meaningful education?		
	3. Many teachers will not be able to retain in they, too, are in a sensitive group). Are there enough qualified subs to provide a meaningful education:		
	1. I warry about recuming too early and effectively undering all the hard and important work of social distancing walve been daing for the next month		
	4. I worry about resuming too early and effectively undoing all the hard and important work of social distancing we've been doing for the past month.		
	5. Online learning is working really well for my kids. (I understand I'm incredibly privileged to be able to be home with them to help support the amazing work of their teachers). I		
	suspect there will be intermittent social distancing/quarantine protocols over the next year or so. Wouldn't it be a better use of time to build a really strong online learning		
	environment for when we possibly need to close schools again?		
	For the health of my family and their teachers/staff, it is unlikely I will send my kids back this year. I'm really grateful to everyone at MCPS for the excellent communication and	Paxson Elementary School, Washington

4/22/2020 13:46:26 be any consequences for children whom families choose not to send back to school this school year?				
	4/22/2020 13:46:26	be any consequences for children whom families choose not to send back to school this school year?	Rattlesnake Elementary School	

As much as everyone in our family would like to go back to school, I truly feel that it is not safe or reasonable to do so until the fall. It's too much to assume that schools can	
ensure that kids will properly social distance, and to assume that people will keep their kids home if they're sick or have a sick family member. With the end of the year so near,	
it's such an easy solution to keep our kids and communities safe to continue with remote learning until the end of those school year. MCPS has done an awesome job preparing	
remote lessons, and should continue to do so. I would hesitate to send my kids back even if schools did open. As a teacher myself, I can't imagine trying to go back to school with	
some students while also continuing remote instruction. It would be impossible, unsafe, and unnecessary.	Lewis and Clark Elementary School,
4/22/2020 13:47:09	Washington Middle School
The risk of vulnerable populations contracting covid 19 seems to outweigh the need to have our children in the tight quarters and recirculated air of public school. What on earth	
is more important right now? Certainly not a few weeks of exposure that could otherwise be avoided. Please do not risk our families with a premature reopening of schools.	
4/22/2020 13:50:24	Sentinel High School
I don't think schools should reopen this year. We haven't had enough testing to show how many people in our community are asymptomatic carriers. I have watched kids all this	
time running around, playing together and hanging out and parents ignoring social distancing rules. Schools struggle to manage outbreaks like strep and flu (and lice) let alone	
4/22/2020 13:51:50 something as infectious as COVID19. Too soon.	C.S. Porter Middle School
My concern as a parent is for my 9-year-old, who is a leukemia survivor and continues to struggle with immunity. We would opt to keep her home, but that's difficult for me as a	
teacher. How about social distancing and safety measures? Will kids go to school in shifts? Full day? How do we keep them safe?	
Another concern I have is as a teacher—many parents won't send their kids back. So what remote learning exists for them? Or will we provide both? I've heard we won't do both	Russell Elementary School
4/22/2020 13:53:46 face to face AND remote learning, so that's a tough decision for parents to make.  The risk of vulnerable populations contracting covid 19 seems to outweigh the need to have our children in the tight quarters and recirculated air of public school. What on earth	,
is more important right now? Certainly not a few weeks of exposure that could otherwise be avoided. Please do not risk our families with a premature reopening of schools. 4/22/2020 13:55:27	Sentinel High School
4/22/2020 13:58:45 Please don't forget how hard our kids have worked all these years. The Class of 2020 deserve a Graduation. Please make it happen. Thank You	Hellgate High School
As a substitute currently working a long-term sub position at Paxson Elementary, I would not be able to return to teaching in-person due to having a child with a weakened	Jeannette Rankin Elementary School
4/22/2020 14:00:08 immune system. How will the schools function if there is even a low percentage of teachers that can't return?	Jeannette Nankin Liementary School
The second round of Covid-19 will be worse than the second. We have taken all of these precautions already, what is the point of risking all of our students, staff and other	
employees. I am a teacher myself in another district and I cannot even fathom how I am going to manage going back if our school decides to. I hope you will keep our states well	Jeannette Rankin Elementary School
4/22/2020 14:01:45 being in mind and not now to the political game being played.	Jeannette Kankin Elementary School
If we aren't supposed to gather in groups over 10 with 6ft in between, how will going back to school ensure following those guidelines. I have just recovered from cancer and	
have struggled with my immune system. Having my kids exposed to kids who are exposed to families that we have no control over how they are managing safety precautions for	Hawthorne Elementary School
4/22/2020 14:05:06 iust 3 weeks of school seems irresponsible. Re-engaging students after two months off will take 3 weeks alone.  I'm hoping that when the schools re-open, that there will be a new (and enforced) handwashing protocol established for all students. Research shows that handwashing	Trawthome Elementary School
programs in classrooms can significantly reduce the spread of illness and reduce absenteeism compared to classrooms where students are allowed to wash hands at their own	
volition. For example, specifically ensuring (and monitoring) that students wash hands before their first class, before they eat (and are most likely to have their hands in contact	
with their mouths), after going to the bathroom and before they leave at the end of the day are key aspects of an effective handwashing program. (Washing hands at the very	
end of the day may also be protective for families at home.) Studies also show that handwashing is much more effective at reducing illness than cleaning/disinfecting of	
classroom surfaces. So if the school district plans to put additional cleaning/disinfecting guidelines in place, it is essential that the same or more attention is also given to	Russell Elementary School, Meadow Hill
4/22/2020 14:05:07 handwashing protocols to have the greatest impact.	Middle School
4/22/2020 14:11:07 Do the benefits outweigh the risks here? Is it going to be okay to choose to continue the quarantine?	Lowell Elementary School
Our preschooler is high-risk, medically. We cannot send our two high school students back to school and risk our preschooler's health. My wife works for MCPS. She cannot go	
back to work for the same reason. I have altered my schedule to work from home. How will healthy students who cannot go back to school in order to protect family members be	
4/22/2020 14:15:37 impacted if you restart school?	Sentinel High School
My concern is the sanitation of common areas and classrooms between classes. My other concern protection of staff and students through use of masks and access to hand	
sanitizer and hand washing. Also allowing students who are vulnerable or unable to attend the possibly to stay home and attend class via zoom or some other avenue to	
complete their studies for this year. These are my concerns and just as all adults are not complying with social distancing, masks and stay at home orders, some students will not	
4/22/2020 14:16:10 as well putting each other at risk	Hellgate High School
I am a Special Education teacher whose students do not and will not practice social distancing. I share a classroom with a colleague undergoing chemo for cancer. I have a young	
adult son who takes weekly immunosuppressive injections for Crohn's disease. I myself have only one working kidney. As there has NOT been extensive testing for COVID-19, and	
no immunity testing, I believe it is much, much to early to return to our school buildings. I have been working extremely hard to design relevant lessons for my students, to be	
online daily as often as needed, and to reach out to my students over and over again. Please do not risk all of us just to return to a building. I need us to remain in online learning	
4/22/2020 14:18:23 mode for the remainder of this year, and LHOPE we are safe enough to return next fall	Sentinel High School
My concern is regarding the possible re-opening of school. With over 1000 students at Big Sky, just coming in the front door (there is only one entrance) will be a challenge to	
4/22/2020 14:26:20 keep students 6 feet away from one and other. Not possible. The hallways are always crowded. This is just an unsafe scenario for everyone!	Big Sky High School
4/22/2020 14:26:48 She has a compromised immune system	C.S. Porter Middle School
What about students with IEPs that receive special instruction and are not doing well with online learning? Is there a chance that these students can meet one on one (or in	
4/22/2020 14:28:31 small groups) IN the classroom for better instruction?	Hawthorne Elementary School
How will MCPS manage to keep our children socially distanced while at school if classes return before the end of this school year while COVID 19 is still affecting most of the	Chief Charlo Elementary School, Meadow
4/22/2020 14:30:41 country?	Hill Middle School
I am looking forward to filling out the survey mentioned in the last email. I believe it is incredibly erroneous that the Board will make a decision on May 5th when the current	
extension is only through May 7th. This is a special circumstance and I wonder why a special session/vote cannot be arranged. My children will not be returning to school due to	
COVID; we need to know if we are going to have to poise our family to truly homeschool across the rest of the school year. Knowing if we will need to pull them for the year is	
4/22/2020 14:31:57 necessary will be a good communication	Paxson Elementary School
I simply do not see how schools can reopen AND still practice social distancing. And for only a month. I think it would be safer to reopen next fall and continue online learning.	Jefferson Early Learning Center, C.S.
I simply do not see how schools can reopen AND still practice social distancing. And for only a month. I think it would be safer to reopen next fall and continue online learning. 4/22/2020 14:35:30	Porter Middle School

I feel strongly that Missoula should NOT reopen schools this year. It is too soon. We need to wait until we have deployable testing in place. It is important that we continue to	
stay home when and where we can. There are so many at risk groups that putting families in a position of chowing their kids schooling vs a family member's health won't work. It	
will be half empty classrooms that would be impossible to teach. As a parent who is high risk I implore MCPS to remain closed for our students, our hospital workers, our	
community and our kids. Please do not add a possibility of re-closing by reopening. Let's this year be what this year is: a move to online schooling and time to understand this	
4/22/2020 14:35:47 virus so we can make an informed decision in the fall	Hellgate High School
I do not feel comfortable having kids go back to school yet. Especially if masks were needing to be worn. That just says to me that it is unsafe. It also seems like a slap in the face	
to all the people who have sacrificed so much already to have something horrible happen. Sacrifice again at an even greater cost. The teachers have worked so hard on the	
online learning and to just disregard that for three weeks of unsettled at school time seems harsh. I hunk it would also polarize the community and be very detrimental to the	
4/22/2020 14:35:54 community as a whole. Outing those that can afford to stay home to stay safe to those who cannot afford that	Paxson Elementary School
4/22/2020 14:35:54 Please keep schools closed til fall to ensure the slow open phases are working. I have a child and I'm immune-compromised. Thanks for your consideration.	Big Sky High School Lowell Elementary School, Russell
I am completely opposed to the schools reopening. There is no way to have social distancing. Even one student dying is unacceptable. An additional concern is that the children	
4/22/2020 14:37:56 could bring the virus home to parents and grandparents. Please don't even consider restarting classes for the sake of all.	Elementary School
It would be disastrous to open public schools before the fall semester. Because of natural distancing and a timely shutdown, Montana has had very low rates of COVID-19	
circulation. The population has no immunity, either from disease spread or immunization, and if we pack students into schools too soon they will bring this deadly virus home to	
their families, including the sick and elderly. It is not inconceivable we could become overwhelmed like NYC, which kept its schools open even after detecting community spread.	•
As we slowly reopen business there will be communal circulation of the the virus, hopefully slowly enough to prevent a healthcare crisis while people recover and gain some	
degree of immunity. Hopefully, also, a vaccine will be developed and distributed. However, if the schools are reopened this spring, each of us will likely know someone who has 4/22/2020 14:42:16	Sentinel High School
Don't understand how social distancing can even be obtained in classrooms, hallways, libraries, recesses & during lunchtime. Both of my children, including my high schooler, are	
4/22/2020 14:42:30 a bit afraid of going back & asking questions about safety.	High School
To Whom It May Concern,	
I live with my nephew and niece who attend Franklin Elementary. They are the third generation in our family to attend Franklin, which is particularly important when you	
consider that my grandfather attended when it was no more than a one-room school house. Franklin and Missoula County Public Schools have consistently made informed and	
impassioned decisions on behalf of the students, families, teachers and staff, and I don't foresee that ending anytime soon.	
That being said, I do think it is important for schools to remain closed for the duration of the academic year. The number one priority should be the health and safety of students,	
families, teachers and staff. One of the primary ways to prevent COVID-19 is social distancing. The classrooms and facilities are not set up to allow effective social distancing, and	
even if they were, children would have a difficult time observing social distancing. This will more than likely be a breeding ground for COVID-19 to spread, often showing itself as	
very mild symptoms in children. On a personal example, my niece and nephew live with my mother as well, and she has emphysema. Should she get COVID-19, she will, at the	
very least, be hospitalized, if not pass away from the virus. This prospect to me is incredibly impactful and my situation is not isolated. There are many children, parents, teachers	
and staff members who are either high risk themselves or live with people who are high risk. Opening the schools after May 7th will be a recipe for illness to spread.	
Another aspect that should be considered is the mental health of those in the MCPS community. Children right now are more than likely feeling insecure after having to learn	
distant learning, adjust to a different schedule and go through a pandemic that they don't have the capability of understanding in many respects. By sending them back to school	
for a month, that will be another psychological stressor that is unnecessary and entirely avoidable. They have already adjusted to online learning and as such, they should be	
allowed the chance to thrive in that environment rather than forcing them back into the traditional school environment that they have just un-learned. If this were in January,	
going back to school may be understandable, but given the timeline, it is not a necessary or productive measure.	
I know this is a difficult decision and one that should not be taken lightly, but for the health and safety of Missoula community members, I implore you to keep schools closed.	
Kindest Regards,	
(Email Redacted for privacy reasons FHL)

My biggest concern is social distancing children in schools to keep them healthy. I don't understand how that can be done.	Lowell Elementary School, C.S. Porter
4/22/2020 14:44:54	Middle School
There is no wide-spread testing in Montana. If my daughter goes back to school this year, I want to know who has the virus and who does not. That information is not currently	
known. My daughter is cared for by me and by her grandparents. I am immune-compromised—and not able to get the hydroxychloroquine I need, which makes me more	
susceptible to this virus. Her grandparents are nearly 80 and are both diabetic with high blood pressure. My daughter can not afford for any of us to contract COVID-19. If school	
us re-opened this spring. I would hope there would be an option for students whose families are very high risk. Such as continuing to allow students to attend school from home.

	This is more just a comment/suggestion These are serious and difficult decisions. And you have a serious and difficult job. Thank you for serving our community.		
	I hope that some form of school can take place in May. A few thoughts:		
	- certain grades go certain days (easiest with elementary and maybe middle school)		
	- half of one grade goes morning, the other half afternoon (again easier with elementary and middle school)		
	- for H.S., perhaps certain class periods attend on certain days with larger classes being split (i.e., Period 1-4 Last name A-M: Mon 9-9:45 and Last name N-Z on Tues 9-9:45)		
	- for those kids that need to be at home, teaching shown via Zoom so those students receive the same instruction		
	I hope you will poll teachers - see what they desire, what they feel will work. After all, you and I are not in the classrooms or teaching online (unless you're a parent helping) so		
	they are our greatest resource in what is best for instruction and for students.		
	Just some thoughts. Most teachers and most students would like to be at school at least part-time. It's better for all of them. However, staff and student health is also important,		
	·		
	so a part-time schedule allowing for some in-person instruction might be a solution.		
	Thank you for your consideration and taking time to hear from parents, students and teachers. Because life doesn't happen in a bubble, your decisions shouldn't either and I		
	sincerely hope you involve these groups in your decision-making.

.,, 13.13.03	is the end of the and the available for parents about whether or not we recrited proper to reopen deliboration year:	010	

	As we look to a gradual reopening of schools, I would like to encourage the district to consider creative solutions. For example, perhaps students return 2 days/week so that class		
	sizes are halved, the other days are remote learning, and the 5th day is either for at-risk students or teacher prep. Please don't hesitate to ask individual families and students to		
	make sacrifices for the good of the community. For example, I am willing to keep my kids learning at home knowing that they are missing out on a lot of learning and social		
		Paxson Elementary School, Washington	
4/22/2020 15:15:59	development, if it means that kids most at risk of falling behind have an opportunity to learn safely. (Note: no email response is needed)	Middle School	
.,,	I strongly urge you to counsel the Board to leave schools closed and continue with remote learning until the end of the 2019-20 school year. Given that our state has not yet		
	seen a decline in COVID-19 cases as of April 22nd, it isn't prudent to relax social distancing in early May. Although we are a small community relative to large urban areas, our		
4/22/2020 15:17:44	hospitals cannot handle a surge in cases given the small number of ICU beds. Respectfully, (Name Redacted for privacy reasons FHL)	Sentinel High School	
,, ==, ================================	I am writing to ask the Missoula School Board of Trustees to please consider reopening our schools the week of May 4 for the remainder of the school year. The incidence rate of	ochimer mg. recines.	
	COVID-19 has been low in Montana, especially compared to much of the nation, and seems to be on the decline, thankfully. While this has been a very challenging time for		
	everyone, in my opinion it has been especially challenging for our children. The level of isolation they have endured, lack of social interaction with their teachers and peers, lack		
	of an in-person learning environment, have impacted them in unprecedented and unknown ways. With the use of common sense safety precautions, please let them return to		
	the classroom. They want to go back to school, and for their mental well-being, they need to go back to school.		
	I am also writing to ask the Board of Trustees to please allow high school graduation ceremonies to occur in-person, not via virtual ceremonies. Consider allowing just immediate		
	family members to attend (parents and siblings only) if necessary, but please allow our graduates the recognition and celebration that they deserve and have worked so hard for.		
	These seniors have already missed out on so much over the last month and a half. Please don't make them miss their graduation celebration as well.		
	Respectfully,		
	(Name Redacted for privacy reasons FHL)

4/22/2020 15:31:18	We would prefer to continue with remote learning until fall.	Chief Charlo Elementary School	
	I believe that re-opening our schools this early is a grave mistake. The consequences for the students and the teachers will be a terrible increase of health risk. Schools have no	·	
	way to enforce social distancing rules. Teachers will be at risk. Some students with underlying health conditions will have to be left at home. Families with a member with		
	underlying health conditions will find themselves in a very difficult place to make decisions. Overall, re-opening schools for one month and taking the risk of a second wave of		
	virus spreading will cancel most of the efforts we have put in this fight up to now. I understand that there are serious and important concerns about children who do not have a		
	safe place to be. Let us work on helping these children who need our help the most. Continued lunch program is a must. Increased funding of shelter and focus on the most		
	vulnerable population would seem highly recommended. But a large scale re-opening of schools for all is simply dangerous. Please keep our children safe.		
4/22/2020 15:31:35	vullerable population would seem nightly recommended. But a large scale re-opening of schools for all is simply dangerous. Please keep our children safe.	Paxson Elementary School	
	We have children in our home with special needs and sending our first grader to school unnecessarily increases the risk of exposure in our home. We have had success with		
4/22/2020 15:33:19	remote learning and wish to continue until fall semester.	Paxson Elementary School	
	Student Comments, Questions & Concerns:		
	~While school & education is essential, remote learning should continue as it will be impossible to remain social distancing guidelines and cleaning precautions with so many		
	students in our highly populated MCPS schools.		
	~What if even one individual is asymptotic? Do the costs outweigh the benefits?		
	~Yes, we would like to go back to school; but, now it's is not feasible since many of us are the sole income for our families &/or are taking care of older generations so will choose		
	to not attend.		
	~Can you make physical building schooling mandatory during a pandemic? What about those who choose remote learning over the other option?

	During the next phase we are to limit ourselves to groups of less than 10. The smallest classrooms are 20. Our school populations are in the hundreds. How do you justify opening		
	denie de	Lewis and Clark Elementary School	
4/22/2020 16:01:43		Chief Charlo Elementary School	
	I understand what a heavy decision this is for the school district but I urge you not to reopen the schools after May 7th. While I understand we are all anxious to get back to life, I		
	think it would be incredibly irresponsible for a number of reasons.		
	Our kids are just starting to wrap their brains and be emotionally settled doing online learning. Reopening, and in light of all of the rules that would need to be in place to ensure		
	safety, would be incredibly overwhelming and I believe for many, emotionally more than they should have to handle.		
	Additionally, every day children are brought to school despite being sick, hundreds of kids go to school while sniffling, sneezing - how are you to ensure this doesn't continue?		
	I've read temperature checks but as you know, many who are sick aren't even displaying a fever initially.		
	I understand that even if a school reopens there may be an option to keep our kids at home and have them attend remotely, however, for many of Missoula's families, including		
	mine, this still means sending my husband to teach every day and him potentially getting ill or him bringing the virus home to us.		
	I am so sorry that you are all having to face such tough decisions and I hope you will consider this before doing something that will put our teachers, students and our admin at		
	risk emotionally or physically.		
	Thank you for your time and I wish you well!

4/22/2020 16:08:10		Big Sky High School	
	Hi - I am a parent of a senior and hoping the district would be open for alternatives to a virtual graduation. So many parents have voiced their concern and a lot of students		
	including my daughter would rather not have a ceremony at all if it's going to be virtual. There are so many great ideas going around that are very doable (while following social		
	distancing regulations). I feel there should be an email sent out from each high school to senior parents to get their ideas heard and then the ideas be voted upon by the seniors		
	themselves so they have a voice and get to pick their own ceremony (following Covid regulations, of course). It would make it a little more special for these seniors who have		
	already missed out on so much! I will also be forwarding this note to Ryan Rettig. Thank you for listening to our concerns.		
4/22/2020 16:11:35		Sentinel High School	
	Schools should remain closed for the remainder of the year. It is not worth it to reopen them when there are only a handful of weeks remaining in the school year. If we allow		
	school to reopen too early, students could get sick and spread the virus or not even know they have the virus and be asymptomatic and bring the virus home to loved ones and		
	others who are vulnerable to this virus and they could end of dying. We need to wait until more is known about the virus before reopening the school. Hopefully students may		
4/22/2020 16:14:04	the allower to so that k to the fall official to their safe for the so	Rattlesnake Elementary School	
	Do not open schools. Bullock's plan is shockingly flawed. Testing, testing, testing. Protect our students, and teachers. Don't waste our hard work only to have this happen again in		
4/22/2020 16:15:28		Rattlesnake Elementary School	
	If reopening,		
	1. will the district be providing hazard pay and hazard insurance?		
	2. How will social distancing be enforced on playgrounds? In classrooms of up to 30? Hallways? Restrooms?		
	3. How will equipment be sanitized? Gym? Books? Lockers? Door knobs? Lost and found area? Shared desks? Counters? Chairs? Offices? Tables?		
	4. How will teachers be compensated for continuing remote lessons for students that cannot come to school? Learning how to sanitize all of their equipment and teach in a ciovid		
	world?		
	5. How will the district provide coverage for teachers to wash their hands between classes?		
	6. Will the district be providing masks and gloves for staff and students?		
A/22/2020 16:16:47	7. Herry will the district heardle it where the first end and standards about entire sight?	Maadaw Hill Middla School	
4/22/2020 16:16:47		Meadow Hill Middle School	
	I cannot imagine how to safely socially distance with so many people back in the buildings. It doesn't seem worth the risk. Especially the ability of younger children to monitor		
4/22/2020 16:16:47	their coughing, sneezing, and where they put their fingers (because they do). I hope the district plans not to return this year and use this time to plan for fall safely.	Hellgate High School	
7/22/2020 10.10.4/	It simply does not seem safe for kids to be back in school despite the governor lifting the stay at home order for schools. Bugs and germs circulate widely and easily at school and	Trengate riigii sellooi	
	it's just too risky at this stage of the pandemic.		
	Many kids may have their own health issues, as well as family members with issues that make them too vulnerable to exposure. In addition, many parents will not feel		
	comfortable sending their kids back to school and then teachers will have to figure out how to accommodate both at-home learners and remote learners, making their job that		
	much harder. Even if they do go back, it would only be for about a month anyway, so why risk it?		
4/22/2020 16:18:37	This lifting of the stay at home order seems premature and aimed mainly at appeasing those that value the economy over lives. I don't think our schools should feel pressure to	Hellgate High School	
.,,,,	What if the schools reopen and we choose not to have our children come back. Will they be able to finish the school year online and still graduate and move on to the next year?	- 0	
	The state of this the senior year of the did still graduate and move of to the flext year:	Paxson Elementary School, Washington	
4/22/2020 16:19:53		Middle School, Hellgate High School	
., 22, 2020 10.13.33			I

I'm concerned with the children going back and being in such large groups and close quarters. We still have community spread in Missoula and I don't think it is right to assume	
we are safe just because the governor says so. In past situations such as this, once quarantine is lifted more people have become sick and or died than before the quarantine. I	
feel that it should be at the parents discretion to decide if there children should go back this year. I feel that the current home school set up should continue to be made available	Washington Middle School
4/22/2020 16:20:16 for families who choose to keen their children from school further 4/22/2020 16:20:31 I have neither. I truly believe the deciding factor will have the children's best interest at heart.	Rattlesnake Elementary School
4/22/2020 16:25:30 The kids are losing their minds. But there is a real public health concern. To compromise - is there a chance of a partial opening - 3 days per week?	C.S. Porter Middle School
I am unclear as to how our building can possibly meet the Guidelines for Reopening Schools with such a short window.	
Our Building is under significant construction limiting movement as it is.	
We have many staff and students who are at high risk for terminal outcomes to a disease such as COVID 19.	
I recently had surgery for cancer and was sick with viruses 3 times in the ensuing month. I do not want to come back and be exposed to hundreds of students who's families are	
using various health standards/social distancing practices and could be carrying a deadly virus.	
Our staff, students, and families just adjusted to remote learning which exhausted many. To ask them to adjust again for some combination of remote/live learning for 3-4 weeks	S
of school, much of which will be spent re-engaging kids and helping them manage the whirlwind of the back and forth seems Presponsible.	
If we cannot guarantee access to all, wouldn't this open up potential FAPE issues?	
Ensuring social distancing between teens does not seem possible in a high school.	
How will we manage to fill the gaps our immune compromised staff will be leaving? Our sub pool is small as is and many are elderly/retired or have health issues of their own.	
And importantly, we would be in violation of the CDC phasing recommendations of no gatherings of 50 or more people until we can establish widespread community testing and	
a reduction in positive cases.	
4/22/2020 16:26:29	Big Sky High School
4/22/2020 16:28:59 I do not feel safe sending my daughter back to school this year. It also puts me at serious risk for COVID complications.	Hellgate High School
How can social distancing be maintained within a school setting? If MCPS opens, can remote learning remain an option?	Lewis and Clark Elementary School,
4/22/2020 16:37:56	Hellgate High School
My daughter catches everything. Has a very low immune system. I will not be sending her back. Are you going to assist with kids that have an auto immune system that the	
4/22/2020 16:40:17 parents don't want them back in public yet?	Hellgate High School
I teach English online to kids in China. They were to start school at the end of January. As of today they are not back in school. They all know the severity of this virus and while	
children aren't as susceptible they can transmit it. Opening our schools is a death sentence to our country! There's no reason to open with three weeks left in the school year.	
Whatever the politics this would be willful neglect to the citizens of our state and country. I will not be sending my son back to school and will fight any repercussions of my	Big Sky High School
4/22/2020 16:43:43 decision	big sky riigii scriooi
I think that we should look at options for opening school. Distance learning is not working well for my child with learning disabilities. If business are opening, the schools should	
be able to find a compromise in styles of educating. The virus will not be gone by fall and we have to come up with a compromised solution other than absolutely no physical	
school. Our students will suffer. Stores are open and people are being exposed in some settings all over town. We are not completely isolated unless we choose to be. Let	
students and parents choose to take precautions if they feel it necessary. Regular school isn't feasible but we never thought that remote learning would be either and somehow a	Chief Charlo Elementary School, Meadow
temporary solution was found. Now let's find a new temporary solution that combines both options.	Hill Middle School, Sentinel High School
Please allow for a graduation ceremony to take place for our students. Graduation is a very important passage of life that our students have worked hard to achieve.	
4/22/2020 16:47:49	Big Sky High School
I believe the risk of re-opening schools far outweighs the pros. It would be impossible for schools to truly enforce social distancing guidelines for all students. And even though	
children are at a reduced risk for contracting the virus, they can definitely carry and spread it.	
Also, with only a month of the school year left, it seems unlikely that students will greatly benefit from in person instruction, since settling into another new routine at school will	
4/22/2020 16:51:27 take a couple of weeks	Hawthorne Elementary School
Our son, (Name Redacted for privacy reasons FHL), is a junior at Sentinel. He has really, really struggled with online learning during the coronavirus shutdown. He's very	
extroverted and thrives in an in-person, interactive learning environment. But being isolated has led to depression for him (we've had him talk to a counselor and took him to see	e
his doctor), and he has been unable to get anything done. He's pretty bright he's normally about a "B" student, he got a 30 on the ACT in December, and he's currently in some	
dual-enrollment classes and an AP class. But now I'm worried he might fail several of his classes and not graduate on time. We hope the school district will consider some in-	
person summer school "catch-up" options for kids like James who have struggled the past couple months - perhaps a way to make-up missed work, and have that reflected in	
4/22/2020 16:51:48 their Spring 2020 grades	Sentinel High School
Is social distancing possible? I don't think it is - if there are 30 kids in a class how can they be 6 feet apart?	
Also, how about lunch? Even if all kids are wearing masks, they'll have to take them off to eat and then they've exposed themselves to the air that might me carrying the virus.	
Also, I'm concerned that since many parents will understandably keep kids home, will teachers be expected to maintain both a full online and face-to-face course load? That	
would be quite a lot of work.	
I think we should absolutely plan on how to deal with reopening, because I think we will have to quarantine again in the next year, but with such a short time left in this school	
year, I think rather than rush and make a poor decision, we should finish the year digitally and prep for how to deal with this efficiently in the future.	
year, i think rather than rush and make a poor decision, we should infish the year digitally and prep for flow to deal with this efficiently in the future.	
I know both students and too shore are missing and other and school health and would like the would to return to remark the sixty of a COVID 40 - 12 - 12 - 12 - 12 - 12 - 12 - 12 - 1	
I know both students and teachers are missing each other and school badly and would like the world to return to normal, but it isn't worth the risk of a COVID 19 spike that I think	K
has a significant chance of happening if we reopen now. Thank you for your time!

	I would like to voice concerns over the possibility of our schools reopening this school year. My children live in the home with more than vulnerable, high-risk individual. One of		
	these people works in a nursing home with dozens of other vulnerable individuals. The potential for my children to bring home the virus from school is too great, and so are the		
	potential consequences of that possibility. Dozens of lives could be lost due to the exposure of one child, and my family is not the only one for whom this is true.		
4/22/2020 18:06:22		Franklin Elementary School	
	I think you should consider reopening schools with a staggered learning 1/2 day. mwf classes 8-11:30am, T/Th classes 8am-12:30. Stagger so the schools are less crowded but so	Chief Charlo Elementary School, Hellgate	
4/22/2020 18:07:22	that at risk kids (abuse/neglect at risk) kids can get some face to face instruction in a density reduced environment.	High School	
	I am a teacher at Sentinel.		
4/22/2020 18:08:27	The request to differ product we first approve of first order opening free first safe for	Sentinel High School	
	With only 1 month remaining of school once the order is lifted, WHY put kids and families at risk? Thats not much time for school but A LOT of time for exposure and		
	transmission. I also feel that our kids have had enough change. Some kids are very routine, and the upset of home schooling was difficult enough. I think then changing it up		
	again - even if it is back to more of what theyre used to, will throw some into a total tailspin. Especially with the changes the schools will have to enact such as ensuring masks are		
	worn (ya, right, kids arent going to want to wear them in front of their friends), ensuring hand washing, social distancing, the list goes on. The schools should take the rest of the		
	school year and get it done while working on a safe plan of action over the last month and summer, to start school in the fall. This virus will still be around and with people taking		
	vacations, which Im sure will be happening if states start reopening, the virus is going to come back in full force		
4/22/2020 18:09:08		Sentinel High School	
	Please consider the information about COVID-19 that we have not gathered yet because of the lack of time there has been since the beginning of this pandemic, research that		
	has been done because of the short time frame and the young lives at risk. We look to leadership in these times, and trust that our trustees are going to put the well-being of ALL	Paxson Elementary School, Washington	
4/22/2020 18:09:26	Votale lives at the forest of this decision.	Middle School	
	I'm wondering if maybe just the Seniors could go back to school. There would be some shuffling of classes but classes with other than just seniors could be put on zoom. That way		
	they could have one last month with their class with much less risk. I know you'll say that's not possible, it would be too hard on staff or whatever but why not at least discuss it?	Washington Middle School, Hellgate High	
4/22/2020 18:20:23	of maybe let semons go to school anti-noon. There has to be some way to give them closure on his.	School	
4/22/2020 18:24:09	Will there be a graduation ceremony and may I still order a cap and gown.	Big Sky High School	
	1) I'm concerned that social distancing would be impossible in the school setting without constantly policing kids to make sure they keep their distance, which seems like a huge		
	burden for teachers. 2) I'm concerned about the increased use of disinfectants in schools, particularly disinfectants that contain quats, a chemical that is an established		
	asthmagen and has been linked to reproductive harm 3) When children do go back to school (and I think this is a good idea regardless of pandemic), whenever that happens, a		
	handwashing protocol should be put in place. Research shows that handwashing programs in classrooms can significantly reduce the spread of illness and reduce absenteeism		
	compared to classrooms where students are allowed to wash hands at their own volition. For example, specifically ensuring (and monitoring) that students wash hands before		
	their first class, before they eat (and are most likely to have their hands in contact with their mouths), after going to the bathroom and before they leave at the end of the day are		
	key aspects of an effective handwashing program. (Washing hands at the very end of the day may also be protective for families at home.) Studies also show that handwashing		
	is much more effective at reducing illness than cleaning/disinfecting of classroom surfaces. So if the school district plans to put additional cleaning/disinfecting guidelines in		
4/22/2020 18:27:37	place, it is essential that the same or more attention is also given to handwashing protocols to have the greatest impact on our children's health." Thanks.	Paxson Elementary School	
	We have just spent 5 weeks in isolation, to help prevent EVERY Montanans health and well being. If we release all students back into the same school how are you going to		
	ensure social distancing and keep those high risk students and employees safe? We either need to agree to comply with social distancing guidelines OR go back to school. We		
	cant do both. We risk negating everything we have been working hard to create. I understand reopening the economy, but putting our educators and students at risk is not in		
4/22/2020 18:28:16		Seeley Swan High School	
	I am concerned that there isn't a safe way to social distance at school. Most classes have at least 25 kids each and it concerns me that there isn't enough room to keep them 6 ft.		
. /22 /222	apart. If just one kid contracts Covid-19 it could run rampant through the whole school and then be brought home to more at risk family members.		
4/22/2020 18:31:31		Washington Middle School	
	If so be crazy to opening schools. There are so many reasons why we finally have our students and teachers in a groove and now to change again it's just a lot. Teachers will		
1/22/2222 12 21 22	just be in triage. Pressure on custodians secretaries		
4/22/2020 18:31:38	the logistics are insane.	C.S. Porter Middle School	
4/22/2020 18:32:48	It is foolish to think that elementary school kids will keep a mask on and what happens at lunch? Opening the schools this year is a terrible idea	Rattlesnake Elementary School	
	Im very concerned about reopening the school because it took the teacher a lot of time to get the online version up and working to the point where the kids understand. They		
	aren't going to be able to adjust back to being in school setting for the last month of school. We also don't know who those kids are in contact with outside of school so it a	Duranell Flore onto my Cabaral	
4/22/2020 18:35:39	higher change of people getting it. I think we are iumping to quickly and we might regret it	Russell Elementary School	
A/22/2020 10:2E:40	I'm wondering if the option to continuing education online until the end of the school year is going to be an option if schools will be opening back up? I for one do not feel	Big Sky High School	
4/22/2020 18:35:40	some tweeter than my shink going was to concert and world in close contact than so many people.	DIE DE LIEU DE LOUI	
	I'd love for my senior to have these last times and memories with her classmates. We also have a freshman. I'm wondering what 2 weeks in school would matter or put them in		
	possible harms way? Is it irresponsible of us to go from self Quarantine, to just allow 2 weeks left of schooling?? I'd love my senior to have this time. She's a brilliant young		
	woman who's the top of her class. (She's going to MSU for engineering.) I'm very conflicted at this point. I also believe they should have a graduation. Possibly limited and small.		
4/22/2020 18:36:28	I hate the parade idea and/or virtual. My dad has terminal cancer and his only wish is to watch his granddaughter walk down that isle before he dies.	Seeley Swan High School	
	Stay home, stay safe. Graduatuon: can u at least do some kind of walk up and take diploma from faculty down the sidewalk in front of the school. Many kiddos may not be able	Secrey Swan riight School	
4/22/2020 18:37:05	to come back in August for a larger ceremony. Also, what about a virtual prom, or I e in the field outside so they can social distance and yet have some sort of prom.	Sentinel High School

		Seeley Swan High School	
., 22, 2320 10.43.14	I would like to ask that you consider the difference of SSHS to other Missoula county schools (mostly size), and don't treat them as a "one size fits all", when making your decision		
	on whether to allow the kids to go back to school. Please treat them as their own entity. The small size should enable them to return to school. I also feel that there is a way that		
	·		
	SSHS could hold a graduation ceremony, with restrictions. There are only 19 seniors at SSHS. Hold the ceremony on the football field, with designated areas for each student's		
	immediate family (allowing social distancing) and restrict the number of family members allowed. The ceremony could be live-streamed for those that were not able to make it.		
4/22/2020 18:47:12	As I said, SSHS is very different that the three large high schools in Missoula. They don't get the funding and perks that the other schools get, maybe you can make up for it by	Seeley Swan High School	
., 22, 2020 10.47.12	Going back now would be absurd. You are putting teachers and students at risk.	Meadow Hill Middle School, Hellgate	
4/22/2020 18:47:16		High School	
., 22, 2020 10.77.10			

We should open schools with the option to attend or do online learning at home. Many people have to return to work with restrictions lifted but have no means of childcare due	
to no daycares being open. With that said high risk students or students with high risk families should be able to stay home and still learn remotely. Students with no health	
4/22/2020 18:52:08 concerns should be able to attend school	Lewis and Clark Elementary School
Would it be possible to lengthen the school year for taking another covid19 break (anticipated this fall/flu season)? Could we realistically reduce class sizes by rotating days?	
And could you provide ample administrative leave for teachers/staff/cafeteria workers/bus drivers with health concerns? Forcing teachers/staff/bus drivers to accept this risk	
4/22/2020 18:55:22 without additional pay is simply not ethical.	Rattlesnake Elementary School
I am concerned that should school resume in early May, my son will be in a position where social distancing is going to be basically impossible.	
My husband (my son's father) has ALS, as such he would be considered an at risk member of the population.	
Although our son has not been terribly motivated to get his work done, he has definitely improved in this aspect. I feel that it would be foolish to send the kids back to school for	
the remainder of the school year.	
4/22/2020 18:57:47	Big Sky High School
I am asking that you please consider Seeley Swan differently than the other MCPS schools as we have a smaller amount of kids/staff than other schoolsplease at least let them	
graduate even if its via virtual graduation or an outdoor ceremony. I have a senior that would very much appreciate it! Thank you so much for all of your hardwork during this	
unprecedented time & trying to do what's best for our kids. As a parent, I cant tell you how much I appreciate all your time & effort!	
4/22/2020 18:58:37	Seeley Swan High School
I do not think it is a sound choice for school to reopen. I believe this based on cdc guidelines and science. I am not sure my children would return. I hope MCPS Board of	
4/22/2020 19:06:36 Trustees will consider the health of everyone.	Hellgate High School
4/22/2020 19:07:49 Please open the schools! Just wanted to give a voice to one parent wanting schools to re-open!	Chief Charlo Elementary School
We would like to have a graduation ceremony! These seniors have already lost out on the opportunity to participate in Spring sports and chances for scholarships through track	
4/22/2020 19:12:13 and golf! They have earned the right to stand up and be recognized by family friends and community.	Seeley Swan High School
How can social distancing possibly happen, and how do you prevent little children as well as high schoolers from spreading germs, and how much testing will take place whether	
4/22/2020 19:15:16 there are symotoms or not	School
Please consider having an alternate graduation plan, or leave it up to our staff, for Seeley Swan seniors. Our population and class size is not even close to what the Missoula	
schools are dealing with, and therefore, should not be dealt with the same. We could easily social distance our class of 20 students, and even allow parents of each student	
4/22/2020 19:16:27 attend.	Seeley Swan High School
We will be risking the lives of those with compromised immune systems if we reopen schools. My youngest son has underdeveloped lungs and severe asthma. I have ongoing	
4/22/2020 19:17:41 chronic health conditions, am a single mom, and cannot risk the health of my family.	Russell Elementary School
I feel like schools should remain closed for remainder of the school year or parents have the option to keep their child/children home. I don't feel comfortable sending my	
4/22/2020 19:27:23 daughter back	Chief Charlo Elementary School
If schools open for the rest of the school year, I believe this is an excellent opportunity for teachers to discuss what a virus is, etc. It's also a great time to discuss proper hand	
washing techniques and find ways to encourage washing during the school day to become a normal routine, even if it's tricky for teachers to find the time. Life skills!	
4/22/2020 19:28:25	Rattlesnake Elementary School
My name is (Name Redacted for privacy reasons FHL), I am a senior at Big Sky High School. Like many of you, I watched the press conference with Governor Bullock. I would like	
to voice my opinion and say I believe schools should stay closed for the remainder of the school year. I understand there are a lot of seniors that want school to stay open	
because of prom and graduation but the truth is that at these large gatherings there are many people all in close settings, defeating the time we spent in quarantine. I think it is	
crucial to end the year so that we can reopen during the fall giving enough time for the virus to settle even more then it already has. For most students, by the time a decision has	s
been made about reopening, there will only be a month or less of school, so why let schools to reopen for that time and increase the risk of starting up something again. There	
may be a second wave of this virus and we could slow or even prevent that wave by ending the school year now. I think we as a community and as a school district should focus	
on the reopening of the fall year so we can go into the next year with more confidence.	
on the respenting of the fall year so we can go me the next year with more commutative.	
I hope that this email can be read and thought of when you make your decision.	
4/22/2020 19:30:34 Thank you,	Big Sky High School
My kids will not be attending school if the schools are reopened. We have friends who live in Japan and are directly dealing with the consequences of opening too soon. Will you	
4/22/2020 19:32:17 continue to provide the online schedules for students who's parents have decided that they will not allow their kids to go back to school?	Jeannette Rankin Elementary School
How do we keep the kids 6' apart. We're so close to the end of the year that we might as well not risk it.	Washington Middle School, Hellgate High
4/22/2020 19:32:51	School
4/22/2020 19:44:52 I don't think we should allow students to go back to school yet. Scientists and doctors say it isn't a good idea. I vote with them.	Hellgate High School
I hope the school board decides to keep schools closed for the remainder of the school year. I am not comfortable returning my children to a congregate setting at this time, and	
believe it will unnecessarily spread covid 19 across students, staff and their families. We have already made the difficult transition to remote learning, and I would prefer to finish	
our the school year with remote learning rather than transition back to in person school for a small remainder of the year at the potential detriment of public health.	Rattlesnake Elementary School,
4/22/2020 19:44:57	Washington Middle School
I think I it is to early to opean schools. I think they should reopen in the fall. Plus they got a little over a month tell they are out. Finish schooling at home online tell fall. Then	
4/22/2020 19:47:24 reconsider.	Hawthorne Elementary School
My grandchildren attend MCPS. They both compromised respiratory systems, including asthma. Their custodial parent also has autoimmune diseases. My husband and I assist in	
their care as well as the care of our mothers and my grandmother. We all, are 60+ in age and have a plethora of comorbidites, including pulmonary diseases and cancers. I am a

former nurse and have no doubt lifting social distancing measures will cause a resurgence of Covid 19. The school year is nearly over and children and families have adjusted to remote learning. Children will need time to readjust to returning to school. Schools are not equipped to social distance and children do not understand the gravity of doing so.	
former nurse and have no doubt lifting social distancing measures will cause a resurgence of Covid 19. The school year is nearly over and children and families have adjusted to remote learning. Children will need time to readjust to returning to school. Schools are not equipped to social distance and children do not understand the gravity of doing so.  The benefit of minimal gain in classroom learning does not out weigh the risks of doing so. I deplore you to not use our children (the voiceless) as a "testing" product and that yo	
former nurse and have no doubt lifting social distancing measures will cause a resurgence of Covid 19. The school year is nearly over and children and families have adjusted to remote learning. Children will need time to readjust to returning to school. Schools are not equipped to social distance and children do not understand the gravity of doing so.	Lowell Elementary School

	Want to know in detail the measurements that schools will be taken to avoid the spread of the virus, containment in case of detecting a case, tests for all the kids and teachers?		
	How are you going to know they are ok to be together (adults included) if the majority of kids are asymptomatic, and they can play the role of the fastest vector, spreading the		
	virus to all family members and so on within the community. We are a family of four with one person being very susceptible to getting sick, and this is not the best thing we were		
	hoping to hear from our Governor. We hope the schools will remain closed for the rest of the school year. Why not just keeping them closed, if it is only one more month? That		
	way we are flattening the curve even more, and many more people will remain safe for longer. Teachers already did a big amount of things by teaching online so far, can not see		
4/22/2020 20:03:06	why we should not do the same for only ONE MODE MONTH	Jefferson Early Learning Center	
4/22/2020 20:09:38	I don't think schools should open for the rest of the year. Or until Montana has no new case's.	Hawthorne Elementary School	
	I do not want schools to open. There is only a short period of time before school ends. There is Covid-19 community transmission right here in Missoula. I am high risk and there		
	are older staff at my children's school who may be high risk also. Summer vacation begins in a little more than a month. There is no need to put anyones life at risk for this. There		
	are many irresponsible parents in this town who put themselves, there children anyone else in there circle of social contacts by not practicing any type of social distancing. Just		
	step into Walmart and watch the parents with there kids strolling around and touching merchandise and there faces like it's any othr care free day. I know there's a lot of		
	frustration with the possibility of some missing graduation ceremonies and proms but that is life and that's what all this is about. Life. My kids will do fine for the remainder of the		
	year learning from home and there "living" teachers have been amazing.		
4/22/2020 20:13:34		Hawthorne Elementary School	
	I dont agree with opening the school for a month of frustration for teachers and students especially with those that have paranoia. I believe my son would be more affected by		
	the social interaction than learning. He's on the spectrum. Super healthy, but not cautious and he has a way of stating factual information that might not help soothe social		
	interactions. He has expressed his concerns about this opening day because of the COVID19 warnings this far. He has kept himself secluded.		
	I personally as his mother and ultimate decision maker would like to inquire upon what the actions/consequences would be if we chose to not allow are children to go back to		
	school. Please advise. Thanks so much! Best of luck to you all and I hope you and your families are well.		
	~Kate		
4/22/2020 20:26:29		Big Sky High School	
	Please reopen school and as needed consider student participation on an elective basis. If parents are uncomfortable with an opening, then allow them to keep their students at		
	home and sort through remote learning options.		
	The lack of direction and decentralized, fragmented, approach to curriculum delivery has not been an effective path to educate children. We have a first grade student and today		
4/22/2020 20:26:46	(4/22) was the first time since closure he's had an opportunity to see his teacher. Students need accountability, resources, and communication. Families need consistency. Thanks	Dattle on the Elementers Cale and	
4/22/2020 20:26:46	for follow our thoughts into consideration	Rattlesnake Elementary School	
	A friend in the medical field texted me today saying she hoped teachers didn't have to go back for this reason:		
	I am really concerned about teachers and their viral load if they go back to the classroom. It is suspect that those with a higher viral load get more severely ill from this virus,		
	despite good health. Teachers would definitely be in the category of being subject to a large viral load:	Lewis and Clark Elementary School	
4/22/2020 20.28.37	https://www.statnews.com/2020/04/14/how-much-of-the-coronavirus-does-it-take-to-make-vou-sick/ Missoula has community spread coronavirus now. That has not stopped. If we open schools now we are guaranteeing people die directly from that decision. Schools need to	Lewis and Clark Elementary School	
4/22/2020 20:30:21	remain online until new cases stop emerging. It is irresponsible for the community for our elders for our health professionals to restart schools at this time. Lives matter more!	Hellgate High School

., 22, 2020 20.47.17	the diese se noncoming resources available for those families who do not feel comfortable senting their kids back to school this spring:		<u> </u>

My concern is that the risk of spreading the novel coronavirus is high in the school setting. The elementary students will not be able to maintain social distancing on entering and	
leaving school or likely during the day. I'm not willing to risk my family. I am also a healthcare worker. I cannot add the additional risk of my child bringing this virus from/to	
school and home. Unfortunately, if school begins again, my child will not be attending. I do not believe that the school system can handle this without ample time to prepare. The	
remote learning is a perfect example of how much time it takes to prepare as it is understandably chaotic and inadequate for all involved. Take the summer, figure out how to do	
4/22/2020 20:50:04 this correctly	Paxson Elementary School
I am concerned for our teachers, students and families if we return to school this spring. So many people in our community have underlying health issues. Classes are all over 10	
kids and kids are NOT able to socially distance. Making our teachers police that would not be fair. What do we gain by going back for 4 weeks or less? This is a risk my family will	
4/22/2020 20:50:41 not take.	Lowell Elementary School
I think it is to soon to send our children back to school right now. There would be no way to have social distancing in place in schools. Plus a lot of students have family members	
4/22/2020 20:50:59 who have health issues. It is not worth risking someone's life just to send the kids back to school in my opinion.	Big Sky High School
I am concerned that it is NOT safe for our children to be back at school, in big groups, and exposed to so many other kids. I am terrified that they will come in contact with kids	
and bring co-vid 19 to our home, into our family, and affecting our loved ones and grandparents. Please don't start school till the Fall until we can be sure that our children and	
4/22/2020 20:52:03 our families can be safe.	Jeannette Rankin Elementary School
I do not see a possible way to keep our students, families and staff safe at this time from the spread of Covid 19. If there is a way to provide PPE for every child and adult in the	
school, followed by proper steps at home, then I think we could mitigate the risk to at risk populations, but at present, we don't even have testing or PPE for our health care	Dia Clay High Cohool

We want to be there for our students, but not to put so many at risk.  My child has 3 grandparents in town at higher risk of covid19. Having my child go back to school before we have better and more accessible testing, including testing of people who are asymptomatic makes it more difficult for our family to protect our at risk family members. The health department just started expanding testing to those below age 65 this week and they are reporting that they believe community spread is more prevalent than our current testing shows. I feel our testing infrastructure is not yet established enough to open back up the schools, and as hard as it is for my child, and as much as he misses school, returning now doesn't feel worth the risk.	
An overwhelming majority of certified staff at Porter believe it's unsafe to reopen our schools at this time. There are too many staff, students, and families at risk, and we would be unable to even come close to meeting the guidelines established for safe reopening.  Thank vou. We want to be there for our students, but not to out so many at risk.  My child has 3 grandparents in town at higher risk of covid19. With no vaccine, testing for non symptoms with proof most are asymptomatic why would the schools consider reopening at all this year??? Seems very irresponsible and risky	
Also there is no way to make a school especially ones that were just remodeled, social distant compliant. Parents send sick kids to school all the time, with horrible coughs, fev	vers
etc, what's to stop and who would be checking 500 + kids into school each day?? Not reasonable and not safe, I would not be sending my children back, I have RA and the risk	is Washington Middle School, Hellgate High
4/22/2020 21:48:06 to great to "see what hannens" without anything in place	School
My son has severe asthma and I am very concerned about the risk of exposure to COVID-19, what interventions will be in place to ensure his safety while at school?	
4/22/2020 21:48:38	Big Sky High School
I have a 1st grader at Hawthorne. Her little sister is high risk. If sxhools reopen the school year I will NOT be sending my child. I think schools need to wait to open until the fall	.1
think it is irresponsible to open schools up right now. I do not see how you can keep children wearing masks and socially distancing from each other.	Houtharna Flamantani Cahaal
4/22/2020 21:49:07 What are the thresholds MCDS would need to see with public testing for Covid 10 before being comfortable expected and their families to relay social distancing	Hawthorne Elementary School
What are the thresholds MCPS would need to see with public testing for Covid 19 before being comfortable exposing students and their families to relax social distancing standards and restart school?	Hellgate High School
1) If school does not reopen, how will the missed learning be made up? Will they all just start the next year behind. What about those with IEPs and 504s who are struggling to	
meet grade level in a normal school year?	
2) Will there be opt-out possibilities for those who do not want to risk exposure?	
3) Will partial day options for core learning to reduce the number of students in the building at one given time & allow small group learning?	
3) how will you prevent sick kids from attending? In normal circumstances parents send their kids to school ill. Will temperatures be taken at the door?	
4) If school does not reopen, will there be more opportunities for students to have live interaction with teachers & peers? My kids who have live video interactions tend to be	
more engaged in learning.	
5) If school does not resume, Will there be a Bootcamp option for all grade levels to engage with peers & teachers before the next school year?	Hawthorne Elementary School, C.S.
4/22/2020 21:51:58 6) Is the transition from in class learning to remote learning & back to in class learning a reasonable expectation of both schools & families with the amount of time left in the	Porter Middle School
I'm concerned about bringing people together in tight spaces, but I'm also worried about my kids missing their friends and teachers. Thank you for all that you have done!	
4/22/2020 21:54:24	Lewis and Clark Elementary School
I'm concerned about reopening on May 7th. My son got whopping cough last year and I think that having that many teens together again could cause the virus to spread. The	
4/22/2020 22:01:09 teens that I've talked with don't really comprehend the severity the virus.	Big Sky High School
Please do not reopen schools on May 7. Our children need to be kept out of situations where they are exposed to many people, the spaces many people occupy, and the many	
surfaces those people touch throughout a school day. I understand this is not an easy decision to make. But I am not in support of reopening schools for the remained of this	
school year.	
School year.	
Please continue distance learning and begin working with the community on readjustment measures in the fall. Allow the greatest minds in science and medicine to create and	4
	u
implement strategies to safely fight this virus. Do not rush this.	
Every member of our family is high-risk. And while our son may not suffer as bad as the adults should he get sick, it is unfair to put him in a position where he is potentially	
exposed to the virus and can bring it home to us. He could lose his mother, father and grandparents from Covid-19 if it is brought into the home.	
4/22/2020 22:09:11	Hawthorne Elementary School
I am an active MCPS volunteer ELL tutor and a retired teacher. I oppose re-opening of schools this spring. As much as I love my work and miss my students, and the teaching	
staff at Lowell School, I cannot fathom how children would maintain any kind of social distancing; how one janitor would manage to keep surfaces clean; how you'd ban children	ren
from using the meager - and planned for replacement - permanent playground equipment in the shared park, and the other shared things like soccer and basketballs; how you	u'd
keep children from touching their faces or the littles from, say, picking their noses. Why would you put teachers in a position of having to choose whether to potentially expos	
themselves and their families, and parents with having to make a decision whether or not to send their children into a virus incubator to become vectors themselves? I know	
distance learning is hard for everyone, but let's not rush into reopening before we have extensive virus testing and isolation of carriers, which was what Rullock promised but be	nas l
4/22/2020 22:13:11	Lowell Elementary School
I don't have a student in school, my brother teaches at C.S. Porter and his wife works at the hospital in Missoula. My parents returned to to Montana almost a month ago and	
have been self quarantined to be on the safe side. I'm hoping that at some point in the next few months the numbers will drop and I can feel comfortable enough to spend times.	
4/22/2020 22:17:54 with my family. Opening the schools will cause havoc on spreading covid through people unaware that they have it.	C.S. Porter Middle School
I want my child to go back to learning with his teacher and in person with tactile materials like TEXT BOOKS and hands on experiences rather than online. But I am very concer	ned
about the ability to keep social distancing in schools. If there were plans for extremely limited class sizes, taking temperatures and pulse/02 monitoring, shorter class times (ev	en e
outdoors where there is adequate ventilation) and assurances of cleaning standards I might feel reassured. We will most certainly have a spike in cases once these orders are	
lifted and I think we shouldn't rush back. How can we maintain a 10-50 person crowd limit depending on the requirements? There is a lot to think about before it happens	
4/22/2020 22:19:04	Rattlesnake Elementary School
4/22/2020 22:19:04  I am concerned about sending my 4 kids back to school so soon. One of my kids has asthma and is prediabetic. I don't feel comfortable without a cure in place and so many	
4/22/2020 22:19:04  I am concerned about sending my 4 kids back to school so soon. One of my kids has asthma and is prediabetic. I don't feel comfortable without a cure in place and so many 4/22/2020 22:20:39 unknowns.	Rattlesnake Elementary School  Hellgate High School
4/22/2020 22:19:04  I am concerned about sending my 4 kids back to school so soon. One of my kids has asthma and is prediabetic. I don't feel comfortable without a cure in place and so many unknowns.  At this time, based on the all information received, do not wish to have the schools reopened for the remainder of the school year. We have 5 children enrolled in MCPS, 2 of	Hellgate High School
4/22/2020 22:19:04  I am concerned about sending my 4 kids back to school so soon. One of my kids has asthma and is prediabetic. I don't feel comfortable without a cure in place and so many 4/22/2020 22:20:39 unknowns.	Hellgate High School

My concern is that it is still too soon for schools to open. There are families that have high risk family members or rely on childcare from a person who has a high risk family	
member. My son's daycare will not open back up this school year. I have no people available to watch him while I go to work.	
I am a para at Sentinel High School, but I feel like I should be checking three more boxes above. My son attends a very small in home daycare. The lady only watches four	
children. Two of the other parents work at Washington Middle school. Two of the children attend kindergarten before they go to daycare each day. They go to Lewis and Clark	
and Chief Charlo. In a tiny daycare of only four children, this is five people, coming from five different classrooms in four separate schools. All of these people would be going to	
the same house every day. It is too dangerous for our daycare provider and her family. Two people in that house are at high risk.	
This is just one small case. Imagine how scary this could be for a bigger daycare!	
I will not go back to Sentinel this school year. I will continue to be available to my students through email and Google classroom for the remainder of the school year. I am	
available and "on call" for my teachers and students all hours and days of the week. It is exhausting, but I would rather do this while keeping my extremely busy two year old	
4/22/2020 22:21:07 home with me, so that the people we care about are safe.	Sentinel High School
I don't have kids in school anymore, but I have teacher friends that I love and care about. I also have friends with kids that don't want to send them back to school because it is	Lewis and Clark Elementary School,
just not safe. Kids don't understand social distancing. Give the kids a chance and let's not let this virus spread anymore. Keep teachers and their students safe. They have risen to	Washington Middle School, Hellgate High
4/22/2020 22:22:55 the challenge to teach online.	School
I beg you to please carefully reconsider opening school. There's not much of the year left. Why risk illness and possibly deaths. I am a grandmother and will no longer be able to	
see my grandchildren if they are forced into an unsafe environment. This isn't sharing the flu! Please do not put our entire family at risk as well as the wonderful teachers and	
4/22/2020 22:23:57 staff. I beg you.	Hawthorne Elementary School
I do not think that schools should reopen this academic year. There is no way that any kind of social distancing can happen in school. It will be way to easy for kids to bring home	
a virus and infect their family, and while they might not be as likely to develop symptoms they are all too able to be carriers. My family has a high risk member living with us	Rattlesnake Elementary School,
4/22/2020 22:27:53 will not risk sending my children back to school. even if they do reopen.	Washington Middle School
I'm 72 years old and live with my son (a single parent) and his 2 children. Distance learning is working well for us. My son, (Name Redacted for privacy reasons FHL), and I feel	
that in school lessons should be discontinued for the remainder of the school year. There are many folks out in the community who are not following safety guidelines. This is of	Dissall Flore autom Colonel Markington
great concern to us. Our family has been self isolating since before the shutdown and will continue for as long as we need to.	Russell Elementary School, Washington
4/22/2020 22:28:16	Middle School
Concerned about opening back up, as nothing has changed since the day they closed. I don't see a feasible way of keeping elementary kids at school and socially distanced	
4/22/2020 22:30:35 unfortunately. No email response necessary.	Hawthorne Elementary School
4/22/2020 22:34:18 School should remain closed.	Meadow Hill Middle School
4/22/2020 22:41:27 Please do not open school yet. It will undo all the hard work we've done this last month of sheltering in place	Lowell Elementary School
4/22/2020 22:41:35 Have teachers been polled about feasibility of CDC guidelines and ability to implement with full school opening?	Paxson Elementary School  Lewis and Clark Elementary School,
My kids are so sad to be missing school and homeschool is really hard for us since both parents work!! That being said, opening school seems very high risk and needs to be done	Washington Middle School
4/22/2020 22:42:31 with the utmost caution. Such a tough decision. Our family would fully support the decision to stay closed until fall.  I do not think it is wise to send our children back to school with only a few weeks in the school year remaining. My kindergartner would struggle to maintain physical distancing or	
wear a mask for a full school day. Not only that, but this has been a huge transition being pulled out of school so suddenly and would only result in another difficult transition	
getting used to a new norm for the remaining few weeks. It seems like it is in the best interest of our children to keep them out of school for this year and focus on strategies for	
a safe and appropriate reentry in the fall. The virus will still be here at that point and this would give more adequate time for schools to make necessary preparations.	
Thank you for your time.	
4/22/2020 22:45:01 Thank you for your time.	Rattlesnake Elementary School

How can students go back to school safely when, logistically, it	t's often not possible to keep social distancing in check throughout the day in a school? Examples: hallway	
	lunch in a cafeteria, classroom space is too small to accommodate social distancing, cognitive awareness of	
appropriate social distancing of younger students or special ne	eeds students, etc.	
I'm concerned that some individuals won't take the restriction	is seriously, such as not wearing face masks, social distancing and staying home when sick, thus putting my kids and	
the rest of my family at risk of close contact community spread	ding of the virusWe've seen this in the last year with Pertussis.	
It is known that individuals can still carry the virus and he with	out symptoms. This is a huge concern when considering reopening schools.	
Te is known that maintains can still carry the virus and se with	out symptoms. This is a mage contern when considering reopening schools.	
	need to stay at home because they are immune compromised or taking care of family members, there won't be	
enough subs to fill the positions. We would be asking individua	als to risk their own safety and health to sub for a vacant teacher, when sub pay is minimal and without insurance	
benefits.		
If we open the schools and another surge of the pandemic hits	s our state, essentially we would be asking our students, teachers and parents to go backwardsSubjecting	
individuals to more stress and trauma, potentially increasing a		
individuals to more stress and trauma, potentially increasing a	ind deepening mental health concerns.	
	nultaneously?There will be some people who simply cannot go back into the schools, due to being immune	
compromised. Creating online and campus learning, simultane	eously, will cause an increase of workload for teaching staff, thus causing concerns of tapping them out, increasing	
stress, burnout and mental health concerns.		
, , , , , , , , , , , , , , , , , , , ,		
We already have a routing and system in place for online learn	ning. Though it is not the most beneficial for best practices in teaching or learning, it is already established and is the	
safest scenario in an environment that has many variables and	d unknowns for the immediate future with the pandemic.	
As an employee and parent, I don't feel safe going back to wor	rk or sending my children back into the schools. There are simply too many risks to open the schools.	
Sadly if a student or staff member were to contract Covid-19 of	due to close contact community spreading within a school and die from complications from the virus, what are the	Hawthorne Elementary School, C.S.
4/22/2020 22:49:02 ramifications, legal or otherwise, for the district if schools are in	roomand to a carly?	Porter Middle School
4/22/2020 22:52:05 I am concerned for the safety of the children and the teachers	if we return to school too quickly	Lowell Elementary School

	There are too many risks to students and staff to justify going back to school for a month.		
	How do you protect students and staff who are immune compromised or special needs? Many younger or special needs students require close personal contact from teachers		
	and paras. Also, many special needs students do not understand how to interpret new rules and changes. These changes will probably severely disregulate many students. This		
	will likely lead to some violent outbursts, increased fear, trauma, and will not be a good learning environment.		
	Additionally, schools do not have enough custodial staff to keep everything clean. In the best of times, many schools are understaffed. It is very likely that many staff members		
4/22/2020 23:20:02	will not be able to return. Schools cannot operate properly without full staff and we simply do not have enough subs in any positions to reopen and cover all possible vacancies.	C.S. Porter Middle School	
	It would be nice to get the kids back somehow. Some thoughts are certain grades at certain hours or on different days to distance a little. Even for a couple weeks, and then it is		
	summer break. I understand the concern but there are so few cases in Missoula. With proper precautions we can make it work. I like to look at Sweden as an example. They have	Jeannette Rankin Elementary School,	
4/22/2020 22:20:22	kept their schools running. I really hope that there will be some sort of graduation for the class of 2020. Please find a way to make it happen.	Meadow Hill Middle School, Sentinel	
4/22/2020 23:28:33	Please start the schools.	High School Lewis and Clark Elementary School	
4/22/2020 23:20:33	Hello, I'd like to start off by telling you thanks for doing a fine job during this difficult time. I'd like to offer my opinion on a possible reopening of Lolo school. Personally, I feel	Lewis and clark Elementary Sensor	
	that since The school year is almost over and Schools are the biggest Petri dishes there are in rural areas anyways, I can't see a reason to reopen. It seems like a bad idea to open		
	schools this year. We just got into a regular groove with home school and to reopen for a month or so seems like a ton of risk for very little reward. The risk factor is just too high.		
	Thank you for your time.		
4/22/2020 22 22 24	(Name and Phone Number Redacted for privacy reasons FHL)	Continue Ulimb Calara	
4/22/2020 23:29:41		Sentinel High School	
	Any graduation of any kind would mean the world to the current seniors. No one quite knows the feeling of working so hard for 12 years and having graduation in jeopardy		
4/22/2020 23:36:35	except the current seniors. Even if it meant postponing graduation to a later date or limiting it to immediate family only, the senior class of 2020 would do anything for a real graduation	Big Sky High School	
, ,	My kids go to CS Porter and Sentinel. I teach at JRE. As much as I'd like us all to get back to school, I do not think it is right to go back under these circumstances. There are so	0 , 0	
	many layers to this issue. Most importantly is the safety of students and staff. I don't see how we can guarantee safety. I don't see how we can social distance/keep gatherings		
	under 10 and properly disinfect schools with 500+ students. With only a few weeks left, is it worth it? I know that my own kids and 5th grade students have finally found a groove		
	in online learning. Asking us to change course again, with only a few weeks left, does not seem worth it. It will be another adjustment for both students and staff that many will		
	not be comfortable with. In addition, how will we cover the many staff members who cannot return due to age or underlying health conditions? How will we teach the many kids	Jeannette Rankin Elementary School, C.S.	
	who cannot or will not come back due to heath issues or concern for safety? I just don't see the benefit of in-person instruction outweighing the risk both physically and mentally.	Porter Middle School, Sentinel High	
	I think we should continue online learning through this school year. Thank you for asking!		
I 4/22/2020 23:42:51	Talling the should continue ordinal featuring through this solice of feature four for asking.	School

Although our numbers have been low in the Missoula area we have been on a stay at home mode for weeks which I believe has kept our positive covid 19 numbers and the curve low.  Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.  The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school year.  I am a member of the public. I worry about asymptomatic and asymptomatic transmission. I feel that the benefits of completing the school year with in person instruction are small in comparison to the risk of having to tighten social distancing measures again. Alternatively, cohorting students into a two weeks on and two weeks at home online might be a good way to decrease densities.  Please do not open the schools until fall. Our kids are you important. 	Even with the best of efforts I don't believe it is possible and there is so much still unknown on what will help really ensure safety and health of our children and the teachers and staff (as well as all of their families, etc) if school went back in session before we know even more.	
	Although our numbers have been low in the Missoula area we have been on a stay at home mode for weeks which I believe has kept our positive covid 19 numbers and the curve low.	
	Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.	
4/23/2020 0:33:58	The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school year.	Paxson Elementary School, Washington Middle School
., 23, 2020 0.00.00		

	I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is true social distancing during the school day.

	I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is true social distancing during the school day.	
	Even with the best of efforts I don't believe it is possible and there is so much still unknown on what will help really ensure safety and health of our children and the teachers and staff (as well as all of their families, etc) if school went back in session before we know even more.	
	Although our numbers have been low in the Missoula area we have been on a stay at home mode for weeks which I believe has kept our positive covid 19 numbers and the curve low.	
	Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.	
4/23/2020 0:35:21	The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school year.	Paxson Elementary School, Washington Middle School

	Although our numbers have been low in the Missoula area we have been on a stay at home mode for weeks which I believe has kept our positive covid 19 numbers and the curve low.	
	Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.	
4/23/2020 0:37:40	The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school year.	Paxson Elementary School, Washington Middle School
4/23/2020 0.37.40	I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is true	ividate seriooi
	social distancing during the school day.	
	Even with the best of efforts I don't believe it is possible and there is so much still unknown on what will help really ensure safety and health of our children and the teachers and staff (as well as all of their families, etc) if school went back in session before we know even more.

4/23/2020 1:30:59		Meadow Hill Middle School
	How can students go back to school safely when, logistically, it's often not possible to keep social distancing in check throughout the day in a school? Examples: hallway	
	congestion, student proximity to each other at lockers, eating lunch in a cafeteria, classroom space is too small to accommodate social distancing, cognitive awareness of	
	appropriate social distancing of younger students or special needs students, etc.	
	I'm concerned that some individuals won't take the restrictions seriously, such as not wearing face masks, social distancing and staying home when sick, thus putting my kids and the rest of my family at risk of close contact community spreading of the virus We've seen this in the last year with Pertussis.	
	It is known that individuals can still carry the virus and be without symptoms. This is a huge concern when considering reopening schools.	
	The district already has a sub shortage. If teachers get sick or need to stay at home because they are immune compromised or taking care of family members, there won't be enough subs to fill the positions. We would be asking individuals to risk their own safety and health to sub for a vacant teacher, when sub pay is minimal and without insurance benefits.	
	If we open the schools and another surge of the pandemic hits our state, essentially we would be asking our students, teachers and parents to go backwardsSubjecting individuals to more stress and trauma, potentially increasing and deepening mental health concerns.	
	How can we facilitate online learning and campus learning simultaneously?There will be some people who simply cannot go back into the schools, due to being immune compromised. Creating online and campus learning, simultaneously, will cause an increase of workload for teaching staff, thus causing concerns of tapping them out, increasing stress, burnout and mental health concerns.	
	We already have a routine and system in place for online learning. Though it is not the most beneficial for best practices in teaching or learning, it is already established and is the safest scenario in an environment that has many variables and unknowns for the immediate future with the pandemic.	
	As an employee and parent, I don't feel safe going back to work or sending my children back into the schools. There are simply too many risks to open the schools.	
	Sadly, if a student or staff member were to contract Covid-19 due to close contact community spreading within a school and die from complications from the virus, what are the	Hawthorne Elementary School, C.S.

If we return to school: Many employees will not be able to return due to their own private health risk factors. Many employees will not be able to return due to the health risk	
factors of people in their home or their family. How does the school plan to accommodate for this missing personnel? Sub shortages were a problem in our school district even	
4/23/2020 7:42:49 prior to the pandemic.	Lewis and Clark Elementary School
I am disappointed to hear that the school board is considering reopening schools before the end of the year. I think keeping our community safe and healthy is more important	Devices Flows arters Coloral
4/23/2020 7:43:34 than trying to regroup together a few weeks of instruction.	Paxson Elementary School
I am a teacher, my wife is an OT for the district and we have three kids in the schools. Not only that, but I also coach the high school girls soccer team at Sentinel and a U13	
soccer team for Strikers. If we are allowed to go back to school on May 7, I feel like so many people are going to feel immense pressures to start everything back up like normal,	
and there could be major rises in the infection curve. Our students in general aren't at high risk, I understand that. But what about the kids who live with grandma or grandpa. Or	
what about the not so careful people who go out and bring it back and then someone dies or gets sick due to their lack of care or precaution. The school board is in a unique	
position to make educated, cautious decisions to keep our community healthy. As soon as we open up people are going to automatically think it is safe and are going to engage	
in regular activity again. This is going to put the cautious people in a bind.	
I feel it is senseless to open schools when we already have a waiver from the governor.	
I suggest one of two courses: either finish out the year online, or set the date for June 1 and we all finish the last two weeks in school to give this thing three more weeks to die	
down.	
The curve has been flattened but we are risking the health of many by going back early.	
As a district employee I would feel uncomfortable going back on May 7.	Lewis and Clark Elementary School, C.S.
I know that is a few weeks away still and I may feel differently at that point in time, but this is how I feel now.	Porter Middle School, Sentinel High

	I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is true social distancing during the school day.	
	Even with the best of efforts I don't believe it is possible and there is so much still unknown on what will help really ensure safety and health of our children and the teachers and staff (as well as all of their families, etc) if school went back in session before we know even more.	
	Although our numbers have been low in the Missoula area we have been on a stay at home mode for weeks which I believe has kept our positive covid 19 numbers and the curve low.	
	Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.	
4/23/2020 8:10:23	The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school year.	Paxson Elementary School, Washington Middle School

Our home has been staying home like we were told to. If school are opened students will be exposed to "new" and 'different" germs. It's asking for trouble.  I will mild recommend and the rest of the 2019-2020 school year.  Wy family is not comfortable with our child returning to school this year. We are still in the beginning of this pandemic and sending students back to school too soon will result in a lot more cases and deaths.  I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is so much to potentially lose is a bad decision.  The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school needs to continue until the end of the school year.	Lewis and Clark Elementary School, Sentinel High School  C.S. Porter Middle School Jeannette Rankin Elementary School C.S. Porter Middle School Lowell Elementary School

	I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is true social distancing during the school day.	
	Even with the best of efforts I don't believe it is possible and there is so much still unknown on what will help really ensure safety and health of our children and the teachers and staff (as well as all of their families, etc) if school went back in session before we know even more.	
	Although our numbers have been low in the Missoula area we have been on a stay at home mode for weeks which I believe has kept our positive covid 19 numbers and the curve low.	
	Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.

4/23/2020 8:32:10	difficultive end of the school year.	Paxson Elementary School, Washington Middle School
	I am concerned about the social distancing procedures with children. We will have to hawk eye kids all day to make sure they are staying safe. We have parents who send kids to school sick normally and we have to send them home- will we check every students temp before the school day starts? Will the bus be able to screen them before they board in the morning? How do we plan bussing to ensure social distancing? As a secretary (and I love my job with my whole heart) I would love to finish the year in school but I have fear for the kids and families with compromised immune systems. Will we offer remote learning for this situation?	
	I also fear not having a nurse in the building as we share ours with CSP and BSHS. Last year when we had whooping cough it was a great strain on the nursing staff and the office staff at the schools even with provided support from the health Dept nurses coming in to help screen.	
	There is a lot to consider before we bring students back. We need time to plan and prepare for new health procedures. We need to know what to expect as far as masks on staff and students, setting up hand washing schedules. Figure out how to seat and feed kids at lunch- we will need to review our current schedules and find a way to safely feed, transport, and engage with students.	
	As a parent I am nervous to send my own kids back since I have little faith in them maintaining social distance and staying safe even though they are older. I feel as a parent the risk isn't worth bringing them back for a few weeks when the symptoms can go undetected for a long period of time. We have been home and sheltered in place since Spring Break started- is it worth risking the spread for families who have taken these precautions for a month and a half already?	Hawthorne Elementary School, C.S.
4/23/2020 8:33:11		Porter Middle School

	I think I'd be ok with kids going back to school, but only if there was a way to "stagger" attendance. I'm not even sure if this is feasible, but I do think that having all the children	
	back in the school all at the same time is a bad idea at this time. Has a staggered attendance approach been discussed? I'm more thinking out loud here, so please forgive the	
4/23/2020 8:34:38		Paxson Elementary School
	Concerned that schools are considering reopening with only 1 month left.	
	Why risk teacher's and student's health? Wouldn't we rather look back on this and think we were possibly too cautious rather than have regrets over handling in way that	
	fostered any negative outcomes?	
	Seems like huge liability issues for the schools and teachers if someone gets sick and social distancing is to blame.	
	Our children's first steps into RE-entry should be perhaps seeing close friends or family members they have missed, not rushing back to an environment with so many unknowns.	
	The school climate right now would likely create extreme anxiety for some staff and students. Those with a more relaxed attitude would only worsen that stress.	
	Also, to be honest, how many kids will show up? Why open with the possibility of half empty classrooms?	
	Take this time to calculate plans for next fall. It is no easy task to figure out how to create a safe environment surrounding the virus which will likely still pose a threat come	
	September. Mobilize with information from other schools in other states who can test the waters this month if they choose, but keep our community safe. We will have so much	
	more information at our disposal come June. Information is key. Too many unknowns currently.	
	Thank you for always asking for community input and weighing all options :)

4/23/2020 8:40:55	I care about the physical health of at risk people, but I am equally concerned about the educational health of at risk students. We cannot just shut down society and live in a bubble every time there is a pandemic, especially in a case such as this one in which there is much confirmation bias based on incomplete statistics, especially when the news media uses algorithmic editing and bubble filters in disseminating information to the masses. We also need a well-educated student body that will include the future health care workforce of our world. And through education our students have a fighting chance to not be included in the ranks of the unemployed and homeless who would become the next generation of "physically at-risk people" in regards to future outbreaks. And while we are at it, has anybody heard of the antigen/antibody response of our bodies? We also need to learn how to discern what components of statistics are significant and what components of statistics are normal background information such as found in the exponential growth curves and crashes that happen with all diseases including influenza, pertussis, etc. People from an educated society are better equipped to understand these things and interpreting them in a more practical manner. 	Concerned about how to appropriately protect youth, teachers, therapists, and their families with such short notice. Having youth adhere to requirements this quickly will not happen unless families are prepped. Opening schools this spring seems to unnecessarily endanger lives of youth and adults in our district putting teachers and staff in ethical decision making processes too quickly without being able to assess risk to their own health and families with such little time. We know the virus is still here and much more prevalent than we know of. I truly hope the board takes the health of not only their most vulnerable but the families of them as well who inevitably will have vulnerable

	low.	
	Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.	
4/23/2020 9:01:4	The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school year.	Paxson Elementary School, Washington Middle School
4/23/2020 3:01:4	Good Morning,	Wildlie School
	My daughter attends Sentinel High School as a freshman. After receiving our email yesterday, my concerns for my family's health skyrocketed. I anxiously awaited the survey mentioned to come into my email inbox all evening so I could express my fears of my child physically returning to school this school year. We, as a family, have strictly been following the stay-at-home orders set a month ago due to three members of our family within our home fall into the high-risk category. The risk of one of us contracting COVID-	
	19 and seriously becoming ill would most likely have a devastating outcome. With that being said, I cannot conceivably rationalize sending my daughter physically back to school this academic school year. She has done an incredible job diligently working on her school work from home. As important and necessary as I feel education is, it cannot take precedence over our health.	
	If the decision is made for our students to return to school this academic year, my daughter would not be attending as to keep our family safe from potential devastation.  My question would then be, "Could my daughter, Zoey, continue learning remotely via online classes for the remainder of the school year without consequences of having to repeat her freshman year to keep our family safe from harm?"	
	Being that "the Governor confirmed that whatever our board decides, we will not risk the loss of state funding," the decision of schools remaining closed until August is not at all unreasonable. Keeping our children, families, and community safe from such an unnecessary, senseless spread of this deadly virus should be our top priority.	
	Thank you,	
4/23/2020 9:04:5	(Name Redacted for privacy reasons FHL)	Sentinel High School
4/23/2020 9:05:49	I am extremely concerned about the idea of my kids (2) going back to school on May 7. I think it would be premature risky. Although I know my kids desperately miss their friends	Hellgate High School
4/23/2020 9:06:1	and teachers, they, too, are scared by the idea of everyone being in one building when the news remains so filled with COVID predictions.  I did not receive the email or text regarding the survey mentioned in your email yesterday. could you please send it? Thank you.	Sentinel High School
	2 Kids should NOT go back to school this Spring. We are not out of the woods yet with this virus. Please keep our kids and community safe.	Lowell Elementary School
	There is not enough testing and contact tracing to start re-opening Missoula and Montana. I watch Cindy Farr's update from the Missoula County Health Dept every day and per	Rattlesnake Elementary School,
4/23/2020 9:11:0	her update vesterday, Missoula's numbers are not indicative of what's really happening in our community.	Washington Middle School
	Dear MCPS Committee,	
	My Student has asthma and so does a parent - this fast paced opening while cases are still growing in Missoula is putting children and community at risk. To open schools with	
	only 4 weeks left of school year would be negligent and to what end? The anxiety of having asthma and attending school would also be debilitating for my child. Please carefully consider the health of our children and their parents/family before we open the schools too early.

My kids are doing well with home school and I would like to just finish the year out at home. I know some kids ha	living trouble and are needing extra personal help. Maybe those
kids (a much smaller number) could be accommodated at school so that they do not fall behind this 4th quarter.	Then we can start fresh, and much safer back at school , in the
4/23/2020 9:39:04 <sub> fall</sub>	Sentinel High School
I am concerned that we are moving too quickly. The health of my family is at risk as soon as we return. The health	
children, I know that they will be excited to see their friends again and be social I do not think they will practice	social distancing in their school cafeterias, in their hallways, in
the bathrooms etc. I do not see a healthy way to mitigate the risk in buildings of over 1200 people Or a way to	contain all the germs if we're sending kids to school in shifts. I
feel as a parent it would be irresponsible to send my children to school. I know this will leave them more anxious	because they will know there are other people at school and will
be missing out on things. In regard to my own job as a teacher, I think we will have a fair amount of students wh	o decide to stay home which means that as a teacher I will be
teaching kids in school and at home And I worry about the split focus and not being able to address everybody'	s concern and learning needs and mental health during this time.
I Also worry about dream bringing germs back home to my family. During a normal school day I have over 100 sti	
or rotate shifts and I only see half that many, I am potentially bringing a lot of dangerous germs home to my own	
coworkers have actually expressed in our group discussions over the past couple of weeks that we are terrified to	
was earlier in the school year and there was a significant amount of time left, but we are so close to the end why	
4/23/2020 9:39:04 the recommendations of keeping everybody safe.	School
I think the tradeoffs of "opening" just aren't worth it to the students, the parents, or the district itself. Everyone h	has too much to lose for very little regained value.
Even if you could accomplish the impossible task of having half as many kids in the building and sanitizing every s	
population walking too close, being near each other in desks, sharing surfaces with hundreds of other people, ma	aybe some not taking it seriously, etc. In that environment, just
one person carrying the virus would spread across the school in no time, which then brings it home to their famil	ies pretty easily. And that's assuming an impossible level of
cleanliness and distancing that, even if you could enact, would hinder the daily learning process so severely as to	render being back in the school pretty useless.
I'd also guess that many students would be nervous wrecks in that environment, not to mention the parents who	can afford to do so, would probably not send their kids back in
the first place. And while I don't actually want to know the answers to the following questions, they are question	
be questions raised by the community/parents: If not all students go back to school, would there be half e-learning	
those who refuse to return - do they fail or get a pass? Doesn't either of those options undercut the learning productions and the state of the stat	
were in-person and e-learning, can teachers even handle a dual workload? Which students/teachers would have	to risk of going to school and which wouldn't? What is the
quality of learning in that situation as opposed to just sticking with e-learning for the year? Etc, etc.	
I think there's a whole can of worms that gets opened up real quickly with trying to open the schools again this la	te in the year.
Ultimately it just really seems like a whole tangled mess of issues for every level of the school - none of which wo	uld be easy to manage for parents, teachers, or MCPS - in
exchange for no real gain.	
4/23/2020 9:43:22	Sentinel High School
I would urge MCPS to resist the push to re-open schools in early May and instead to consider continuing remote	· · · · · · · · · · · · · · · · · · ·

I am not opposed to sending students back to school and will probably send my children when things open up (based on my current view of things). I just want to make sure that	t
there will be no "penalty" for families that decide not to send their children back to school. I appreciate that this is being discussed and understand that no matter what is	Lewis and Clark Elementary School,
4/23/2020 9:56:28 decided someone will be unhappy. Thank you for your thoughtful consideration of this matter.	Sentinel High School
4/23/2020 9:57:56 My daughter does not take this virus seriously and I really don't want her going back to school with a bunch of other teenagers who also do not take it seriously	Big Sky High School
I have significant concerns regarding a return to classroom learning this academic year. There is not a practical means by which to keep students, staff, and our community safe i	f
we return. Individuals cannot remain 6 feet apart. The capacity to test and trace presumptive positive and positive individuals is insufficient. We do not have the necessary staff	f
or resources to provide the level of regular sanitation that would be needed.	
If there is drive to return the younger students to school, the district should consider dispersing the elementary students across elementary, middle school, and high school 4/23/2020 9:57:59	Washington Middle School, Sentinel High School
My son, (Name Redacted for privacy reasons FHL), is a sophomore at Big Sky High School. He has down syndrome and hypothyroidism, among other things. His immune system	
has never been that great and when he gets sick, he stays sick for months. I fear that his immune system would not be able to handle the COVID-19 virus and he would end up	
with more damage to his body or organs or even die. As with all kids, struggling to keep him from passing germs is an every day battle. The other thing I worry about with him is	
the change in schedule. Kaiden needs stability and putting him back in school for a couple of weeks, then taking him out again would so more damage than it would good.	
Keeping kids home for the month and a half or so was necessary. We are adapting to this schedule, having video chats with teachers and other therapists, taking regular walks	
and doing school work at home, and the really is thriving. He has become much more independent because he is sharing the new activities with his teachers and counselors. I	
don't think that sending him back to school for such a short time would help the process. If the school board does end up voting to return kids to school, I plan to keep Kaiden	
out for the remainder of the school year. Given the fact that we know that people can carry the virus with little to no symptoms, I do not feel that it would be safe to allow	
thousands of kids back to school with no testing to show they either had the virus or have the virus and expose others, especially when we know that healthy adults are dying	
from the virus, if more kids are exposed, the result might be the same, normally healthy kids could be permanently damaged from the virus or even die. And, the kids with	
weakened immune systems, who are not in the Life Skills Classes, and have things such as diabetes, thyroid problems, or other autoimmune illnesses, would also be at great risk.	
Thank you for your consideration, as I said before, I plan to keep Kaiden out of the school the remainder of the school year. This definitely isn't an easy fix and people will be	
	Big Sky High School
4/23/2020 9:59:30 angry either way. Good Luck. No response is necessary, I just included my email in case it was needed.  My granddaughter goes to delegate elementary school was not in your list my concern. An plea is I believe if she goes back to school she will bring home the virus to her siblings	
and mother who has bronchitis An is asthmatic they only have a month please consider not letting them go back the rest of this year its way to soon.  4/23/2020 10:00:44	Hellgate High School
I know that students being out of school is creating a hardship for some parents, but feel like if school is reopened our situation is going to worsen. I would worry for (Name	The light control
Redacted for privacy reasons FHL), other students, and all of the staff. While our family has the ability to control our environment, as soon as students are reintroduced to the	
school environment they are around other students. Said students may be living in households where infection safety is less of concern.	
school environment they are around other students. Said students may be living in households where injection safety is less of concern.	
I have been extremely happy with the job the staff has done since schools have been shut down and I think it is only smart to finish the school year as is.	
4/23/2020 10:04:02 (Name Redacted for privacy reasons FHL)	Lewis and Clark Elementary School
There isn't a way to keep 6 feet between kids and there are more than 10 people per classroom so there is really no way to limit gatherings either. There's also the transition	
period of being back at school so there would really only be 2 weeks I'd school by the time kids settled in. I don't want thousands of kids to get this disease for 2 weeks of school.	
Health and safety should be our biggest priority. And while I want everyone to have a good education, I also believe that most families have done okay with remote learning,	
please don't put our kids in harm's way or the possibly immunocompromised people they live with. Instead focus on how to make the schools safe in the fall	
4/23/2020 10:06:04	Chief Charlo Elementary School
I strongly believe it is too soon for our children or staff to be going back, even with a phased reopening, partial days, or staggered schedules. Moving to distance learning was	
already a massive adjustment to families and employees - we were tipped over and asked to recover in a matter of weeks. Asking us - all of us- to adjust to ANOTHER new norm is	S
unreasonable and a lot to ask while people are actively scared, stressed, and unsure of what to do. When kids go back to school, some of us will have employers who arent	
pressured to keep their employees home, pressuring us to come back since we have childcare - doubling the household's exposed people. Some of us will struggle with the	
benefits or services we are managing/juggling/struggling to navigate. And what happens if we spend 2-3 weeks adjusting to another new normal and then we find out it is time to	
go back to Shelter In Place and the kids and staff will have to recover from that again. Those parents who needed childcare or needed work accommodations to be home will	
have to get their household back in order; school staff will have to recover again. This is TOO MUCH to ask of our families and of your employees. None of this is even touching	
the most basic fact of, once a person in a classroom has it everyone in that class will be at risk and asked to go home and quarantine. That is crazy to expect to be navigatable,	
when the other option (keeping us all home) is much much safer. We are going to be putting so many families at risk if we reopen too soon. I am begging you to choose to keep	
4/23/2020 10:06:37 us as safe as possible and keep us home.	Hawthorne Elementary School
My Kindergarten student has a smaller than normal airway, which he is challenged with breathing if he is exposed to smoke or sickness. I am his mother and I am 6 months	
pregnant. Which puts our family at higher risk. I was terrified to hear earlier this week "they" wanted to reopen everything Friday. I am relieved it was pushed back again. I would	
absolutely love for my student/child to return to "normal" and resume school for social and academic reasons but the threat of this disease reaching our household is terrifying.	
Too soon I think. Our world/generation have never been through something like this and there are so many unknowns. I feel it is too risky to reopen the schools especially right	
now. Our team of teachers are phenomenal in getting us resources and continuing to teach. I would rather my kiddo repeating Kindergarten then risk going back to	Russell Elementary School
My husband and I are both teachers at Washington with a kindergartener at Lewis and Clark. We also have a 3 year old who goes to daycare in a home with at-risk members that	Lewis and Clark Elementary School,
4/23/2020 10:10:13 will need to remain closed. What are our options if we go back to school?	Washington Middle School
My child needs face to face learning. It took a long time to get internet hooked up at home and that put her behind then the school issued laptop was locked for 6 days due to	
not being able to update and make changes which put het even farther behind. She is a 3.8 student who is failing and i dont feel she is getting the help she needs. She is not an

If it continues online will there be resources available to these students who need face to face interaction? What will the semester grading criteria be? Can we get	t
	Hellgate High School

	With only less than a month left of school before summer once the restriction is lifted, why risk exposing our kids in large group settings? I think MCPS should focus on trying to		
	creatively find a safe way for seniors in high school to have some sort of graduation ceremony or celebration rather than attempting to reopen all of the schools for less than a		
4/23/2020 10:16:28	···············	Jeannette Rankin Elementary School	
4/22/2020 40 47 42	I will not be sending my child to school if it reopens. I am extremely concerned about the spread of Covid 19 in this environment where socially distancing is almost impossible. I	c e les los l	
	wenter the winding to part toward to attend the are atting and the many annual time mineral	Sentinel High School	
	Just a suggestion, actually. Could schools open where half the students (say last names A-M-ish) attend Monday, Wednesday and the other half (last names M-ish-Z) attend		
	Tuesday, Thursday? Friday could be an optional day for students that need extra remediation, tech access, etc. It would be easier to maintain social distancing with only half the		
	students in attendance. I know there are other issues to consider such as free/reduced lunch for students on their "off-days" and childcare for people returning to work.		
4/23/2020 10:18:08	Students would be able to do some hands-on activities with their teachers and have some socialization, but then do remote learning the rest of the week. I feel this is a good	Washington Middle School	
	Please do not re-open schools in May. Montana has made it this far because of early implementation of transmission prevention measures, but I believe as a nurse and mother	washington whole school	
	that it is critical for us all to continue these practices. Once our kids are back in school, it will be impossible for them to maintain 6 feet of distance between people, enforce		
	masks, and we all know our lovely children aren't going to practice impeccable hand and respiratory hygiene. I think we will see a spike in new cases. It's also almost the end of		
	the year, and I don't feel the benefit of having 1 month in class outweighs the risks of COVID transmission if our kiddos are put back in schools. If schools do re-open in May, I		
	would like to see the option of ongoing "homeschooling" for those of us who don't feel it's safe yet to send our kids back so soon. We all want the best for our community and its		
4/23/2020 10:18:15	families, but please please err on the side of caution and don't re-opens schools this year. Thank you.	Hellgate High School	
	I would be very concerned about my daughters returning to school for the last month as we have been working so hard on social distancing & staying healthy. I am also a teacher		
	& work at 3 schools, sharing art supplies with close to 1,200 students. I do not see a way to safely share supplies without concern of spreading germs.		
4/23/2020 10:20:11	, , , , , , , , , , , , , , , , , , , ,	Lewis and Clark Elementary School	
	I remain incredibly concerned about the spread of covid-19 in this community. To bring our children together in a large gathering of people for 3-4 weeks of school is senseless.		
	We all know that social distancing is the only way to continue to slow the spread in our state. Why would we challenge that at this stage of the game. You will then be asking staff		
	to perform double the work. Staff will be required to educated those students who return with hands on learning as well as those students who remain home due to risk factors	Washington Middle School, Hellgate High	
4/23/2020 10:24:02	or simply parental concern/ dissent. Let's he reasonable. it's 3 weeks of school	School	
	I have three children in the district. I feel like in order to mitigate the spread of the virus in these early stages, the MCPS should keep the schools closed through the end of the		
	school year. Take the time during the summer to come up with a social distancing plan for the fall. Our kids have just started adjusting (and their parents) to this online normal,		
	let's not uproot them again for just one month of school. Also, for high school kids, maybe you could have 1/3 of the school come in for instruction or to meet with their teacher	Paxson Elementary School, Hellgate High

With restaurants and bars opening the same week as schools, there is no buffer to see the affects this change will have. I also have many concerns regarding how social distancing is even plausible in a high school of 1300. If we are keeping 6 feet away in businesses, how can we allow our children to fall in the exception to this risk?  On a different note, I believe students are just starting to feel comfortable and successful with the routine of online learning. In my student's case, the online portion is working and she feels classes are keeping their intended pace. Teachers are going above and beyond, and are excelling at making sure students have the tools they need to continue learning remotely. It is our preference to maintain this style learning through the end of the year.  My daughter is high risk due to her asthma, I am high risk due to my heart condition and my husband is high risk. I do not feel comfortable sending my children back to school at	Hellgate High School	
4/23/2020 10:33:15	My concern is that the risk of students returning May 7th, outweighs the benefit of the remaining 3-4 weeks of schooling. 	My concern stems from having an at risk family member in our home and the logistics of trying to reopen schools at this time. We have not yet seen how the number of		
	infections increases with the slow reopening of businesses where we can actually control social distancing and sanitation. In Missoula, we have classrooms with thirty students.		
	We have high school kids leaving campus for lunch or offsite work study. Enforcing social distancing, cloth masks and proper hand sanitation will be nearly impossible with the		
	current physical locations. Given that online learning has begun and that we are very close to the end of the school year it would be prudent for the schools to remain closed for		
	the remainder of this school year. Waiting until fall to reopen schools allows time to watch any increase of infections as other businesses reopen. It allows our healthcare system		
	to handle any increased number of infections and it allows administrators and staff to plan and prepare for keeping out students safe. I understand that many want our children		
4/23/2020 10:42:15	to benefit from in-person learning, be able to interact with peers or be able to enjoy senior events but it is just not safe for our community to reopen schools at this time.	Willard Alternative High School Program	
	While I have already filled out this form a few times, I wanted to share with MCPS my email to Board Trustees:		
	I am emailing to voice my concerns about school buildings reopening for the remainder of the 2019-2020 school year. It is my personal opinion this is unsafe and unwarranted.		
	We in Missoula have community spread of COVID-19, even with social distancing measures in place. However, these measures are not being practiced by everyone. As a high		
	school teacher, I have paid close attention to people out and about in the community on my few runs to pick up pre-ordered groceries, or to go on a hike and stepping far off the		
	trails to maintain social distancing. While driving, I have observed students all over town, hanging out as they normally do, congregating in groups, and not seeming as if anything		
	is different. If you have driven by the skate park, you can see it is packed as always, everyone in close proximity, and nary a mask to be had. Students simply do not have the		
	background knowledge to understand the seriousness of the COVID-19 pandemic, which puts anyone in a school building with them at serious risk.		
	I teach with colleagues who are over the at-risk age category, who are immunocompromised, who are undergoing chemotherapy, and who have family members in all of these		
	categories. I, personally, fall into an at-risk category, as does one of my young adult children, and I am just one of many who can say something similar.		
	While it may be acceptable to reopen businesses on a reduced capacity level while maintaining strict social distancing guidelines, it will never be possible to do so in any school		
	building. And offering alternate schedules, rotating days, half days? Impossible to manage for any involved. And asking educators to teach in-person and also continue to teach		
	online is unrealistic at best. Educators and paraeducators are bending over backwards to connect with, serve and teach our students, and to ask us to do more than we are		
	currently doing is absolutely unfeasible.		
	Please do not vote to reopen our school buildings. For the safety of our entire community, please vote to maintain online learning for the remainder of the 2019-2020 school year.		
	Sincerely,		
	Sara Hull		
	Special Education, Sentinel HS		
4/23/2020 10:42:44		Sentinel High School	
	As a parent of a Kindergartner, a husband of an 8th grade teacher, and a mental health therapist to six disadvantaged and homeless children aged Kindergarten - 6th grade, all of		
	whom attend/work in 5 different MCPS schools, I do not believe it would be a safe nor wise to reopen schools on May 7. It would put our entire community at greater risk of		
	harm.		
	Families with children with at risk family members would have to choose between putting family members at risk of contracting COVID by attending school, or else falling behind		
		Hawthorne Elementary School, Lewis and	
	their peers academically.	Clark Elementary School, Paxson	
		Elementary School, C.S. Porter Middle	
4/23/2020 10:42:56	Thank you sincerely for all of your hard, thankless work in figuring this out for us over the last several weeks, and for your thoughtful consideration of this complex issue.	School, Washington Middle School	
	My concern is that opening the schools up early will put at risk student and teacher health. I do not see that flattening the curve for two weeks is reason enough to believe we		
		Sentinel High School	
	I am highly concerned about the schools opening again. My son has asthma and the idea of having to send him to school until this virus is totally gone is absolutely terrifying. I		
	think it would be detrimental to his mental health as well, to have so much change in such a short period of time. Let them finish the year at home. Please. His health isn't worth		
4/23/2020 10:49:48	risking	Lowell Elementary School	
	I have a niece who attends Sentinel High School and live in a nieghborhood with kids who attend Lewis and Clark and Washington schools. My concern is that these kids may be		
	COVID-19 vectors who pass on the virus to others in the community. I am an at-risk individual and want the potential to spread the virus minimized. I realize it is a challenge for	Lewis and Clark Elementary School,	
	teachers, parents, and students to conduct school virtually. However, I do think it is possible and that the risk of developing a COVID-19 hot spot is not worth the risk.	Washington Middle School, Sentinel High

	I did not receive the survey about school opening could you resend	Lewis and Clark Elementary School,	
4/23/2020 11:01:10		Lowell Elementary School	
	In order to keep our kids, our teachers and our community safe, I believe our kids/all students should continue learning remotely. Going back for a month of school will not		
	accomplish anything academic but will certainly put all of us and our families at risk. I prioritize safety and feel strongly about going back safely in the fall with strong, thorough,		
4/23/2020 11:01:29	dedicated response plans. Nothing will be accomplished in these last 4 weeks of school except fear and illness.	Lewis and Clark Elementary School	
	I am concerned/questioning whether our school's staff and teachers have adequate time to ensure the safety of our students and those in our community who have contact with		
	them in the next couple of weeks.	Rattlesnake Elementary School	

First, thank you for all that you do for MCPS!	
I believe we are putting the cart before the horse in that the School Board is voting whether or not to go back to school. It seems to me that a feasible plan should be created before deciding to go back to school.	
How are we going to fill subs for the teachers who can't go back or the teachers who get sick? (Yes I do understand unemployment is high right now but don't we want the best	
teachers teaching and it seems unfair to put a teacher in a situation to get sick and lose 10+ sick leave days)	
How do we maintain social distancing in a classroom of 30 at 7 tables?	
How do we maintain social distancing when passing period has 600 students in the halls?	
What about the families that chose not to send their kids to school and still expect online learning?	
	Chief Charlo Elementary School, Meadow
4/23/2020 11:12:54 So many questions regarding logistics that a vote seems superfluous and will only lead to more fear, anxiety, etc.	Hill Middle School
We are very concerned it is too early to re open school. Children are finally settled into their at home remote learning, let's not disrupt all their hard work over the last month	
(by our amazing teachers!, children and all our families) and push the limits and the unknown. As an educator myself, I find it nearly impossible to even consider the idea of	
practicing appropriate social distancing and proper sanitation with that many children in classrooms, even with "new" protocol. It will be devastating to both children and	
teachers to not be able to hug, be close, get back to their normal school routines. It's just too early, and not worth the rush for 24 days of school. We are very anxious and	
eager as parents right now, but nothing has me convinced it's the right time. Thank you for listening to each and every family. We have been put in a very hard place as parents	
and educators by our governor, which is sad and heartbreaking. I do not envy your position to make this enormous decision, and I trust you to make the right call to protect our	
	Rattlesnake Elementary School
No question nor concern at the moment. Just want to let MCPS know that our family is doing fine with our 4th and 6th graders at home. Their teachers have provided consistent,	Rattlesnake Elementary School,
4/23/2020 11:21:36 understandable instruction and our boys enjoy the weekly video chats. We do not feel stressed having them at home.	Washington Middle School
4/23/2020 11:22:10 We don't think it is worth the risk to open school back up this year since the school year is almost over.	Sentinel High School
I don't believe it's prudent to restart school at this point. This process has been very disruptive for my kid's routine and our family in general. Unless school is reinstated without	Chief Charle Flamentam Cabasi
4/23/2020 11:22:17 modified scheduling, as I suspect it would have to be, we should maintain the remote learning already in place for the remainder of this year.	Chief Charlo Elementary School
Not a question or concern. But I have heard a lot of parents wanting to keep their kids home. My daughter is in high school and wants to go back and don't understand how she	
can got to work and not school. Most high schoolers are working and not staying home. So why not keep online learning for elementary and open the high schools.	Big Sky High School
I'm concerned that if the kids are allowed to go back, there is much higher risk of them being exposed and bringing it home to our family. Two people of our family group one	
being myself has a asthma health condition as well as my son, if either one of us gets sick it could be very harmful. Many of the concerned parents are absolutely refusing to send	Franklin Elementary School, C.S. Porter
the kids back regardless of opening or not for the same reasons I'm concerned. Though it is difficult to stay away from others, it has proven to be helpful with the states lowest	Middle School, Willard Alternative High
4/23/2020 11:27:33 cases ner capita	School Program
If the order is to keep numbers between 10-50 how can we possibly have schools reopen if classrooms are 20+? What about the health and safety of teachers? Teachers with	
their own children? Students with parents/grandparents that have health concerns. How is opening schools back up for a month going to keep everyone safe?	Jeannette Rankin Elementary School,
4/23/2020 11:30:03	Meadow Hill Middle School
I'm writing as a teacher and a parent. As much as I want to return to my classroom and have my son return to his friends and teacher and finish his school year on a positive note,	
I feel that there is too much unknown. Does a child really want to return to a school where they and their classmates and teacher have to wear masks. Where they can't go to	
recess, eat lunch with their friends, where they are contained in their classroom and constantly been asked to wash hands and sanitize. Doesn't sound like a positive learning	
environment to me, sounds scary for the younger students. Also, what if a teacher is sick, how do we find a sub, when there already is a shortage in the district. The list goes	
on As much as I would love to return to some kind of normal I feel like it is not feasible at this time.	
4/23/2020 11:33:01  The second William has a series in COVID 10 cases with the second control of the second co	Chief Charlo Elementary School
There will likely be a raise in COVID-19 cases, with the re-opening of bars, restaurants, etc. I DO NOT think schools should open again until the fall. And I don't know how it's	Soolov Swan High School
4/23/2020 11:34:02 possible to enforce social distancing in younger children.	Seeley Swan High School Hellgate High School
4/23/2020 11:36:23 How are you planning to estimate number of staff in the 'vulnerable' category to see if re-opening is even feasible from a staffing standpoint?  4/23/2020 11:37:26 I did not receive the survey that was reportedly sent the evening of 4/22	Lowell Elementary School
I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is true	Lowell Elementary School

4/23/2020 12:15:53	We live in the Hawthorne School District, although my son is in pre-school. His school, however, does follow MCPS schedule and guidelines. I find it an issue of public, physical, and even mental health to resume the school year for the 3 weeks remaining. I would love to see MCPS reinvigorate summer programs down the line, as to help kids and their families have access to quality education.	Hawthorne Elementary School
4/23/2020 12:21:26	I don't have kids but I do not support re-opening schools this semester. Pls wait til fall.	Franklin Elementary School
., 25, 2525 12:21:20	I have three children in the public school system here in Missoula; 3rd, 9th, and 12th. I also work as a Family Advocate, social worker, here in Missoula at Head Start. There are a	
	number of concerns opening up schools in Missoula on May 7. The first concern is that it is not developmentally appropriate to have children and teens come back to school for one month. This is going to cause unneeded stress and anxiety. In addition personally speaking my children have developed a new routine for remote learning and we are into	
	that routine. Second concern would be the safe reopening of schools to the point that the governor has noted. For example, social distancing, masks, keeping everyone safe. Not only school staff, but also families with health concerns within the home. Finally my opinion would be to put resources and energy into a safe reopening for the Fall of 2020. Have	Lewis and Clark Elementary School,
4/23/2020 12:21:53	Ichildren and tamilies continue with online/remote learning. The tunding is there to continue with remote learning.	Sentinel High School
., 20, 2020 22:22:00	Please do not reopen schools for the remainder of this year. The risks far outweigh the benefits of coming back for such a minimal amount of time. It is challenging to have children home, especially for working parents, but the death of a child, a teacher, an administrator, a grandparent is just not worth it. We simply are not ready, without a	
4/23/2020 12:23:13	vaccine, or without the possibility of another surge of COVID cases, to have one of our most vulnerable populations (our children) at risk.	Paxson Elementary School
	I am concerned with teachers and students health & safety if teachers and students go back to school after May 7th. I vote NO to sending kids back to school and YES with	· ·
4/23/2020 12:29:07	continuing remote learning until social distancing state wide is not recommended.	Paxson Elementary School
	Dear MCPS Trustees and covid-19 Response Team Members:	
	Thank you so much for consideration of the following bullet points (for conciseness) regarding MCPS and decisions you personally are charged with making in the coming days pertaining to the current pandemic. As	
	Governor Bullock has given opening/closure directives to local control these decisions will effect the very lives of people who you have been elected or employed to serve. I believe you are about to make your most important decisions as a member of the MCPS Board of Trustees or covid-19 Response Team Member. There is absolutely nothing trivial about what you have to do. With that preface I ask you to consider the following:	
	1. The health and well being of students, staff, administrators, substitute teachers, bus drivers, affiliated business partners and all their relatives and friends (essentially everyone) in our community aught to be the very first	
	consideration with regard to any decision-making process. These decisions need to be the right ones - they are not ambiguous. I believe they need to be right the first time they are made. They also need to take	
	precedence over any academic concerns.	
	2. Any decisions made that further Coronavirus transmission in any incremental manner will ultimately deal illness and death to members of our community who would otherwise be living their lives. THESE WOULD BE THE WRONG DECISIONS TO MAKE. I believe you have the morality, compassion & intelligence to understand why or you wouldn't have been elected as a trustee.	
	3. Data-driven scientific/medical evidence with respect to #1 above should be the second consideration regarding open/closure status. Decisions taken without such information are also the wrong ones.	
	4. One very important datapoint is the fact that we are just in the beginning of this pandemic. Another datapoint is that a vaccine is 12-18 months away. Relevant historical precedents point out a 3rd datapoint - the worst	
	of this pandemic will be coming in the future as a second wave - most likely in the fall. The reasons for this should be truly considered. Some of them include: 1. There is no cure to this ever-mutating virus. 2. Fully 70% of Missoula County as of this writing, does not even some pear a single percentage point if we consider those who	
	Missoula's citizens must be immune to the virus for it to die off (that number is based on scientific evidence). Missoula County, as of this writing, does not even come near a single percentage point if we consider those who have survived a coved-19 infection in our midst. 3. Citizens become tired of the restrictions placed on their lives as well as complacent with the likelihood of the virus slowing infection rate in the summer months - and we	
	relax our social distance behaviors and other protocols. 4. This behavior pattern continues into the fall until we collectively again become aware of increasing infection rates and THEN act accordingly. 5. The second wave	
	environment begins with complacency and perhaps ill-placed over-confidence coupled with a dose of denial. 6. The virus does not care about any of this - only its replication. It only needs groups of people to do this. So	
	the second wave is coming regardless of the beliefs of any of us as individuals. 5. The logistics of actually creating a safe face-to face learning environment this spring for all of the individuals mentioned in my opening point	
	seem to have absolutely no basis in reality. Many of the logistics are patently insurmountable: 1. Can MCPS clean bathrooms, halls, desks, handrails, tables, bus seats lunch dishes and silverware - the air - as well as any number of other surfaces (walls?) multiple times per day - and provide masks for all who work and learn within MCPS? 2. Can MCPS keep every elementary and middle school student from touching their face while on site	
	campus for 7 hours per day? 3. Can MCPS create social distancing in buses, classrooms, hallways, gym classes, music and other academic classes? Will the air still be virus free? 4. Can the school nurse (if one is available) be	
	expected to determine if individuals are infected (please consider now that some infected individuals will not display symptoms and will not know that they are infected). Moreover will this nurse be expected to determine the infection demographics of his or her school so that ample warning can occur if there is a surge in infections on campus? Are MCPS medical personnel even equipped materially and otherwise to deal with this kind of	
	activity and process through their normal day-to-day activities. 5. Can MCPS educators be expected to lift their heroically-created content off of its current online format and reassemble altered face-to face learning	
	environments that actually meet their curricular goals while addressing these sub-points? And what happens if a teacher becomes ill with covid_19? What are the quarantine issues involved with anyone on campus	
	becoming infected? 6. Can any of the people I mention in my first point be expected to place their lives or the lives of their loved ones at risk by participating in the reopening of our schools? 7. What does MCPS consider to	
	be the protocol for parents who choose to keep their children away from an opened school because of safety concerns. 8. I could go on - but I think you see the point.	
	6. Are MCPS resources and time better spent on developing plans that meet requirements for the next wave of this virus in the fall? I think there are very good reasons to continue remote learning and no reasons at all to open MCPS schools at this time. This would allow our educators to more fully develop their capability to deliver content by finishing this remote process - thereby fine-tuning effective learning strategies and protocols - and	
	having them available in a future emergency in a very real sense. We would consequently create a more flexible environment for dealing with the 2nd wave of covid-19. We would also be in a better position in the interim	
	to adequately demand and receive the testing capability that is absolutely required by our community to make truly informed decisions about closure/open status of MCPS Schools. LASTLY, None of this reduces the harsh	
	and stressful economic impact produced by the virus on the lives of so many people in our community. Though I submit that it is infinitely better than having to create mass graves for at least 3400 Missoulians who would	
	otherwise not be among us as a result of doing nothing (Covid-19 statistically results in 3.4% death rate - Missoula County = c.100,000 people). Montana has been deliberatively successful in denying the virus' success for	
	very specific reasons because our measures took effect very early in the infection cycle. Had this not occurred we would be in a much worse position with many more deaths and an overwhelmed hospital system - as well as an even harcher economic impact, all of which we see now in other regions were there was delay/depial in operation. Understand what I	
	as an even harsher economic impact - all of which we see now in other regions were there was delay/denial in operation. I reiterate that I believe you are moral, compassionate and intelligent enough to understand what I have presented here and I thank you for the hard decisions you must make. MAKE THE RIGHT ONE RIGHT NOW - KEEP OUR SCHOOLS CLOSED UNTIL WE ARE EQUIPPED TO DEAL PROPERLY WITH THIS PANDEMIC - WE ARE	
4/00/0000 10 00 ==	NOT THERE YET. Again, thank you so much for taking the time to read my letter. I sincerely appreciate all the unplanned-for extra effort that you must be experiencing on behalf of all of the people of Missoula during this	
4/23/2020 12:30:07	ltime.	Sentinel High School

Governor Bullock has made the			
	responsible decision to reopen MT without proper testing, personal protective equipment, or ventilator/ICU capacity. I urge MCPS not to follow the Governor's dangerous lead and continue		
to keep schools closed for the re	·		
_	this community for more than a decade. I am also currently a law student here at UM School of Law. I am not an epidemiologist, but I am educated. I am troubled by the responses I have		
	ce. Please be advised of the following: MT's population is approximately 1.069 mil -There have been roughly 11,000 COVID-19 tests performed in the state (that's about 1% of our		
population), and of those, rough	rask nave tested positive.  enario as it relates to reopening that I would ask you to consider in your decision to reopen schools: 1) Testing criteria have only been broadened for a little over a week. Still, not enough		
	easons, not the least of which is continued lack of tests. I was informed by the Governor's office this morning that the State has received 5,000 additional tests. Does that sound like enough		
•	makes a deadly mistake to reopen the state without adequate testing. Do not follow his lead. 2) Missoula City-County Health Department Director of Pandemic Response, Cindy Farr,		
	ernor did not consult with her office, nor inform her office of his decision, prior to his press conference announcing his new orders. This begs the following questions: a) On what basis did he		
	Missoula City-County Health Department (MCCHD) has 2 business days in which to make a determination about the restrictions that should remain in place in our county to save lives and		
· · · · · · · · · · · · · · · · · · ·	ers and other first responders AND distribute that information to the public? It is grossly negligent for the Governor to make such a decision without vital information from our county		
health departments in the state	and to place them in a position to make a quick decision. He is risking the lives of Montanans. MCPS should not follow the Governor's lead. Further, Cindy Farr indicated that there is "no		
clear picture of how many cases	we have in Missoula because of the lack of testing supplies." Ms. Farr is quoted as having made this statement on 04/22/2020. I understand that the superintendent is working with Ms. Farr		
and the MCCHD, but I urge MCP	to keep schools closed for the remainder of the school year, out of an abundance of caution. We, as citizens, owe a duty to our most vulnerable populations. You also have an additional		
	who attend public schools in Missoula County. Even with strict guidelines and improved cleaning and hygiene practices, we all know that these guidelines are 1) unenforceable because		
_	t MCCHD, much less enough to complete inspections and 2) the guidelines cannot be uniformly or precisely applied. You cannot ensure the safety our children with reasonable certainty.		
	closed throughout the remainder of the school year.		
·	sonal protective equipment (PPE). The Governor's office reports that they have just secured an additional 244,200 N95 masks and 110,000 surgical masks. That's great. However, it still falls		
· · · · · · · · · · · · · · · · · · ·	ools to even consider reopening, masks must be provided to students. There are approximately 140,000 students who attend public school in the state, and close to 14,000 students served ough masks to meet the needs of our healthcare workers and other first responders, much less supply the students, faculty, and staff of our schools. Reusing masks is not an option and		
	ctive in filtering droplets. If you plan to reopen schools, it will place our children and our community in grave danger. For schools to adequately enforce social distancing guidelines, students		
	apart, not 6 feet apart. Prolonged exposure to an infected person, as would happen during class, requires a greater distance, as droplets travel 27 feet. Unless you are planning to hold		
	opening is not a viable or safe option. I urge MCPS to rely on science and keep schools closed throughout the remainder of the school year. Allowing high-risk students or students with high-		
	by remote instruction does little to mitigate the spread of COVID-19 in our community. MCPS should abandon this as an option and keep schools closed throughout the remainder of the		
* **********************************	that Missoula's nurses are already working mandatory overtime with limited supplies. There are limited ICU beds in Missoula. Limited ventilators. Limited PPE. Limited tests. I understand		
	students and that you have an obligation to instruct our children to the best of your ability. I concede that remote instruction is far inferior to in-person instruction. However, it is		
irresponsible to expose our child	en and our community to a deadly virus when the solution is simple and already in place: Keep schools closed throughout the remainder of the school year. Change nothing. Hold steady.		
We cannot afford an increase in	ases. Some people's lives depend on it, including some children who attend public school in Missoula County. Rely on science, not on the Governor's politically-motivated removal of		
precautions in our state. Finally,	emember that you hold elected positions.		
Keep our schools closed!			
4/23/2020 12:37:22		Big Sky High School	
I have strong concerns ab	ut my daughter that has a global disability and genetic disorder. She has a weakened immune system and is not cognitively aware of self-help skills to		
stay safe. I am also conce	ned about the size of the schools and how my high school and middle school daughters will be able to be in such close contact with 500-1500 students	Meadow Hill Middle School, Hellgate	
4/23/2020 12:40:58 daily. I would prefer to re	nain closed for this school year with planning for the next school year to take precedence.	High School	
I was wondering why the	articular date of may 7th was chosen for the reopening of the school? This is 3 days after the deadline for the track season to start up. Was this a		
financial decision? Under	ederal guidelines schools could have opened last week.		
This desiries has for great	w impact an aux students then the cabool elective over some class to Ctudents continued to train for their final change to get Cabolarchine and break		
_	er impact on our students then the school closure even came close to. Students continued to train for their final chance to get Scholarships and break		
	ed for hours when he found out that track had been completely canceled. He has gone into a deep depression. He wants to quit school all together		
4/23/2020 12:49:37 because there is he sees t	ere is no longer a point for him to so do it. What makes it worse is they know that the school could have been opened and track could have happened.	Seeley Swan High School

	It doesn't seem to make much sense to open schools back up for the rest of this school year, since it is almost over anyway. I think it would just cause more problems and we	
4/23/2020 13:00:0	should just continue to finish out the school year online.	Hellgate High School
	Returning the kids to school and opening up the public prematurely may be risky (I'm thinking Spanish Flu era). At this point, I feel that returning the kids for 2 weeks is	
	unnecessary and we should continue with Remote Learning for the duration of the year. I have the resources at home to continue. I do understand that this is stressful and	
	families have financial concerns as well. I think the option to continue Remote Learning for the remainder of the school year should be considered.	
4/23/2020 13:02:3		Chief Charlo Elementary School
	As of today, April 23rd we have 442 confirmed cases of Coronavirus in Montana, 306 recovered and 38 cases in Missoula County. We are not New York, we all choose to live in	
	Montana for a reason. Our population base is vastly different from urban areas in the US. We simply do not have the numbers to warrant an extended school closure. Please	
	open school back up and allow our children to return to some sort of normalcy with safety measures put into place that are realistic.	
	One potential solution (compromise) would be to run half day school, where half the kids attend in the morning and half in the afternoon (Last names beginning A-M in the AM N	-
	Z in the PM). This would increase bus traffic and logistical management. No in-cafeteria lunch service. Continue the meal protocol that is in place currently with drop off or	
	sack breakfasts/lunches. You could even take it further by suspending all specials and have the kids access these activities remotely (music, PE & library). We need to get the	
	kids back into their core classes face to face with their teachers. Please listen to ALL voices in this debate and work to find a middle ground.	Paxson Elementary School, Washington
4/23/2020 13:03:0		Middle School
, ,, ,, ,, ,, ,, ,, ,, ,, ,, ,, ,, ,, ,	I am highly concerned about sending our kids back to school. We do not know enough about this virus. We do not know why some people show little or no symptoms.	
	Our kids are in a routine that has taken weeks to step into and albeit a bit discombobulated, it is working in some ways while keeping people at safe distances. As we do not have	
	all the info on this virus, choosing to send the kids back is choosing to have an experiment with people's lives.	
	Do not choose to put our children and families at risk by sending them back into a setting that is impossible to keep them socially distanced. Not to mention the incredible	
	amount of stress that will occur due to another change in learning.	
	anio anio anio anio anio anio anio anio	
	Our family has one child in the home that is high risk. We have 3 grandparents in the community that are high risk, not to mention the number of friends in our community in the	
	same category. This is not something our family is taking lightly and hope you will choose to keep our kids out of a school building for the remainder of this school year.	
	Same category. This is not something our family is taking lightly and hope you will choose to keep our kids out or a sensor ballating for the remainder or this sensor year.

Going back to school would be incredibly irresponsible and would nullify the progress that Missoula has worked for since late March. The financial, economic, and social impacts of the stay at home order could be all for nothing by a single student with Covid-19 roaming the halls at class change. Social distancing is not a remote possibility in schools. I do not disagree with the Governors directive to leave decisions up to individual districts, as there are many places and school districts in Montana with no confirmed Covid-19 cases. Missoula is not one of those places. If the Board of Trustees decides that schools re-open in any capacity, and there are Covid-19 cases that are related to students or staff; the Roard of Trustees has culpability for uppacessary spreading this virus.  I have concerns about the health and safety of implementing a system that sends kids back to school on a volunteer basis. I worry that this puts everyone's health at risk, not to	Hill Middle School, Sentinel High School  Lewis and Clark Elementary School
4/23/2020 13:22:14	How will school board ensure my son will not be exposed to Corona Virus in the school?  Will protective equipment be given to him or will the district reimburse us for providing our own?  What precautions are going to be in place to reduce chances of exposure?  What will happen if a student does test positive?  Will the schools only close again if notitive cases increase in Missoula?  Going back to school would be incredibly irresponsible and would nullify the progress that Missoula has worked for since late March. The financial, economic, and social impacts of the stay at home order could be all for nothing by a single student with Covid-19 roaming the halls at class change. 	I have big concerns if schools are reopened after May 7th for the remainder of this school year as I am very concerned over the ability of schools to help ensure there is true social distancing during the school day.	
	Even with the best of efforts I don't believe it is possible and there is so much still unknown on what will help really ensure safety and health of our children and the teachers and staff (as well as all of their families, etc) if school went back in session before we know even more.	
	Although our numbers have been low in the Missoula area we have been on a stay at home mode for weeks which I believe has kept our positive covid 19 numbers and the curve low.	
	Taking such a big potential risk of an outbreak of covid 19 for what amounts to just a handful of weeks left of school when there is so much unknown and so much to potentially lose is a bad decision.	
4/23/2020 13:32:40	The schools and teachers have worked hard on the online schooling that is being done and seems to be effective. I believe as does my family that online school needs to continue until the end of the school year.	Paxson Elementary School, Washington Middle School

	This family is hopeful that Missoula district schools will open after May 7 as our kids need quality learning, engagement, inspiration, structure and a feeling of progress to grow and to thrive. It has been pretty rough last few weeks, as online teaching by public schools has been so minimal. Montana was right to be aggressive at social isolation early on,	
	thanks to which we have such low and manageable Covid-19 cases. Now it's time to finish the school year on a hopeful note and let the kids feel some sense of normalcy before	
4/23/2020 13:33:58	summer begins. Such a great chance, take it! At the same time, provide for alternative online learning and tutoring pathways for those who are at higher risk for infection.	Washington Middle School

4/23/2020 13:34:07	and the end of the school year.	Paxson Elementary School, Washington Middle School
	I would just like to share my concern about restarting school. As much as I want my children to go back to Paxson this Spring, I think restarting schools would be throwing away all of the hard work & sacrifice our city has gone through to prevent the spread of COVID-19. Why not wait until the Fall? Let scientists & public health experts take the summer to better understand how it's transmitted, acquire more & better testing capabilities, and then devise a strategic plan for reopening the schools in the Fall. Because children are the least vulnerable to the disease makes it even scarier as then can be unknown carriers throughout our entire city, state, etc We already know how devastating this disease is. Let's not throw it away for just a few weeks of school while we still don't understand the disease.	
	Perhaps you could start some type of an emergency child care in the schools with teachers who are willing to volunteer, for essential services workers or for other children who are in need, but not actually "officially" restart school.	
	I appreciate how hard this decision is and also understand there are so many competing factors, but I urge you to be conservative in your decision given how little we know of this disease and that we really wouldn't gain much education out of it.

	I do not support a spring return for our students. It is not prudent, nor is thar choice supported by what we currently understand about this virus. As a clinical therapist, I am		
4/23/2020 14:28:03		Sentinel High School	
	I do not think it is prudent to open the schools with six weeks remaining in the school year. The first week back will be chaos for the kids and teachers, and the last week or two		
	of school is just silliness, movies, and yearbooks. It hardly seems worth putting hundreds of families at risk of contracting COVID-19 for three to four weeks of instruction time.		
	Perhaps a compromise, homerooms/classrooms have separate meeting times (or days) for students to go to the school and collect their belongings/supplies, sign yearbooks, and		
. /	say nello and goodbye to their teachers. Thank you for your consideration. I do not need a response, but I added my email below in the event you dlike to contact me.	Rattlesnake Elementary School,	
4/23/2020 14:33:35		Washington Middle School	
	I guess a realistic secondary crisis to all of the COVID is that fact that the kids are at home and regardless how good we try as parents, the structure is not the same and for this I		
	would love school to start again. However, a much higher priority is the safety at this point. factoring in the common good of all that it seems that to return to school now, would		
	require so much work around vulnerable students as well as their family members and effective social distancing that it would be far more of a burden than a benefit to go back	Jeannette Rankin Elementary School, C.S.	
4/23/2020 14:34:56	for a couple weeks. If this was familiarly a totally different story, but it will be May 8th. I wouldn't expect you to go through all the effort for a few weeks. Also, the fact that the	Porter Middle School	
4/23/2020 14.34.30	state funding will still be available if you do not return—give yourselves a break. I don't think it's appropriate to send kids back to school after May 7th. They may not get sick but could contribute to other people getting very sick especially older or immune	Porter Middle School	
		Rattlesnake Elementary School,	
4/23/2020 14:37:36	compromised people working in the school system. Without contact tracing and robust testing it seems like a not brainer that kids should not be in school. I will probably choose	Washington Middle School	
., 20, 2020 14.57.50	to keep my children nome. The schools are NOT equipped to function with the current level of sanitation and physical distancing that is required. I feel like it would take weeks to get kids up to speed on		
		Washington Middle School, Hellgate High	
	hew policies and procedures and then schools out. The momentum that we ve many same at home with remote rearning would be upended again and we a start an over.	School	
	If classroom instruction is re-commenced, please include in your plan the option for students to continue home-instruction for the rest of the school year without penalty.		
	Recognize that families/guardians may not agree with re-opening schools so soon during a pandemic, and do not wish to risk infecting MCPS fine teachers & staff, nor		
4/23/2020 14:39:47	themselves.	Hellgate High School	
	I respect whatever decision is made by our school board and know that it will be based on sound public health information. I just wanted to submit that I think the stress and		
	mental health of our families would greatly improve if schools re-opened. Parents who are working full-time with elementary age kiddos at home are not thriving under the		
	school closures. It's so hard to get a second grader to stay attentive to the remote learning plans, especially when her full time working parents have very limited time to oversee		
	the lessons and are on zoom conference calls for most of the day with coworkers. Either we need to lower expectations for remote learning if other business in the county is		
4/22/2020 44 42 47	opened back up or we need to let our kids get back to business too, with masks and other precautions. Opening everything BUT schools will make it even harder on working	Lauria and Clark Flores extra C. L. L.

	As much as I'd like us all to get back to school, I do not think it is right to return under the current circumstances. There are so many layers to this issue. Most importantly, the	Sentiner riigh School
	safety of students and staff. Here are some specific concerns and points:	
	• do not see a way in which we can social distance/keep gatherings under 10 in enclosed classrooms with 20-30 students.	
	•Edo not see how we can properly disinfect schools with 500+ students, especially the schools with our youngest students who cannot comprehend or follow through with safe	
	social distancing, keeping hands off faces and others, and wearing masks for hours at a time.	
	• ■ ow will we cover the many staff members who cannot return due to age or underlying health conditions?	
	• Bow will we teach the many kids who cannot or will not come back due to heath issues or concern for safety?	
	• My students have finally found a groove in online learning. Asking us to change course again, with only a few weeks left, does not seem worth it. It will be another adjustment,	
	for both students and staff, that many will not be comfortable with.	
	- Furthermore, the number of cases continue to be reported in Missoula County.	
	I just don't see the benefit of in-person instruction outweighing the risk both physically and mentally. Therefore I think we should continue online learning, for the remainder of	
	school year.	
4/23/2020 15:08:36		Jeannette Rankin Elementary School
	If schools to reopen, our family will not be able to send our children back to school due to the risk of exposing our high-risk family members that live in the home. Our students	
4/23/2020 15:10:52	will not be returning until the fall.	Chief Charlo Elementary School
	non-symptomatic spread is still highly probable. has every school been disinfected? do you have the funding to keep disinfecting? If you require masks and gloves, will those	
4/23/2020 15:11:58	items be provided to those without? who is teaching the homeless?	Russell Elementary School
4/23/2020 15:37:30	Please do not open schools until fall.	Lewis and Clark Elementary School
	My concern is that in a rush to reopen we will have Covid spread through our schools like wildfire. Young people are full of energy and do strange things. No matter what rules or	
	guidelines are in place you and I both know they will be broken. One other question, should the decision be made to reopen the schools does the district have enough money to	
	cover the litigation that will occur, when a student or their whole family becomes mortally sick, from such a poor decision?	
4/23/2020 15:45:12		Sentinel High School
	(I am consulting the white house reopening guidelines throughout.) As part of phased reopening, stage one is achieving a 14 day period with several different downward	
	trajectories. I have not seen demonstrative evidence that Missoula County has achieved all different types of downward trajectory required to begin phase one of reopening.	
	Irregardless, schools are to remain closed leading up to the beginning of phase one and for a minimum of 14 days after. Reopening schools on May 8 would be very unwise,	
	given these guidelines.	
	A further consideration is the use of cloth masks mentioned in the MCPS email. Do enough child sized masks exist for every student? Are they made of the appropriate materials	
	and do they include filters that would make them effective in preventing viral transmission? How will they be frequently laundered/sanitized in a consistent manner across	
	households? Do you really think that elementary age students will be able to wear masks continuously and appropriately throughout the school day? My son is in second grade;	
	the size of his classroom does not remotely come close to allowing proper social distancing. They don't even have room to store their belongings (coats, backpacks) in their	
	room!	
	As a baseling move of the inclusion as with the investigation of the object of the obj	
	As a teacher myself, it is almost impossible to imagine a way to have a functional school day that also adequately protects the entire school/staff population as well as the greater	
	community. Will there be exceptions made for families that are not comfortable (for whatever reason) returning to school? Or penalties should families not return once school	
	reopens? Our knowledge of this virus and its spread changes from day to day. It seems premature to back off of current social distancing measures. I believe that the risks of	
	reopening outweigh the benefits and that MCPS should follow the wise course of the many other states and localities that have chosen to remain closed for the rest of this school	
	year.	
4/23/2020 15:46:18		Franklin Elementary School

When I asked my son, a senior, what he would like to say to the Board as they make their decision. He said, "Please put the health and safety of your staff and students first." He	
and his teachers have adapted to on-line learning, and he can finish the school year from home. He is not interested in putting himself, his teachers, his grandparents or his	
community at risk - not for classroom learning, not for graduation. The risk is unnecessary. There is no way to ensure student and staff safety. Testing for fevers is not a sufficient	
safeguard. A student may transmit Co-VID without showing notable symptoms. In addition, without regular and widespread testing, we may not know the community health	
outcome of resuming school until it is too late for too many. Teachers will be challenged to teach and to monitor risks simultaneously. Students who are conscientious will be	
similarly challenged. What rights will either have if other students disregard protocols? I think this is an opportunity for the district to focus on students who are most at risk and	
have struggled with on-line access and learning. The current system is safest and is working well for my family.	
4/22/2020 45.40.44	Hallanta Illah Cahard
4/23/2020 15:49:41	Hellgate High School
I'm concerned that there seems to be a push to reopen everything in Montana, including the schools. Based on everything we have learned about Covid 19 and the fact that so	Washington Middle School, Hellgate High
little testing is occurring and we have no idea how many people may be non-symptomatic and spreading it around our community, it seems crazy to send our kids back to the	
4/23/2020 15:53:03 petri-dish of school. Let's be safe and responsible and finish out the school year at home.	School, Seeley Swan High School
We are not in favor of the kids, teachers and staff to go back to traditional school for the rest of this year. It does not make sense to put any of them at risk, to make the teachers	
change their lesson plans again, to change to a 6' spacing (which will be impossible to do!) and to think that our children will be able to have a happy learning environment for	
the last 4 weeks. Our high schoolers in our house are afraid to go back. They know that the kids will not physically distance themselves or wear masks. Our elementary child	
wants to be with his friends so bad- but even he said "How do I ride the bus and not be next to anyone? How do we have lunch and recess?" Please vote to stick with online	
learning for the rest of this school year. If you vote to have school in session in person, I do not believe we will be sending our children to school. We do not see the risk/reward	
in anyone's favor.	
	Jeannette Rankin Elementary School,

4/23/2020 16:17:58 I think it would be very difficult for kindergarten and 1st graders to keep their distance and not share germs.	High School
4/23/2020 16:21:01 Keep schools closed until September.	Jeannette Rankin Elementary School
If the kids don't go back to school, would you consider cancelling the rest of the school year? Remote learning isn't effective for elementary school lets be honest. Seems like an	,
4/23/2020 16:23:09 added stressor to families! Let the kids ,off if the community is too fearful. Thanks	Russell Elementary School
With Montana's active number of covid 19 cases declining, thanks to the hard work and sacrifice of those of us in the state, should we risk bringing students together at this time	
when we are so close to summer break? Schools are a place that unfortunately creates a way for a disease such as this to go from one group that has isolated itself away to	
another group that is in isolation. Students and teachers both have adjusted to the online model over the past few weeks and it seems reasonable to just continue that till the	
end of the school year as we ride out this wave of the virus.	
4/23/2020 16:25:58	Big Sky High School, Hellgate High School
I am an at-risk parent and have serious concerns that the thought of reopening school is even on the table for discussion. It is too early to open anything in my opinion, especially	
schools, where social distancing and other requirements such as sanitation will be virtually impossible to attain. Teachers that I know are scared, some students, including mine,	
don't want to return at this point with the constant fear of bringing the virus home. Kids have enough stress to worry about without adding that burden this late in the school	
year. We are still adding cases in Missoula, and have had very few days with no additional cases, so again, I don't support opening school. Eventually, yes, of course, but now is	
not the time.	
4/23/2020 16:50:40	Sentinel High School
I have not received any survey to complete for my household. Can I get this sent out	Chief Charlo Elementary School, Meadow
4/23/2020 16:51:10	Hill Middle School
I believe the closure should be extended though the school year. I also believe that the work the kids are doing need to be ramped up and kept on curriculum schedule as much	
as possible so kids can complete their year being prepared for next year. At least make the content available to those kids who want it or are able to do it. Giving them 2	
assignments a day and doing only "social meets" with the class is becoming a waste of educational time and effort. I recognize the need for social interaction but I think most	
kids are getting that in their neighborhoods or online with friends. I understand that public education needs to be accessible for all but that should mean that the content is	
withheld from all. Maybe it just doesn't need to be mandatory?	
4/23/2020 16:59:27	Rattlesnake Elementary School
My daughter and grandchildren go to Chief Charlo Elementary School. I feel schools should remain closed for the rest of the year. You do not need to put teachers and children	
at risk and you would be because there is no way you can keep these students 6 feet apart and have them all wear masks. This is still a pandemic and you would be putting	
1000's of students and teachers at risk. Not only that you would be possibly infecting parents, grandparents, siblings, and babysitters. You only have a few weeks left of school	
and the children are being schooled through the internet. There is no reason to jeopardize the health of all these people. If you can't sit at a bar and no more than 6 at a table	
being 6 feet apart, at a restaurant, how are you going to keep 20-30 children in a classroom 6 feet apart. Keep your schools closed. Thank you! A concern grandparent	
being o leet apart, at a restaurant, now are you going to keep 20-30 children in a classiconi o leet apart. Keep your schools closed. Thank you: A concern granuparent

4/23/2020 17:04:20	Chief Charlo Elementary School

	I am a healthcare worker. How are we going to keep the kids at school from becoming sick and then passing it to the healthcare workers plus other people in the community.	
	Why risk overwhelming the healthcare system and compromised people's lives when they only have 4 weeks of school left? At this point everyone is just getting settled into a	
4/23/2020 17:04:52	routine and to go back to school would take time to acclimate back to that routine. Just doesn't make sense	Hellgate High School
	Though I am the mother of a senior, I don't think schools should re-open. Please consider continuing the current online learning environment for the duration of this school year.	
4/23/2020 17:10:56		Big Sky High School
	I did not receive the survey and am very concerned about school reopening. Please send me the survey so I can participate in the local decision making. Thank you	Rattlesnake Elementary School,
4/23/2020 17:14:37		Washington Middle School
	It is not worth the risk to reopen just for 24 days. How could you possible come up with a way to 100% ensure the safety of our students and staff especially small children. It	
	would be more traumatic to go back and have to have them wear masks and put the stress on the teachers to keep them a safe distance apart and try to keep the facilities clean.	
	If just one person unknowingly has it and walks into a school it will spread like wild fire. The trauma of our kids losing a friend, teacher, parent, or any relative is way more severe	
	then not getting to hang out with their friends for a little longer. My spouse has asthma and has to use an inhaler daily my parents are in the high risk category. Not to	
	mention as this disease goes on it is showing that it is affecting everybody healthy or weakened immune systems. I really hope you make the right decision and keep MCPS	
	closed to protect your wonderful MCPS staff, students, families, and community.	
	siosed to protest your wondernarmers standy stadents, rammes, and community.	
4/23/2020 17:16:17		Chief Charlo Elementary School
	I am concerned about having my son go back to school this Spring. My step daughter is immune compromised, and I don't know how we could possibly keep him from bringing	, and the second
	the virus into the house if he is back in school with all the other children. If you go back to in class learning this Spring, please plan for a way for them to take classes from home.	
4/23/2020 17:22:56		Sentinel High School
, ,	I have concerns regarding schools reopening too soon. Myself, my husband, and my oldest daughter all work for the school district and my younger daughter attends high school	
	in the MCPS district. We also have an older family member who lives with us who has 'at risk' health. Please err on the side of caution as you consider reopening schools as we	
	have seen places (such as China etc) who have reopened and have experienced a resurgence of Covid-19 and, once again, had to pull back and lock down.	
	Thave seen places (such as china etc) who have reopened and have experienced a resulgence of covid-15 and, office again, flad to pull back and lock down.	
	An about 1 in the control of the con	
	Another concern is how how do we keep one student per seat on a bus? Will there still be time to teach and learn with the increased time it will take for students to arrive?	
	How do we sanitize sanitize gyms, libraries, and playgrounds? We will need more manpower and man hours to accomplish those tasks.	
	If students and staff should wear face coverings where are these supplies coming from? Will they be disposable one use or will they need to be laundered?	
	How do we avoid mixing students in High school classes where students have 4 classes per day and rotate every other day and an open campus for lunch?	
	How do we work social distancing into any of our schools/classrooms with a cap on gatherings of 10?	
	Thank you for having the best interests of our children at heart.	
	Thank you for having the best interests of our children at heart.

I want normalcy as much as everyone else does at this point, but protecting the vulnerable is much more important. I feel like the board should also consult the health department regarding their decision if they have not already done this. Social distancing is not possible in an elementary school setting, and it is just so risky to reopen.  I'm really worried about the schools opening up any time before the end of the school year. I will not be sending my children back to school before fall, there is way too high a risk, even if the schools reopen. A school is an absolute cesspool of bacteria during any time of the year, it is the absolute worst, most unsafe to put children during a deadly nandemic.  I'm worried that having so many people together coming from different homes will cause a spike in the virus. Though kids are less susceptible to the virus, they can be carriers and this help it spread from home to home. There are only a few weeks left of the semester, let the kids stay home and keep everyone safer. This also allows for truer quarantine for those that are still wanting to do so.  I think school needs to remain closed. However maybe in June there can be an open house day where people come for their belonging and say good bye to their teacher / friends. Also, in August can there be a day to allow graduating 5th graders to check out Washington middle school so they know where to go and what to do on the first day of school?!?!  My daughter has asthma and I won't be letting her come to finish this year out even if you do open back up. Not to mention how difficult for teachers and nearly impossible to keep garms at hav.  Do automatic sinks (with hot water), soap dispensers, and paper towel dispensers exist at the schools? I am concerned that the school board is thinking of reopening schools this year. I do not believe it is safe for our children. How will you maintain social distancing? What about	Duccell Flomenton, School Meadow Hill
individuals who refuse to wear a mask? Before covid 19 my kids frequently mentioned how sick kids are always at school. I think reopening our schools would be a poor decision.	Russell Elementary School, Meadow Hill
4/23/2020 17:56:50   believe we should finish the year with remote learning. Let's keep our children and teachers healthy.	Middle School
I am concerned about the ability for students to return safely to school as early as May 7th. I worry about the ability to maintain appropriate distancing. I think it is in the best	Duccell Flomenton, School
4/23/2020 18:01:23 interest of students, and the community, to continue distance learning through the end of this school year. Thank you.	Russell Elementary School
My son is asthmatic and I do not want to send him back to school. I am all for taking small steps to get back to normal but I am not ok with putting him around a thousand other	Continual High Cohool
4/23/2020 18:07:51 kids. I would like him to finish out his Sophomore year online.	Sentinel High School
I did not receive the survey link, however, I advocate for keeping schools closed and continue distance learning. We live with a pulmonary compromised 64 yr old.	Big Sky High School
4/23/2020 18:10:17	Washington Middle School, Hellgate High
I do not think it's in our best interest as a community to keep schools closed till the fall. I don't think we have enough information to understand the seriousness of this disease.	School
My concern is that I personally have asthma, we live with our grandparents who are 80 and both have COPD one of which who uses oxygen. Going back would be difficult	301001
because social distancing would be very difficult to maintain because student desks are close together, also students may not wear masks appropriate or at all. Also medical fields	Sentinel High School
4/23/2020 18:14:36 have given out information that state cloth masks are not effective. 4/23/2020 18:19:07 I have not received the survey yet. Did it go out already?	Russell Elementary School
Hello, I'm the parent of 2 children in the county schools. Given the short amount of space I have to voice my opinion on this forum, I would like to see schools reopen for classes	Russell Elementary School
	Lewis and Clark Elementary School,
as soon as possible with common sense approaches. My children, I feel, need the opportunities that a school environment offers.	Sentinel High School
4/23/2020 18:21:34   I. we as a family have and continue to take appropriate measures for safety but this current situation is a detriment to my children.	Settimer riight School
My children are not your pandemic experiment. And they are not for you to gamble with. Do not put them in danger of being exposed to covid 19 by placing them in an	Washington Middle School, Hellgate High
environment where they are physically unable to apply social distance. This is not the time to put them in a position where they have no control. It's too soon to know what will	School
4/23/2020 18:22:21 happen as people begin to integrate and they need to be protected.  We'll need accommodations for our high risk/immunocompromised son to finish the year @home. Will he be able to do so via the distance learning tools already in place? Will	3011001
	Sentinel High School
4/23/2020 18:27:40 teachers be expected to teach in-person as well as distantly?	Sentiner right school
I am very concerned that it is too early to reopen the schools. As much as I would love to send my children back to school, I am not comfortable at all that it is in anyone's best	
interest for them to go back in 2 weeks. We are still seeing additional cases of COVID19 in Montana. The governor himself is still requiring no groups more than 10 people, so why	
would it be ok to fill a school with 1000 kids and staff. Both myself and my children are at great risk with preexisting conditions that would not fair well with contracting this virus.	Middle School
7 7 THORE YOU WILL OUTSIDE THE THILL HOUSE OF EPICIE VOIL HARE THIS DETINION. THANK VOID	
I'm not as concerned as to whether or not we go back as I am with the fact a decision may not be made until May 5th!! This is not only not fair to our kids who will find out 2 days	
before they go back(if they do), but it is also EXTREMELY unfair to the teachers and staff.	
I am a parent to not only a senior but to an 8th grader. While I know high school graduation is very important, I have not heard a word about 8th grade promotion. This is unfair	
to these 8th graders who have also missed out on the last of their junior high memories.	C.S. Porter Middle School, Big Sky High
Ultimately I think it would be absolutely ridiculous and impossible for the kids to go back to school. I do not believe there is a way to keep up with social distancing or to be able	, , , ,
4/23/2020 19:03:11 to cloan and disinfect to a standard that would keep our children safe.  We are already distancing learning, for better or worse; please keep doing it for one more month.	School  Rattlesnake Elementary School,

4/23/2020 19:14:07  I have not received a questionnaire regarding my opinion on the matter concerning my child's potential return date to Hawthorne Elementary based on high-risk family members that are more likely than others to be in contact with COVID-19.  It is too soon to open schools. My son is immunocompromised and we have a hard time during a regular flu season. My husband is employed at the hospital, so our risk of exposure and consequences is greater than many. We will not be sending them back to school this academic year because of the risks of bringing home or spreading the virus from the hospital or school.  I really hope that 8th grade promotion can be celebrated in some form. This is a special milestone in our 8th grade child's life. In addition to a 5th grade celebration for our daughter moving on to middle school. I'm also curious what it would look like if school is cancelled the remainder of the year, how personal items in lockers and classrooms 4/23/2020 19:24:37  4/23/2020 19:24:37  4/23/2020 19:24:37  I did not receive the survey. Our town took precautions early, and we are fortunate for it. Reopening schools seems risky, at this moment - when we clearly cannot trust federal leadership, and our	
governor's decisions are politicized due to his senate race. Opening the schools, with so little testing in our state seems irresponsible. I don't think our public schools are the right	t
places to take such risks. This is hard: for children, for families, for teachers and for the community at large. I sincerely thank you all for everything you've done during this	
4/23/2020 20:15:45 impossibly hard time	Franklin Elementary School
Don't open schools. I am a student at Big Sky Highschool and it was already a petri dish. The hot water barely works in the bathrooms, sometimes there isn't soap or paper	
towels. How are we suppose to stop the spread of Covid-19 when we're going to be in close quarters. I have people at risk at home and I don't want to be the one to kill them by	
4/23/2020 20:27:21 going to school.	Big Sky High School
I am concerned about the health and safety of our children and teachers if schools are going to be opening in May. How are they going to be able to maintain 6 feet distant from	
4/23/2020 20:28:48 each other and only be in groups of no more than 10?	Rattlesnake Elementary School
We've had so much disruption in the school year already. Please don't add to it by making us send our kids back to school without any clear plans for how we are to keep	Lowell Elementary School, Rattlesnake
4/23/2020 20:30:25 everyone safe.	Elementary School
4/23/2020 20:35:17 Please keep the schools closed	Big Sky High School
I am concerned about the potential of opening the schools. I feel like it puts teachers at great risk and I don't think it is worth making so many changes to be done in a month. I	
know there are families really suffering. But if we open I wont be sending my child unless suddenly tests are available to make this a legitimate process. Our numbers have bee	
4/23/2020 20:37:23 low and it would be nice to keep it that way. Please for the sake of our teachers, don't open.	Lewis and Clark Elementary School
We house our immune comprimised mother. We have been dilligent in our social distancing. So it would be hard to send (Name Redacted for privacy reasons FHL) back	
considering.	
I dont see how it is best to return students to class with amount of time left in the year. Especially with the potential of new rise in cases with large groups at school. I also think	t
would make more financial sense to start next fall. Meaning with continuous disinfection of an entire school daily, etc.	
We appreciate what MCPS has done to keep curriculum going and all the considerations and sacrifices made by all.  4/23/2020 20:43:35 (4)	Big Sky High School
Going back to in person classes this school year is a frightening proposition. It feels socially irresponsible with the community spread of Covid-19 that has happened in Missoula.	DIG SKY TIIGH SCHOOL
4/23/2020 20:46:57	Lewis and Clark Elementary School
I adamantly oppose the opening of schools this school year. While I realize closed schools will put enormous pressure on parents that will likely be returning to work soon, I feel	Lewis and Clark Elementary School
like asking a kindergartener to maintain social distance, while wearing a face mask, and washing their hands, and paying attention to their teacher will be an impossible task. I	
appreciate all that the school board does, and I understand that it can be a thankless job, but remember, if anyone gets sick, or Jah forbid dies as a result of the schools opening	
4/23/2020 21:07:37 their blood will be on your hands.	Rattlesnake Elementary School
4/23/2020 21:24:20 I do not think kids should go back. Our family is at risk	Big Sky High School
4/23/2020 21:25:07 Our family is at risk please don't let them go back	Big Sky High School
First, I want to say how proud I am of the MCPS administration and teachers who have really worked together to help students and parents put the right emphasis on learning	
while juggling so many changes in the home. I believe that asking teachers to both return to the classroom and continue to offer online learning opportunities is too much. I also

I'm concerned with all the kids going back that they will not only get the virus but many may contract it without symptoms and pass it on to others including their family	
members. I don't think this is a risk we should take in our community with so many kids. Also, they have a little over a month leftand I feel that it will take that time to acclimate	
back and then they'll be done for the summer. I think remote learning is the way to go or call the year done early to mid May.	
4/23/2020 23:33:50	Russell Elementary School
I feel its too early for children to go back to school. I have a high risk child and see this as a way for it to spread more. I read that masks were gonna be worn by students and	
staffhow do you plan on keeping the masks on the children? Also kids touch EVERYTHING! Are you gonna make sure my child doesn't touch anything he doesn't NEED to? Are	
you going to be able to monitor the social distancing? Are you going to be able to keep my child from touching his face or other people? Are you going to make sure they are	
washing their hands ALL the time? Children don't understand entirely how severe this really is so they won't act accordingly. My child knows whats going on but he doesn't fully	
understand why we are staying home all the time or why he can't see his friends or why he has been told 20 times today to wash his hands. He understands hygiene but isn't	
understanding why his shower every other night has turned into every night or why when we do go outside that I make him wash and change clothes. None of this is normal to a	
kid (not for adults either) so they are not going to act accordingly on their own. I know for me I WONT be sending my child back to school.	
4/23/2020 23:42:13	Lowell Elementary School
I am the parent of two MCPS students. I am deeply concerned about the possibility of opening schools before fall. I have a child who is of high risk of complication if he gets	
COVID 19. My kids are just now falling into a rythem with the distance learning. Even as a parent of a child who received services from paraeducstors and has an IEP, I would	
rather face the challenges from home and keep my kids safe. Also, as a full-time single parent, school is usually an important part of my world, being the other capable and caring	
adults in my kids' live; And even with those facts, I'd would rather face the challenges and keep safe and healthy. Please consider my concerns when making your decision.	
Respectfully,	
(Name Redacted for privacy reasons FHL)	
4/24/2020 0:08:17	Russell Elementary School
I absolutely do not support schools opening before this Fall. Not only could it result in the spread of a deadly disease, but it is asking too much of the teachers and staff. There is	
no way they can keep up with online learning as well as prep the school for students. Take the summer to develop a solid plan for how to deal with a resurgence of this disease	
next school year. Parents already have a routine worked out for this year. I understand some children are not receiving assistance with learning at home, however falling a bit	
4/24/2020 0:31:45 behind in school is preferable to being dead.	Hawthorne Elementary School
4/24/2020 0:42:28 Socially the kids need an outlet. Is there any way to ramp up social distancing or hygiene and hand washing?	Hellgate High School
My child will not be returning to school this year. I hope our teachers are not forced to either. It is irresponsible to return when the curve hasn't even flattened yet.	Paxson Elementary School
4/24/2020 7:44:51 I never received a graduation survey. Can I still fill one out?	Hellgate High School
Please close the school for the remaining year. It is much too early to open up and put our children/families and staff at unnecessary risk! I will not be sending	
4/24/2020 8:49:15 my daughter back to school regardless of the decision made.	Paxson Elementary School
4/24/2020 8:49:15 Thy daughter back to school regardless of the decision filade.	Paxson Elementary School
I do not want the risk to my child's health, including mental health, significantly increased by a rapid, poorly planned out return to school. Slow down, return in	
the fall with appropriate procedures and systems to respond without my child feeling the fear of adults and peers. I want my child to walk into a school with the	
4/24/2020 8:55:51 structure of confident teachers and mental health teams that can honestly say, "we're on it, we know what to do, even if unanticipated things might happen."	Lowell Elementary School

4/24/2020 9:07:31 In an earlier email, we were told we would be getting a survey emailed to us. I never received it.	C.S. Porter Middle School
My concern is that my can, who is in 6th grade at Maadaw Hill has asthma. He is at high risk for Cavid 10. If school anone back we in May I don't feel aste in	
My concern is that my son, who is in 6th grade, at Meadow Hill has asthma. He is at high risk for Covid 19. If school opens back up in May, I don't feel safe in	
allowing my son to return back to school. My daughter attends Jeanette Rankin. If my daughter went back to school, then she could possibly bring Covid 19 home,	,
as well. I truly feel that having kids return to school this Spring is not a good idea. I feel that it is being rushed. With businesses opening back up, and people	
intermingling again, there is a high chance that the amount of cases will rise, putting many of our most vulnerable at risk. The fact is, we don't know what's going	
to happen when everything opens back up. We won't see the effects of this decision for at least 2 to 3 weeks. I strongly feel that it is best to error on the side of	
caution. Not only are we putting our most vulnerable kids at risk, but we are also putting our staff at risk, as well. Is remote learning ideal for education? Probably	
not. My kids have settled in quite well with remote learning, though. They are actually enjoying it, and in some ways, prefer it. I really don't see how returning	
back to school, and trying to keep kids in masks, and distancing kids to be 6 feet apart is practical. Even if we could implement all these safety measures, there's	
no guarantee that kids or staff will be safe from Covid 19.	
A few weeks ago, my son did come down with pneumonia and was very sick. He tested negative for Covid 19, thank goodness. He has fully recovered and we are	
so thankful for that. If he were to get Covid 19, he could possibly end up in the hospital. Please, really consider what this means to our high risk kids and staff, if	
you decide to open schools back up in May. I know we are all anxious to get back to our normal routines and having schools open again. Please, really consider the	
costs of that decision. It weighs heavily on my heart, on what your decision will be. If you do decide to open the schools back up, this May, then what are families	Jeannette Rankin Elementary School,
4/24/2020 9:23:27 to do, with the kids and staff that are at high risk? Where does that leave my kids, for education? 2	Meadow Hill Middle School

4/24/2020 9:54:25 Looking for the survey that was supposed to go out Wednesday evening. I did not receive it, either by email or text. Not in my spam folder.	
	Sentinel High School
I won't be sending my kids back to school this school year because I am having a baby at the beginning of June and it's not worth the risk of exposure. Thank you	
4/24/2020 10:05:33 for all your work with this!	Paxson Elementary School

		1	
	I never received a link to the survey, but I received multiple emails about a survey link that I would receive. Why wasn't the link included in all the emails talking		
	about the survey? Trust me I've looked all over trying to find a link. If I can't find it after all the searching, most parents are not going to dig that hard to		
4/24/2020 10:28:56	participate.	Lowell Elementary School	
	How will staff and teachers balance the numerous and onerous protocols necessary to keep kids and staff safe, with actual teaching and learning time? Putting		
	this tremendous responsibility and burden on teachers and staff is not fair, it isn't what they are trained and hired to do. This will also be traumatic for kids-		
	having to wear masks, not be able to touch or be near their teachers or peers, not able to play outside- this is contrary to what young kids are supposed to do-		
	how do we expect to take kids to the "watering hole" but not allow them to drink? We have done a good job of adapting to virtual learning, we should continue		
4/24/2020 10:22:07		Rattlesnake Elementary School	
4/24/2020 10.32.07	with that for now. Due to these concerns, It's not fair for teachers or kids to return to school with this pandemic still in full swing.	Rattleshake Elementary School	
	I urge the MCPS Board of Trustees to NOT reopen schools for the remainder of this year. There are only a few weeks left of our school year and we shouldn't undo		
	all that we've sacrificed and worked hard to do over past weeks to protect our community. In addition to continuing to offer remote learning, please use any		
	additional resources you have to help those students who have not been able to remote learn easily to finish the year as strong as possible. I would also		
	encourage looking at a long term remote learning option for families. This is one way to reduce class size and keep students, staff and families safe until a vaccine		
	or other long term solution to this health risk is discovered. We often hear the words "high risk" but as we've seen this virus doesn't discriminate and kills all ages,		
	including those in their 30s, 40s and 50s. Even if our kids are less affected by the virus, they need their parents to take care of them. Tough decisions are ahead		
	and I appreciate all of your hard work (staff, teachers, admin and board) and the great communication you've provided to us during this pandemic. Stay safe and	Hawthorne Elementary School, C.S.

	I am in favor of schools reopening for the remainder of the school year. Thank you	Paxson Elementary School	
	I am concerned that with lack of testing that opening the schools is going to be problematic. Everyone gets what's 'goin around' and in this case it is something		
	that is particularly dangerous as I fall into the 'higher risk' category. Unless there is a plan to do antibody testing and symptom evaluation to enter the building, I		
	don't see how we have any more information now than we did when schools closed mid-March. If opening the school, what will the procedure be for being		
	allowed onto campus, and what will the response be when a child is diagnosed with COVID-19?

4/24/2020 10:53:08	too soon to know what will happen as people begin to integrate and they need to be protected.	High School	
	I really think going back to school for three weeks is not worth the risk to our kids, families, and teachers/staff. There is no way that social distancing will be		
	successful in the schools. I think at this point we have asked teachers to come up with a way to teach online. Having them reinvent how to teach with social		
	distancing for three weeks seems very unproductive to me. If schools were to re-open I am not sure that I would be sending my kid to school. It doesn't seem		
	tworth it for all the expecture according since there is not enough time to set it we thoughtfully

4/24/2020 11:12:38 4/24/2020 11:19:15 4/24/2020 11:21:09	As a parent, I have grave concerns about re-opening the schools for the remainder of the 2019-2020 school year. Little is still know about this virus and, although not in a high risk group, children are susceptible. Recently, a five year old in Michigan passed away due to Covid-19. I do not believe that the current staffing levels of our public educational system provided for the resources needed to ENSURE social distancing is followed, especially in the younger, elementary aged children. Also, I do not feel there is logistically enough space at any of the MPCS facilities to accommodate CDC social distancing guidelines, including the six-feet-apart in every direction. With so much scientifically yet to learn about this virus and the lack of both a vaccine and any form of herd immunity - I feel compelled to state that it is not worth the risk of a child's life, plus increasing community spread, plus endangering the lives of high risk family members and teachers to reopen the schools for the mere few weeks that are left.  As a parent of two students in high school, one a senior and the other a freshman, I am worried for their safety and wellbeing, if schools are to open up for the reminder of the year. My oldest has asthma and other health condiditions that puts him at high risk. I am immunocompermised with other health issues in our home. It would be devasting for my little family if the virus was to catch a ride into our home.  I would like to thank you for all that has been done for the wellbeing and safety during this time. I hope that MCPS will stay in this type of distant model learning for the remaining of the year.  I feel strongly that our energies now ought to be directed towards the adjustments we'll need to make in the fall—the teachers have already completely retooled their curriculum for online learning for this year, what would be gained by returning to the classroom now? While of course I am sad that my children will not be able to finish the year in person with their teachers and classmates, I am	Chief Charlo Elementary School  Sentinel High School	

I am very concerned about possibly sending my kids back to school in a couple weeks since we are still supposed to be social distancing and no large gatherings.	Hallanda Biah Cahaad
4/24/2020 11:37:09 There are too many students that would be in very close contact daily.	Hellgate High School
I feel like I need to give my 3 boys an answer as soon as possible as for when they can go back to school. They miss school but I also fear that fully opening at this	
time with tight restrictions is going to be hard on everyone, teachers, students and parents. If school opens the Monday after May 7th, that will give everyone 22	
days of transition into another new school routine, just for them to go on summer break. I feel it is hard doing homeschooling but not as hard as it would be for	
our teachers to rewrite and re adjust to reaching all of their students. Please make a decisions prior to May 5th so we can ALL prepare moving forward. Praying	Franklin Elementary School, C.S.
4/24/2020 12:00:08 for everyone!	Porter Middle School
Did MCPS send out the separate form about at risk household members? If not the public should be notified of this change ASAP as many families are expecting	
to compete that form. We have an at risk student in our family. For his safety and ALL students and staff please continue with remote learning for the remainder	
of the spring semester. Our family has established a routine and effectily competing the online learning. Teachers have adapted to provide many educational and	
enrichment programs while basic food services are also being provided. It would be more disruptive to shift into another new routine in the classroom for a very	
short month with interrupted instruction as teachers will constantly have to disinfect to ensure the safety of all students. Keep remote learning for the remainder	r
of this school year and instead devise a safe plan for students return in the fall. In Montana the chances of getting Covid 19 are low but the risks are high. Keep	
school a safe learning environment. Reopening schools for classroom instruction is not in compliance with the CDC recommendations coupled with an	
insufficient amount of testing. Please for the safety of ALL students, staff and Missoula keep remote learning only and wait to reopen school doors until the fall.	
4/24/2020 12:02:11 Thank you and take care.	Rattlesnake Elementary School
I do not think it's safe for teachers or students to return to school this spring. I'm concerned about what it would look like if they did return. Masks? Hand	
sanitizer dozens of times per day? I would rather keep up the homeschool routine than have them go back to school under those conditions. I also believe that re	
4/24/2020 12:20:22 opening the community up slowly would not mean opening schools.	Hawthorne Elementary School
I'm not willing to send my son back to school if the district chooses to reopen. I am at high risk because of autoimmune disorders, and his brother's dad is	
diabetic. I'm hoping it won't come to this, but I assume there will be a plan for kids who need to stay home to protect family members? And that they won't be	
4/24/2020 12:34:13 punished for it in any way?	Hellgate High School
It is a lot of adjusting for both our students and the teachers to have them come back in May when school is out in June. That means between March and June	
they will have been at school	
Then had to adjust to being home then readjust back to school and five weeks later be back at home. Also how are you going to maintain a sanitary and socially	
distanced environment in which for them to learn? I help weekly at school	
and I personally don't see how that can happen this school year. I have been sneezed and coughed on every time I'm there so it seems like a bad time to	
encourage groups of 20 sneezing and coughing kids to spend their days together. Also I am curious how sickness will be handled? Most parents don't keep their	
kids home when they are sick, which is why everyone has constant colds and the flu spread rapidly in winter months. Will that policy change? Will parents have	
to start actually keeping their kids home until symptoms	
reside? The attendance policy might need to be revamped in order to accommodate that as that is one of the major stressors to send our kids sick	
so we don't get to many absences. This has all been hard and stressful for everyone but we don't yet know how this will play out and to have our kids as part of	
the experiment all for just a few	
Weeks of school seems a bit much. This has saddened me as we have had an amazing teacher and group and we miss our school dearly. It makes us sad each	
week to not see the kiddos but sometimes tough love is necessary. We have worked tirelessly to stay on top of all school work and more if we can in order to not	
fall behind. It is possible and it takes a lot of work and dedication. I know that many families have extenuating circumstances that make this far more challenging	
but is risking health the better answer? Time never fails us- if we are wrong then all we are out is a few weeks, but if this gets worse then it's too late. We will	
have already jumped in and put our kids in a position that could be far worse than losing a few more weeks of school. It saddens me greatly - but this is what I	
think is necessary. Thanks for your time!	
4/24/2020 12:46:02	Russell Elementary School
7/ 27/ 2020 12.70.02	Russell Liettlettally school
I think MCPS should remain on remote learning for the remainder of this semester. It is not worth it to regroup for a few more weeksthe kids have settled into a	
4/24/2020 13:06:57 groove, and I would rather we get this virus under long term control (as best we can!) and then reopen at the end of summer. Thanks for all you do.	Hellgate High School
1. My children refuse to do their work for me at home on their computers 2. How long should they do each assignment 3. How do I get them to do their work 4.I	
would like them do get the help they need bye going back to School but I Know there is no possibility of social distance in school	
	Rattlesnake Elementary School

	To Whom it May Concern,	
	I am a high-risk individual married to a Hellgate High School teacher. My son attends Lewis and Clark Elementary in kindergarten and I have a two-year-old in pre-	
	school.	
	As much as it pains me to keep my children from their friends and from their teachers (and my spouse away from the high schoolers he teaches), I think it would	
	be, quite literally, a grave misfortune to open schools back up. I would deeply, deeply encourage MCPS to consider a late start in Fall. September there may be	
	another surge and our lives are so much more valuable right now than pushing forward blindly. We do not know what we do not know.	
	If my children and husband would return to school, it will deeply increase my risk for contracting COVID19 and I very well may not survive that exposure. We can	
	save lives by being at home. We will gladly do our part to continue supporting our kids' educations away from home.	
	I know my six-year-old will not be able to abide by 6-foot distancing rules. I know my husband will not be able to safely supervise the locker room or teach them a	
	health class when he is not putting their (or his) health first.	
	I understand that some children's lives are not as good at home as they are at school. This is where I hope that there could be switch. Perhaps there could be a	
	program for high-risk or at-risk children that allows them enough space and safety to go to school by day with people who are low-risk to help them. Children	
	deserve safety and if they cannot get them at home, I hope it is a small enough population that could actually be at school with enforceable safety precautions.	
	We can save lives together. 2 months. 4 months. 12 months. We can do it because our community is stronger together and it's only for a small (although it feels	
	big) period of time.	
	Thank you so much,	Lewis and Clark Elementary School,
4/24/2020 14:03:37	(Name Redacted for privacy reasons FHL)	Hellgate High School
	If the district decides to reopen, I assume many kids still won't be coming back. Therefore remote learning and in classroom learning would both have to be done.	
	Is it fair to our teachers or our students to stretch the teachers that thin? I personally think that the only way we can continue to provide the best education	
	possible to the students, we need to let the teachers continue to put their energy into online learning. As a parent I am so thankful for all the teachers and all their	
4/24/2020 14:27:23	hard work, they are doing their best and it shows.	Chief Charlo Elementary School
	My son who attends Hellgate HS, lives with us and my daughter who is 19 and has a disease and infusion she receives that crashes her immune system. She and	
	our whole family are working from home, not entering any store for any reason. Having our high-school son attend in person classes will create a risk where we	
	would need to separate him and our daughter from living in the same house. We have no other house or RV or anything that could accommodate this separation.	
	The infusion my daughter is having to take is Entyvio. Her Doctor and the maker of Entyvio will not stop her taking this medication to improve her immune system	
	for a possible COVID-19 exposure. So there is not an option to stop this during COVID-19. Please consider this risk and situation we will be in. Our son is open to	
	continuing online learning to not endanger his sister, if Hellgate opens up.	
4/24/2020 14:31:08		Hellgate High School
	It is not responsible to start school back up too early, especially when they will only be attending school for less than a month before the year is over. It seems like	
	it would be rushing to send kids back to school at the beginning of May. Other places of business and churches aren't supposed to have people in large groups,	Hawthorne Elementary School, Big
4/24/2020 15:20:58	how does the school intend to protect my students and keep kids from gathering in large groups and transmitting COVID?	Sky High School
	I do not think it is a good idea for the students to return to school for one month since we still have active cases in Missoula. Hellgate High School has around	
	1,000 students (I think) so I do not think that it is a good idea to get them all back together in one building. It isn't realistic for the students to wear face masks,	
	social distance, and wash hands all day, not to mention the extra cleaning the staff would be doing will be overwhelming. It is too risky, my son will not be	
	returning because we have high risk people in our home. How will you accommodate our choice if you choose to open the school? I would like to know more	
	about graduation and how that will look as we get closer to that time. Remote learning has been going fine for my children. Our family sure appreciates all you do	
4/24/2020 15:42:26	and have done. Thanks for your time and consideration of our families opinion.	Hellgate High School
	I am concerned with the idea of reopening schools. It is virtually impossible to create adequate social distancing when there at 500 students plus additional staff	
	in on school building. The choice to reopen schools feel irresponsible at this point. While I recognize that it is very challenging to have schools closed for many	
	families, particularly families without childcare, it will put a great many folks at high risk, like grandparents, in a tough situation if schools are reopened. Please	
4/24/2020 15:59:03	consider keeping MCPS closed until the Fall.	Rattlesnake Elementary School

I feel a decision regarding returning to school as well as graduation should be made in a timely manner. Although Missoula has had only a few confirmed cases	
recently the best interest of those with compromised immune systems (staff and students) as well as the age of the teaching staff is of great concern to myself. In	
addition, consideration for graduation ceremonies for the various schools to be held in different locations (Adam's Center, washington grizzly Stadium, osprey	
field, dornblazer field, MCPS stadium, etc) with limit on number of attendees per graduate? If graduation ceremonies cannot be hosted as scheduled I hope that	
4/24/2020 15:59:17 they can be postponed to an alternate date. The seniors have already had so much taken from them this year.	Big Sky High School
I believe it would be in the best interests of the students to continue remote learning for the rest of the school year. But there should be a day (s) set up for	
students to come pick up locker contents, I know my student did not pick up his PE locker stuff during the material pick up as that was not education material he	
4/24/2020 15:59:38 needed for remote learning.	Big Sky High School
I really hope you're not seriously considering re-opening the schools at this time. With so little time left in the school year, I think it's impossible to implement	
enough changes to make it work. I know my daughter has mentioned she will most likely not send her daughter back this school year, as she (my daughter) has	
several health conditions and wants no chance of the virus being brought home. Stay closed now, take the summer to come up with workable policies that will	
protect everyone next school year. There isn't enough time now to make it work safely. If schools do open, give us the option to keep distance learning as an	
option for those who are afraid to send their kids back to school at the present time.	
4/24/2020 16:19:33	Meadow Hill Middle School
I would love for my children to be able to return to school, but also recognize that it would be difficult to orchestrate that in a safe manner. We do not have any at	
risk people in our household currently, so they would attend if it were to reopen. I am most concerned about the kids who lack supportive family at home during	Jeannette Rankin Elementary School,
4/24/2020 16:32:13 this time, but I am sure that is something all of you are considering. Best of luck in your decision. I know it's not easy.	C.S. Porter Middle School
4/24/2020 16:36:25 I don't think it would be a good idea to open the school at this time.	Jeannette Rankin Elementary School
	Meadow Hill Middle School, Hellgate
4/24/2020 17:12:34 If school is reopened we will not be sending our children, as we have a very high risk family member.	High School
Our family would prefer to keep our child home the rest of the year. I would like to see more live teaching lessons where students can all be in a virtual classroom	
together and then go to virtual breakout rooms to work on the lesson in small groups. Also the google classroom calendar and classwork do not always match	the theory flowerter Calcula
4/24/2020 17:57:32 and the links don't always work. Have to look in multiple places to figure out the tasks for the day.	Hawthorne Elementary School

Would this be good for their mental health after just having been through the transition to home school? I think this would not be beneficial.	
Thank you so much for the great job all of you have been doing to make remote learning work and to keep us informed. I would like to share with the school board trustees that I do NOT think Missoula county public schools should return to in class/at school learning this year. I do not think it would serve the health or best interests of students, families or the community. Here's why:  1. The CDC's requirements for reducing social distancing are the ability to do wide scale testing and contact tracing. We don't have that ability in the state of Montana or the local community.  2. It would be dangerous for everyone in the community to allow larger groups of kids to get together in schools as it would allow for a significant increase in possibility for community spread.  3. Even though kids don't seem to be hard hit by this virus, there are many vulnerable populations who would be directly impacted including teachers and parents or other family members with underlying health issues. We fall into this category. My husband has an auto immune arthritis, which makes him immunocompromised.  4. To make onsite school remotely safe would require major changes to how school works including limiting numbers of kids per class per day, not using the playground equipment and not using the lunchroom. It would require students learning very new routines. Would this be worth it for just a month of school? Would this be good for their mental health after just having been through the transition to home school? I think this would not be beneficial.  I think everyday about the kids whose safest place is at school and I care about them very much. But I still think that the costs to students mental and physical health, teachers health, and overall community health outweigh any benefits of trying to go back to onsite school for the last few weeks of the school year.

First of all, waiting until May 5th is highly unfair to me because I have been waiting for the answer for a while. Second of all, I am BEGGING YOU to open up the	
schools. I could fill this entire thing out with statistics and percentages but I won't force you to read that. All I'm saying is, only 5% of coronavirus cases are	
critical/life threatening. More people have died from the flu than from corona and we didn't close schools for that!!! I miss my teachers and friends so much, you	
do not understand. Besides, not every student has internet access to do online schooling and a lot of students just won't do it! If you want to educate your	
students, it would be more effective to open the schools back up. Honestly! Is this something we should be sacrificing some kids education for? Seriously? It's also	
easier for me to be in school learning rather than reading and watching stuff on a webpage. PLEASE OPEN THE SCHOOLS BACK UP! We need a break from our	
families too	
4/26/2020 17:40:25 Thanks for reading.	C.S. Porter Middle School
My son, (Name Redacted for privacy reasons FHL), will be unable to attend school because my husband is very high risk. Owen has been having trouble with the	
online learning system. He does all of the work and submits it, but then the weekly report shows that his work has not been submitted. It is very frustrating for all	
of us, as we know how much time and effort he is putting into completing his work. I am especially concerned because I know that he will likely need to continue	
remote learning if the decision is for students to resume learning in a public environment.

4/27/2020 8.49.11 Good Morning, ruon theer connortable sending my children back to school this year. Thank rou.	Lewis and Clark Elementary School
I am in support of MCPS opening the schools this spring with social distancing and other precautions. My 10th grade daughter feels she is not learning very much	
with the online platform at home. She spends a maximum of two hours a day, five days a week on schoolwork. Ten hours a week of education is not enough. I	
am concerned that school closures will become a regular occurrence, every time there is a Covid-19 spike (or something else), and these interruptions are not	
good for our kid's education. Missoula is not a hot spot for the coronavirus. We are not NYC, but we are doing the NYC thing as far as the lockdown goes. I agree	
that sheltering in place was a good idea for awhile, but it's time to get back to our lives, open businesses and schools and stop living in fear. Those who are too	
anxious or health compromised to venture back out to work or school can have the option to stay home and resume their education or jobs when they see fit. Let	
4/27/2020 9:39:27 the rest of the community get back to their jobs and education.	Hellgate High School
The school board is going to be tasked with deciding when and how to re-open, and I don't envy them that decision. People have strong opinions on how this will impact public health and safety in the immediate future.

And I have even greater concerns about how it will impact the most vulnerable children in the community—those living at or below the poverty line, those living in dangerous situations, and those with special education needs that extended homeschooling definitely can't accommodate. Right now, in terms of learning, my family is treading water, if that. And in these circumstances, I think that's a pretty big win. My goal is to stave off the backsliding that comes with extended absences from school.  I also recognize that I'm one of the lucky ones. I have a spouse who is an essential worker, and I own a business and work from home, so I'm able to be a homeschooling parent without technically sacrificing too much in terms of income. But the reality is that my husband is working a lot of 12-hour days and I'm home with three kids, a brand new "school" structure, and extremely limited social outlets for any of us. My kids miss their friends. They miss their routine. They miss having a teacher who can explain math concepts to them in different ways instead of just saying the same thing louder and slower. I miss my friends. I miss my routine. And I miss having days where I can focus on work (and therefore earn an income) for more than fifteen minutes at a time. Because even though I work from home, very little work is actually getting done. After I spend my day trying to keep the kids at least a little bit on track with school (and trying to prevent them from killing each other), I don't have any energy or mental capacity left to work on my job.  Then, once I'm able to look past my own self-pity, there are families in significantly worse situations. Parents who don't have jobs and now face uncertain housing and food situations. Parents whose choices are to forego having a job (and the food and housing security that comes with it) to b	
This is concerning to me also, but I have equally serious concerns about the impact of continued closure on my children's education and on their emotional well-being, not to mention my own. As a parent, I know that my own kids want to go back to school but I'm worried about their health and safety if we come back in the spring. I support being out of	
the building for the rest of the year. As an administrator, I strongly believe that we have to get our students back in the building. In spite of personally following up	
with families the variety of home situations means that some students will fall behind faster and quicker and I can't approach equity unless I can provide in person	
support for students in some way. However I know we need time to plan to do that safely. It seems that there may be big changes in the way we will move	
students in our buildings - staggered schedules, reduced class sizes, changes to eating, gym, class changes, etc - and we need time to get guidance and plan for	
that. As an administrator I believe we need to take spring to plan for a new reality of schooling in the fall.	Meadow Hill Middle School, Big Sky

4/27/2020 10:44:19 My concern to please closed until for their safety distance and social I care about my children	High School
I appreciate the strong leadership and open ess for community input in making difficult decisions about re open schools this spring or not. Recently I heard about an	
decision by a small school district from out of state. They are ending remote learning a few weeks early this spring, then opening several weeks early for 2020-21	
anticipating a possible school closure next school year. They are including a focus of developing curriculum that can be utilized in face or on line. They are also	Lawis and Clark Flamentany Cahaal
including a parent training component for parent implemented on line learning. Every options has its pros and cons but I thought it was an interesting option.	Lewis and Clark Elementary School, Washington Middle School
4/27/2020 11:39:33 4/27/2020 12:06:46 I would prefer school to resume it is a major hardship for our family to continue home school while we both work.	Lewis and Clark Elementary School
We have found remote learning to be extremely difficult for our family. I am a night nurse, and my husband is constantly working during the day from our basement,	Lowis and Static Licinomary School
he hasn't had time to help. If our son isn't able to go back to school we are going to have to find a place for him to go, as this is getting really hard for our family.	
	Chief Charlo Elementary School
Hi, I'm concerned that reopening the school will cause more disruption for my child and potentially expose him/other children to the virus. I think it's unnecessary	
and unsafe to reopen the schools when summer is right around the corner. Why would the school District consider reopening when our children are finally getting	
4/27/2020 15:11:36 used to their remote learning?	Lewis and Clark Elementary School
I don't believe it is worth the risk of reopening schools for the few raining weeks. If they were to reopen I would not send my child as much as I'd like him to be back	
4/27/2020 15:48:28 in school. Thanks for considering my feedback.	Lewis and Clark Elementary School
I am greatly concerned that if schools are opened this May, the risk to our community, children, and teachers greatly outweighs the benefit of going back to school	
for one month. Will the children be disappointed? Yes. Do they miss their teachers and friends? Yes. Is it unfair that some kids are missing milestones like	
graduation? Yes. Are those reasons to put everyone at risk? No. Please do the right thing, which isn't always the popular thing. We are all craving normalcy, but	
this is no reason to end the virtual learning early. It's unfortunate that the governor has put you all in this position, but that is where we are at right now. Please help	Chief Charlo Elementary School
4/27/2020 16:07:19 us stay safe and do not return to in class learning. Thank you  How will you keep children separated enough to honor recommended distancing if students return to school? Will masks be required for all if schools open?	Chief Chano Elementary School
Opening MCPS for the 24 days of school remaining this year hardly seems worth the risk to the schools and the Missoula community. Though it has not been	
without challenges, we have all just begun adjusting to remote learning and it seems undoing all of that now would be another disruption for relatively little academic

If school dies not re-open this year, what is the plan for drivers ed classes? Will they resume and when?	Washington Middle School, Sentinel
4/27/2020 17:57:58	High School
Hello:	
I am reaching out to share my concern about re-opening schools. I know there are a lot of angles and moving parts to consider when the board makes a decision,	
but I would personally not support schools re-opening anytime soon. Aside from the logistics of managing social distancing, hand washing, and other virus-related	
issues, I want to express my empathy for the teachers in this situation from a learning perspective. Teachers were asked to change to an online-based curriculum	
and had one-two weeks to figure that out. They have done a great job and have put in so much hard work. The kids are moving (albeit slower than they would in a	
normal school setting), but they are adjusting as best they can. If schools re-open, we would be asking teachers to do even more work create new curriculum for	
re-opening. This seems a bit outrageous. First they move online and now if we re-opened they'd move back to school. They would have to figure out where kids were at in their learning and then figure out if they are going to backtrack or keep going with concepts, all the while worrying about how to keep everyone safe and	
sanitized. I think the best thing for the sake of learning and teaching would be to give teachers the summer to assess and figure out where to start next year and	
which subjects/concepts need to be re-taught, etc. There's only so much stress a person can take and I think it would do more harm than good to send our teachers	
back to school. They are under taxing situations and I think sending them back would be even more detrimental. Next year when the situation will be at a new	
normal, I would feel better sending my kid back to school knowing teachers had a full summer break to unwind, collectively assess a plan on moving forward, and	
starting fresh.	
4/27/2020 18:00:50  Thank you for taking my feedback into consideration  As much as IIII laws my three hours to be healt in separation.	Lewis and Clark Elementary School
As much as it drove my three boys to be back in school with their teachers and mends, i think we need to keep kids nome the rest of the year. My son has an	Lewis and Clark Elementary School,
4/27/2020 18:53:50 autoimmune disease and my dad is high risk with a heart condition. I don't want to put either at risk for a few sanity-saving weeks of school.	Washington Middle School
I'm struggling to find the utility in bringing kids back to school given that there is only a month remaining in the academic year. With all of the heightened sanitization measures and curriculum adjustments it would probably make more sense for teachers to use that time to re-develop next year's curriculum to make up for	
measures and curriculum adjustments it would probably make more sense for teachers to use that time to re-develop next year's curriculum to make up for 4/27/2020 20:29:11 whatever was missed this year.	Lewis and Clark Elementary School
TILITEOLO LOLEGA I I WIIAIEVEI WAS IIIISSEU IIIIS YEAI.	Lomo and Stant Liomontary Sonool

I feel like at home school is too stressful for me. I've also talked to many other parents who feel the same. So I know I am not the only one. I am an essential	
employee along with my husband. The Google classrooms are not very well set up and I can't always find what I need to for each day. Which leads to lots of yelling	
and frustration. I have 3 kids. I am doing school for each of them all before I have to go to work. Which I have already had my schedule altered to accommodate	
being able to do school. I am a part time employee. My husband is full time and makes most of the money we need for bills. I'm sokover at home learning and I'm	
sick and tired of starting the day with crap attitudes and fighting my kids to just get their work done. This is stupid and I'm done doing it. It needs to be done.	
I think the best course of action would be to A, go back to school for 4 more weeks as it is over in June. Possibly look into doing a few hours a day at the school but	
for only a grade or two at a time. The teachers can be there to teach the students for 3 hours at a time for their subjects. The school can still provide sack lunches.	
But, instead of 500 students at once it's only 70-100. Or B, to stop school completely even at home learning, and do two months or more as necessary review next	
year. They all forget everything through summer anyways. And to be honest, I don't think the kids are really learning or retaining any at home learning. They only	
have about 1.5 hours of work to do. My vote is for option B. Just call it a year and we can try better next year.	
4/27/2020 21:36:11	Hawthorne Elementary School
I do not think students should be going back to school for the remainder of the year. I am concerned that there will not be a safe way to ensure proper distancing	
4/27/2020 21:42:41 measures in order to keep the children safe. It would be safer to continue online learning courses and try to resume next year.	Hawthorne Elementary School
I am uncomfortable sending my children back to an in school setting this school year. If the schools open back up I will finish their school year through	Russell Elementary School, Meadow
4/27/2020 21:46:42 homeschooling. It is unsafe and irresponsible to open back up this soon.	Hill Middle School
i am currently a student here and i think that allowing our school to reopen is a not a very good idea. most students will not obey the mask protocol. i am also a	
essential workers at a nursing home and this makes my chances of contracting covid much higher and or giving if i contract it. i think it is out best interests to wait	
4/28/2020 3:49:21 until the fall of opening schools again.	Hellgate High School
My family does not see the value of returning to in-person instruction for only a few weeks at the end of this school year, when weighed against the potential risks	
inherent in congregating in large groups at school (especially when it appears that neither Missoula County nor the state has adequate COVID-19 testing or contact	<del>-</del>
tracing protocols in place to contain a potential outbreak). That said, I recognize my family's privilege in being able to keep our kids at home (and to have the tools	
to facilitate online learning) while continuing to work from home. Many families do not have this privilege, and for many kids, school is a refuge from a difficult home	
environment. If MCPS opts to continue online learning for the rest of this school year (which I believe is the right choice), then school officials need to ensure that	Lowell Elementary School, Hellgate
4/28/2020 7:18:22 they are meeting the needs of kids who do not have the privileges that mine do.	High School
My child is uninterested in any of the online learning menu. It has been a struggle to keep him engaged with it and the hardship taking its toll is about not worth it.	
We continue to learn in many hands on and mental different ways. The online learning menu is not very engaging for my child and he thinks all of it is boring. I can	
not disagree with him. I do not see him continuing to want to try to turn in any assignments over the next month. I am also somewhat not looking forward to having to	
deal with the frustration and attitude that comes along with home learning. He is a bright student but also one that needs to be in a classroom setting to keep	
engaged. School needs to end earlier this year due to Covid-19 and not keep holding parents and students to the at home learning menus. We also do not have a	
great set up to access the remote learning which makes it that much more difficult. We have dealt with home learning for almost 2 months and school needs to be	Duranell Flore autom. Coloral
4/28/2020 9:34:47 dismissed for the year.	Russell Elementary School
4/28/2020 11:07:01 Please don't reopen the school & continue with online classes. We have high risk people at home. Please consider a late summer graduation and prom	Big Sky High School
I just wanted to let the Board know that I am currently sick and have underlying health conditions. It will not be possible for my children to go to school for this	Lewis and Clark Elementary School,
4/28/2020 15:51:16 academic year. It will be best if rest of the school year can continue to be online as all of us are already doing it Thank you for your consideration.	Hellgate High School
4/28/2020 20:30:17 Schools should reopen but on a modified schedule. Perhaps upperclassmen in the morning and lowerclassmen in the afternoon.	Seeley Swan High School
4/28/2020 21:06:44 How will students continue to work remotely when their parents return to work and they have to attend other child care facilities?	Jeannette Rankin Elementary School
Could school begin during the summer to address the learning loss from this year? Not only would it address learning loss, it would potentially give some "wiggle	Joannesto Admini Liomondary Concor
room" for the possibility of another shutdown, various days of deep cleaning in the schools, etc. In addition, beginning the next School year in June or July could be	
helpful if it is determined that 1/2 the kids can only go in the morning and the other half in the afternoon or however the staggering needs to happen.	
Lastly, it could allow many families to go back to work as well. Many of us have our elderly parents care for our kids in the summer- but many of us will not chance	
that with COVID. (Plus some daycares may not even open at all due to various circumstances).	
that with OOVID. (I lus some daycares may not even open at all due to various circumstances).
