Geometry	Year Long	1.0			

## HHS Q Course Request Process 2021-2022 – Class of 2025

We are excited to welcome you to Hellgate High School. One of your first steps in joining the Hellgate student body is to request courses for the 2021-2022 school year. The course request process is outlined below. It is important that you choose your courses carefully. The Hellgate High School master schedule is created by this student-driven course request process. It is important to note that once courses have been requested and your schedule has been set, it is unlikely that we will be able to accommodate course change requests.

1. **Beginning in ??**, go to the Q Portal website and login with your ID and password: <https://q.mcps.k12.mt.us/studentportal/>. (If you need assistance contact your current middle school counselor if you are an MCPS student and call the front office if you are out of district for middle school 728-2402.)
2. Select the 2021-2022 school year link to the right of your name.
3. Click Requests on the scroll bar on the left hand side of the screen.
4. Every 9th grader has been pre-loaded in English 1, Health Enhancement 1, Earth and Space Science, and Algebra 1.
5. Click Add/Edit Requests on the right hand side of the screen.
6. Now you have the ability to select the courses you wish to take next year.
  - At first you will have 3.5 credits under your name (1 credit is your English course, 0.5 credit is your Health course, 1.0 is Math course, and 1 credit is your Science course).
  - Select the course you wish to add. Click the Add Selected Class button to add that course.
  - Each time you choose a course that number will increase by 1 credit for a year long course, and by 0.5 credit for a semester long course.
  - Keep choosing courses until it states you have 7.00 credits. To remove a course you already added, click the X next to the course on your list.
  - After you have reached 7.00 credits, click submit (only click submit once).

Online Course Guide: [www.mcpsmt.org/domain/3609](http://www.mcpsmt.org/domain/3609)

7. Make sure your course requests on Q match your course requests on your worksheet and equal 7 credits. Click Submit on Q and log off.
8. On your worksheet, you will also list 3 alternate courses, *in priority order*, on the front side of this course request form.

MCPS Graduation Requirements		2020-21 Schedule Request Worksheet
