

Meet Your TEACHER

Ms. McGibben

I grew up in the Bitterroot Valley. I love to hike, float the rivers, kayak, camp, sew, cook, and fly fish. I have one sister who is in school to be a nurse. I am named after my grandpa!

I lived in Portland for three years before moving home this summer. There I taught kindergarten and a K-1 blend. While living there, I fell in love with the coast, especially Cannon Beach.

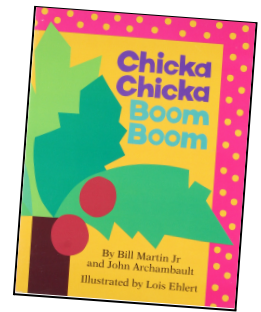

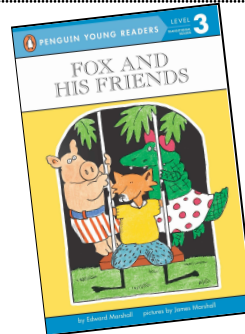

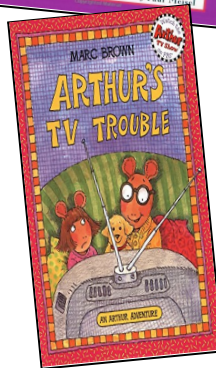

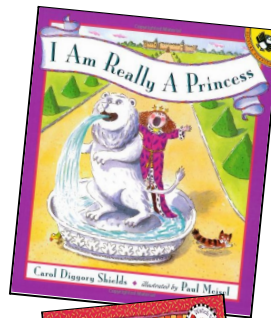

A new friend...

In January, I rescued a pup named Milo. He has high anxiety but is also super sweet and silly. He really likes Montana because it's much quieter than Portland. The country life suits him!

When I was in first grade...

My teacher was Mrs. Powell at Corvallis Primary School in Corvallis, MT. She was super nice and patient. I loved to read books, ride my bike, and play with my little sister. I had just moved to MT from California. I started ballet (and would stick with it for 11 years!) and learned to fish. I loved art, science, and music. When I grew up, I wanted to be a teacher and used to make my little sister play school with me all the time!
