Assessments

		Autism Based							
		ADOS-2: Autism Diagnostic Observation Scale Kept at Jefferson						Observation and interactive based standardized assessment given by a trained team. Use if you need to determine if social issues are more about attending or understanding or if there is a discrepancy between school and parent reporting.	All ages
		ASDS: Asperger's Syndrome Diagnostic Scale						Preferred over GADS and GARS. Can be used with parents and teachers.	Ages 5-18

MIA	Checked Out	Name	Copies	Author	Pub Date	Newer Version?	Value	Purpose	Age group
		CARS-2: Childhood Autism Rating Scale-Second Edition Standard and High Functioning Versions						Standard: completed based on information from a single sources such as interview with someone who knows the child or through observation. High Functioning: must have information from multiple sources such as observation, file review, interview (parent, student, teacher), and developmental history.	All ages
		CCC-2: Children's Communication Checklist-2						Good to give to parents. Helps distinguish between autism and a language disorder. Parents complete and is good paired with SRS.	All ages
		GADS: Gilliam Aspergers Disorder Scale						Checklist for determining Aspergers.	School age
		SRS-2 : Social Responsiveness Scale-Second Edition Preschool forms kept at Jefferson						Updated version of SRS. Still has a parent and teacher version as well as male and female version.
