Interrogation and Arrest of Students

With the exception of student interaction with School Resource Officers (SRO) (BP3234 and 3234P), all contact between the school and the police department on matters involving students shall be made through the administrative office. The District encourages police to talk to a student away from the school and before or after school hours. Law enforcement authorities other than SRO's should only be allowed to conduct an interview in the school, if they can show special circumstances exist or if the interview is at the request of the school. The Superintendent or principal should make this determination.

- A. If the police have a warrant for the student's arrest, they must be permitted to arrest the student; however, whenever possible, the arrest should be conducted in the principal's office out of view of other students. Before removing a student from school, the police shall sign a release form in which they assume full responsibility for the student.
- B. Law enforcement personnel should not be allowed to roam about the school until the student is found. They should remain in the administration office while school personnel seek out the student.
- C. If possible, the educational program of the student should not be disrupted to allow for police questioning.
- D. Any questioning by police should be conducted in a private room or area where confidentiality can be maintained.
- E. If law enforcement officials are to be allowed to question a student under the age of eighteen (18), a reasonable attempt shall be made to notify the parents of the time of the questioning and their option to be present, except in cases of suspected child abuse or child neglect involving the parent.
- F. If the parents are notified and able to attend, they will be allowed to be present at the interview. The administrator should be present at the interview, but should not take part in any questioning. The administrator should at all times remain a neutral observer.
