

STUDENTS

Athletic Program

The emphasis of the middle school athletic program in Missoula County Public Schools shall be on sportsmanship and the development of habits of good health and character. Participation on school teams is restricted to students who demonstrate good citizenship and satisfactory effort in school work.

A waiver of liability shall be required from each middle school student participating in all inter-school sports.

Gym shoes are recommended for use in the gymnasium during all physical education activities. Recreational activities in the gymnasium shall not be participated in by anyone wearing shoes which will scratch or mar the floor finish.

The middle school athletic program of the School District may include the teams from private and home schools. There are no tournaments, post season games or all-star contests. Tie standings are not played off.

In the absence of an intramural program, the District will co-operate with community groups and agencies whom provide programs to be sure that the children are aware of these opportunities.

The high school athletic program follows Montana High School Association (MHSA) rules and regulations.
