

ADMINISTRATION

Administrative Regulation Authority

The Board has provided the basic objectives, administrative guidance, basis for performance evaluation, and the means of community leadership to the administrative and operational staff through Board policy.

The Superintendent provides the leadership and general supervision for the implementation of Board policy and the management of the School District affairs under these policies. Frequently, this will be accomplished through the Superintendent's directives, administrative regulations or bulletins. Administrative regulations are the Superintendent's specifications for the implementation and management of School District affairs under Board policy.

The administrative staff shall provide the immediate leadership and supervision of the implementation of Board policy and the management of School District affairs as prescribed in the policies and the administrative regulations.
