Wednesday

Tasks

Today is considered an "on-boarding" day. This means we will be going over many of the rules and policies of HHS as a class. Your tasks:

-Listen respectfully to the HHS policies we are required to review

Objectives

- ☐ Review required HHS policies and procedures
- ☐ Familiarize yourself with location of materials in the classroom

Homework

- ☐ If you don't already have a 3-ringed binder you can use for chemistry you need to get one ASAP. We will begin putting papers in it almost immediately.

Thursday

Tasks

Today is considered an "on-boarding" day. This means we will be going over many of the rules and policies of the classroom. Your tasks:

- Listen respectfully to the classroom policies
- Work on your personal profile card for me

Objectives

- ☐ Understand the expectations of this classroom
- ☐ Review syllabus so you know what to expect
- ☐ Familiarize yourself with location of materials in the classroom
- ☐ Work on personal profiles if time

Homework

- ☐ If you don't already have a 3-ringed binder you can use for science you need to get one ASAP. We will begin putting papers in it almost immediately.

Friday

Tasks

Today is our first normal day of the year! We are going to dive right into a project on the periodic table. The tasks we will complete today are:

- ☐ Work on personal profiles
- ☐ Review "welcome to chem" slides
- ☐ Introduce "adopt an element" project

Success Criteria

After today you will be able to:

- ☐ ...understand where chemistry will start this year
- ☐ ...think about the periodic table and how it relates to my interests
- ☐ ...determine which element I would like to research

Homework

- Your only homework for the weekend is to come back to class on Tuesday with an element you would like to "adopt" for your project!
- Please have a backup in case your first choice is already taken.
